

EGGS IS EGGS DURING THE HENS' HOLIDAY

Price Will Be Dollar a Dozen
Within Few Days; Tomatoes
Becoming Scarce.

CHRISTMAS GROCERIES ARE NOT YET ARRIVING

There is no word yet of the Christmas goods for the grocery and provision stores. Specialties are difficult to get and even the orders for staples are not being filled.

Eggs are stiffening in price although some firms are still offering the fresh variety at 90c. The general price, however, is 95c, and it is prophesied that it will be a dollar within a day or two. Eggs are always scarce in November, being the holiday period for the hens. However, by Christmas time there should be some improvement.

Tomatoes and peppers are getting scarce and will be off the market very soon. The quality of the tomatoes is not as good as it was and the demand is falling off as the weather gets colder.

Tomatoes are a hot weather fruit. A shipment of Acadia salt cod arrived a week ago and is being offered in neat boxes, at 2 lbs. for 10c. It seems like bringing coals to Newcastle to bring fish to Prince Rupert, but the neat packages are a temptation to purchasers.

Preserving pears are pretty well off the market but so many local housewives were busy with influenza patients while the preserving time was on that they have missed the opportunity to get their bottles all filled.

The following prices are obtaining:

Oh say! The News Print Shop does its work about as cheap as most shops and quite as well, gives you the work on time whenever possible and hands it out with a pleasant "Thank you." What do you say to giving them a trial on your next job?

War Efficiency and National Prosperity

More than a billion and a half dollars distributed in Canada for exported agricultural produce and the products of labor in the fiscal year ending March 31, 1918, has kept Canada busy and prosperous in spite of the war.

CANADA'S production in such enormous quantities was made possible only by the money received through Canada's War Loans. Canada thus was enabled to assist the Allies in their purchases here by establishing financial credits for their use in this country.

CANADA'S war loans not only have sustained Canada's war effort, but they have kept the wheels of production turning as they never turned before.

This is the flood of cash which poured in to Canada's farms for their exports in the fiscal year 1918, for:—

Butter	\$ 2,000,000
Cheese	36,602,000
Eggs	2,271,000
Oats	37,644,000
Wheat	366,341,000
Flour	95,896,000
Meats	76,729,000
Vegetables	19,034,000

Over six hundred and thirty-six million dollars for exported farm products alone!

AND the workers of Canada also shared greatly in Canada's export trade.

For their products there was distributed in Canada, during the year:—

Munitions	\$450,000,000
Metals	92,083,000
Vehicles	22,776,000
Wood Pulp and Paper	59,599,000

These huge sums were spent in Canada by the Allies.

Canada's own war expenditure for the fiscal year 1918 was \$342,762,000.

And the bulk of all these expenditures, the foundation of Canada's prosperity and war effectiveness, was made possible only because the subscribers to Canada's war loans furnished the working capital.

CANADA must keep this great work going—must produce as never before; must work, fight, save and lend as she has never yet done to bring victory and a lasting peace to a war ridden world.

But Canada to-day (thanks to her great export trade), is in a better position now than ever, to carry on.

The Victory Loan 1918 will keep Canada busy, will enable her to maintain her great export business; and it will make Canada more efficient than ever, because her prosperity will not be diminished and her determination to work, fight and win will be stronger than it has ever been before.
