DAILY EDITION. Thursday, Oct. 24, 1918.

The man who would succeed must have faith in himself, his town, his country and in mankind. The man who has faith like a grain of mustard seed is hot on the trail towards betterment, and if he fails to move a mountain he can kick up considerable dust with his six-cylinder roadster as he purrs along the highway that leads around it.

Lovers of Dickens will wish that Mark Tapley were in town just now; and yet there are plenty of Mark Tapleys in the city today who are coming out strong and who are disappointed only because what seems difficult turns out to be so easy.

How much more pleasant and soothing it is to read of a plague in India and to give two bits to help the poor devils, than it is to have a real live plague of our own right in town. Distance lends enchantment.

When children are unkind and inconsiderate it is usually because the parents are unkind and inconsiderate. Children, therefore should be taught to choose their parents carefully.

Boys! Forget the epidemic. Stop talking and thinking about it and give everyone a chance to get better. Set in motion some health vibrations and pass them round.

People who want to be happy are; those who wish to be sad can always find an excuse.

**Prince Rupert Beats All Competitors.**

The annual report of the Canadian Red Cross has just been received and it gives some very interesting information. From it the facts are gleaned that Prince Rupert stands higher in the amount contributed than any other town its size in the province. The amount sent from here was \$645 more than from the city of Nelson, and approximately \$2,500 more than New Westminster. This is a record of which to be proud. What we should congratulate ourselves on is that we are able to do it. We are now in the last year and we want to make it a record one.

**Still is Need To Conserve Food.**

The Canada Food Board is asking that there be no let up in the conservation of food. It is just as necessary that care be exercised now as ever it was since war began. There is not the acute shortage in Britain that there was last year, but still there is need of saving. Reserves of food must be built up and the food must come from this side. Some French towns have only three days' supply of bread and a short break in communication may cause much suffering at any time.

Just now, while the influenza is threatening, it is necessary for everyone to be well fed, as well fed as possible, in order to ward off the danger of infection. Practically everyone comes within reach of the germs but those who are in good physical condition are able to throw off the infection. The germs are destroyed before they enter the system.

**Wonderful Increased Production in Britain.**

What Great Britain has done in the matter of increased production is an object lesson to the world. The increased acreage in England and Wales planted to cereals and potatoes compared with two years ago is 2,125,000, in Scotland 300,000 and in Ireland 1,500,000, making a total of 3,925,000. There are 8,000 prisoners of war engaged in the work of production and, according to the reports, they work diligently and willingly. Each of these prisoners receive two parcels of food a month from Germany.

Another important factor in the increased production campaign there is the army of 270,000 women who are doing farm work. Some of them run tractors and do horse plowing, but the majority are engaged in dairying.

**Keep up the Food Supply and Help Make Victory Sure**

"I AM assured that my people will respond to every call necessary to the success of our cause—with the same indomitable ardour and devotion that have filled me with pride and gratitude since the war began."  
 HIS MAJESTY KING GEORGE

OUR soldiers must be fed; the people at home must be fed. And—in spite of Germany's murderous campaign to cut off the Allies' Food supply, by sinking every ship on the High Seas—an ample and unflinching flow of food to England and France must be maintained.

This is National Service—  
 Not to the Farmer only—  
 But to YOU—to everybody—  
 This appeal is directed

WE must unite as a Nation to SERVE—to SAVE and to PRODUCE. Men, women and children; the young, the middle aged and the old—all can help in the Nation's Army of Production.

PLANT a garden—small or large. Utilize your own back yard. Cultivate the vacant lots. Make them all yield food

WOMEN of towns can find no better or more important outlet for their energies than in cultivating a vegetable garden.

EVERY pound of FOOD raised, helps reduce the cost of living and adds to the Food Supply for Overseas.

Be patriotic in act as well as in thought.

Use every means available—Overlook nothing.
