

## A Song for Every Mood

Music gives expression to every human emotion. All that is happy and beautiful in life, has been expressed in music.

When things seem bright and cheerful because a ray of happiness has come into your life, you need an outlet to give vent to your feelings.

When sorrow or depression comes, the need of consolation is even greater.

It is at such times that you derive the greatest comfort from

## The NEW EDISON

"The Phonograph with a Soul"

Then one sweet note of the voice of Anna Case, or one ripple of melody from the bow of Albert Spalding, puts your soul in harmony with the world. Music—real music—is one of life's greatest boons. Edison music is real music because the New Edison does not merely imitate, it re-creates. One never tires of the New Edison, the novelty never wears off, because there is no novelty to wear off. It is not just another "talking machine". It is decidedly different. To appreciate the difference you must hear it.

We will gladly submit the New Edison to your musical judgment either here or in your own home.

Charles Wesley Teetzel, Prince Rupert, B.C.

## OBSERVATORY IN B.C. IS OPERATING WELL

New Mirror Has Already Been Used to Take Important Stellar Groups.

The Dominion Astrophysical Observatory at Victoria, B. C., completed early in May by the installation of the great mirror, regular observing with the spectrograph began just one week after the mirror arrived in Victoria, a record-breaking performance, indicating how carefully all the details of the design of mounting had been worked out and constructed and how thorough had been the preliminary preparations for the installation of the mirror.

The performance of the mirror, the accuracy and convenience of the mechanical parts, and the quality of the atmospheric conditions on Observatory Hill exceed all expectations and there is no question but that the telescope will fulfill all promises, be a great engine of research, and bring Canada into greater prominence in the scientific world.

### 600 Examined.

Already upwards of 600 star spectra of excellent quality have been photographed and the measurement of these plates is proceeding as rapidly as is possible with the present staff. A program of upwards of 800 stars for observation at Victoria has just been prepared in co-operation with the Mt. Wilson Solar Observatory.

By this arrangement all of the stars, within reach of the two observatories, in Boss's Catalogue, an important list of stars whose radial motions are urgently required, are divided in such a way that each observatory will complete its list about the same time. It is estimated that it will take at least three years to photograph the spectra, 4 or 5 being required for each star, and to measure and reduce the plates at Victoria. By the co-operation of the two observatories, the three largest telescopes in the world, the Victoria 72 inch and the Mt. Wilson 60 inch and 100 inch (as soon as the latter is completed) will be used in conjunction in this important work and thus enable the results to be available for general use in a much shorter time than would otherwise be the case.

### Direct Photographs.

The telescope has also been used in making direct photographs and has proved very efficient in this respect. The director has agreed to obtain with the telescope, at the request of Prof. E. C. Pickering, Director of Harvard College Observatory, a number of photographs of the Harvard Standard Regions for cataloguing the magnitudes of the faintest stars and for extending the well known Harvard Work on stellar magnitudes. These plates will be measured and reduced at Harvard and as one hour's work with the telescope will require several days' labor in the measurement and discussion, it is evident, in the present understaffed conditions of our observatory, that no better work can be done for the advancement of astronomy than this form of co-operation.

## ALL SPANISH INFLUENZA CASES HAVE RECOVERED

The press reports several hundred thousand cases of Spanish influenza in the Argentine, South America, and not a single death. Cinchona Tree Bark, a powerful tonic from which Quinine is extracted, macerated in wine, is their Great Remedy for Influenza. If the people only knew that the principal ingredient in KENNEDY'S TONIC PORT was this same Cinchona Tree Bark macerated in pure wine, thereby assimilating all the various quinine alkaloids, there would be very little, if any, of the Spanish Influenza in Canada today as the quinine alkaloids in KENNEDY'S TONIC PORT are three to five times more effective than ordinary capsule quinine.

Owing to its powerful reconstituent and blood-making properties, it gives to weakened, run-down people the very support and strength needed. It is the most efficient general tonic and builder of body tissues you can possibly use.

Drug Stores Sell It.

"Yours not to reason why,  
"Yours but to go and buy—  
"Victory Bonds."

## Just Camouflage

The man who buys bonds is the same man who sends tobacco and other Christmas stuff to the boys overseas. The man who does neither is to be pitied. He loses two of the pleasures of life.

Some men are too mean to invest their money to their own advantage.

If the Victory Bond canvasser fails to call on you, go to his house, haul him out of bed and make him put on his jeans and sign you up before it is too late. This will be the last Victory bond issue and cannot be missed.

The Kaiser says: "I will not abandon my sorely-trying people, but if necessary, I am ready to become something like heredity president of a German republic, like the Kings of England, Belgium and France." But the dear kind Kaiser may find it good for his health to abandon his people. It certainly will be good for their health.

"Every mickle makes a muckle," whatever that may mean, but it takes ten good honest Canadian dollars to give a man a lien on a hundred dollar Victory Bond.

He who fights or runs away  
May buy a Victory Bond today.  
And make up for the opportunity he lost in not going to Europe to take a shot at the Huns.

Hit the trail at once to the nearest vendor of V.B.'s.

The best way to cure the influenza is to buy a Victory Bond, pay cash for it and slip it in the hip pocket. Then whenever you feel low-spirited slap yourself on the bond to remind yourself that you have done your duty. It is a sure cure. The alternative is to get someone to use his boot on the spot where the bond ought to be. It is not so efficacious but it is what you deserve if you forget to order as many bonds as you can pay for.

## NOTICE TO SOLDIERS ON HARVEST LEAVE.

Attention is directed to a recent announcement published in the Press by the Military Service Branch, Department of Justice, regarding extensions to be granted to men EXEMPTED AS FARMERS.

It is pointed out that this DOES NOT IN ANY WAY AFFECT MEN WHO HAVE BEEN ORDERED BY THE REGISTRAR TO REPORT to Depot Battalions and who have thereafter received leave of absence from the Military Authorities.

Once a man has been ordered to report for duty by the Registrar he leaves the jurisdiction of the Registrar and comes under that of the Department of Militia and Defence, and is to be considered as a soldier. This applies to men of the 20 to 22 Class who have been ordered to report by the Registrar in virtue of the cancellation of exemptions by Order-in-Council of the 20th April last, as well as to those ordered to report in the usual way on refusal of claim for exemption, or on expiration of exemption granted.

All men, accordingly, who have been ordered to report, and are therefore SOLDIERS, and who have subsequently been granted harvest leave by the military authorities, MUST, NOTWITHSTANDING THE NOTICE ABOVE REFERRED TO, REPORT ON THE EXPIRATION OF THAT LEAVE, unless they are notified to the contrary by their Commanding Officer or by general notice published by the Department of Militia and Defence.
