TERMS SENT TO GERMANY ARMISTICE SIGNED BY ALLIES AND FORWARDED TO THE HUNS

ARMISTICE IS NOW IN HANDS OF GERMANS READY FOR THEIR ACCEPTANCE OR REJECTION

Harmony Among Allied Powers Over Peace Terms;
Will Be Much Like Those Accepted by Austria
and Turkey.

(Special to The News via G. T. P. Telegraphs.)
Washington, November 5.—The terms under which Germany obtain an immediate armistice and the end of the war, were dictated yesterday and signed in Paris on behalf of the Allied governments. Secretary Lansing announced the fact last night in a statement, adding that complete diplomatic harmony has been achieved by the Allies and the Americans at the conference Versailles.

That the terms follow closely those under which Austria-Hungary surrendered yesterday and passed out, leaving Germany is the presumption in official circles. It is understood that the document will be in the hands of the German Government in less than twenty-four hours.

Naturally there is much speculation as to whether Germany will accept the terms offered. It is assumed by some that she will make a counter proposal, but it is made very clear to her that she is not the one to make proposals but only to accept a peace.

There is a large circle who believe the Kaiser will fight to the end, but those who know the Germans better do not anticipate such struggle. They know that they are beaten and even if there is a slight delay the expectation is that within a very short time the end of the great war will have arrived.

TORN LOAN GETS \$80,000

is the Amount Subscribed
to Date and the Good
Work is Still Going on.

The Victory Loan campaign is making good progress. The committees are nearly all working and the total has now mounted to \$80,000 so far. This is well, but it is not yet quite enough to win the pennant. Within a few days, however, the subscriptions will come in.

The city will invest all its sinking fund in the loan. This will amount to between seven and ten thousand dollars. A number of people are paying in their subscriptions through the banks and are not all recorded so that it is difficult to find out the exact amount subscribed to date.

The wonderfully inspiring news from the front ought to stimulate people to do their utmost as a patriotic shot at the Kaiser, their only method of hitting him and hitting hard.

Some purchasers of bonds are holding back as they are not quite sure how many they can take. Everyone seems to be making an effort to go the limit in order that this district, which is a wealthy one, may make a creditable showing.

Joe Filion was admitted to the General Hospital yesterday suffering from influenza.

OPTICIAN
EFFICIENCY AND EXPERIENCE
Are the two most important qualifications necessary to satisfactory correction of poor vision with glasses.
Our Dr. Hoyt is one of the most efficient opticians in Canada with an experience of years of practice in the United States—a graduate of the best colleges in the world.

WHISKEY IS FOUND IN ROOMING HOUSE

Archie Albert Pays \$50 for Having
Liquor in Possession contrary to Act.

Last evening about 11 o'clock Chief Vickers, in company with Constable Adams and Phillipson, paid a visit to the Belmont Rooms on Fraser Street, armed with a search warrant. On going through the premises they found part of a bottle of whisky in the kitchen and on the landing, inside the garbage can, and behind it they discovered five other bottles of Sanderson's "Glenleith" Scotch.

This morning Archie Albert, the keeper of the Belmont Rooms, was charged before Magistrate McMullin with contravention of the Prohibition Act, in being in possession of intoxicating liquor in a place other than a dwelling house. The accused pleaded guilty, and was defended by L. W. Patmore. Counsel for the defence put forward the plea that as this man's wife was sick, this was not an inordinate quantity of liquor to have around. The court imposed a fine of \$50 and costs.

This morning five Chinamen who were charged yesterday with being inmates of an opium resort appeared before Magistrate McMullin in the police court. They all pleaded not guilty and from the evidence it appeared that only one man had been smoking, and that the room they were in was a general sitting room. The court could not find that the place was an opium resort, within the meaning of the Act, and the charge was dismissed.

A block of Victory bonds was taken yesterday by the Atlin Fisheries, Ltd., the amount being \$5,600. This was credited to the New England Fisheries, which is the parent concern, the Atlin Fisheries being the name of the local subsidiary company.

BORDEN ST. HOSPITAL SOON TO BE CLOSED

At the City Council meeting last night Mayor McClymont reported that 75 patients had been cared for at the Borden St. Emergency Hospital. Of these fourteen had died, forty had been discharged and twenty-two were still there. Of the total, forty-three had been residents of the city and the others had come from outside points. By the end of the week he hoped that they would be able to close up, as there were very few cases now coming in. One arrived yesterday, but he hoped that would be the last.

300,000 AUSTRIANS WERE TAKEN BEFORE THE SURRENDER TO ALLIES

(Special to The News via G. T. P. Telegraphs.)

Washington, November 5.—According to an official dispatch received here from Rome, the victorious Italian armies captured three hundred thousand Austrian prisoners and not less than five thousand big guns of all calibres, before the armistice went into effect at three o'clock yesterday afternoon.

These figures include all the captures from the enemy by the Italian and British troops since the great offensive began again on October 14.

The soldiers of the once powerful Austrian army continue to flee in disorder. All semblance of discipline has disappeared, and each and every soldier is seeking his home, or some other place of refuge. Since the offensive started, sixty-three Austro-Hungarian divisions have been put out of the combat, and the loss in killed and wounded suffered by the enemy has been tremendous.

CONVERGING MOVEMENT FOR PURPOSE OF DRIVING HUNS OUT OF INVADIED TERRITORY

MANY PRISONERS TAKEN AND VILLAGES LIBERATED IN
THE LATEST MOVEMENTS ALONG THE WHOLE
WESTERN FRONT—GUNS IN
DOMINATING POSITION

(Special to The News via G. T. P. Telegraphs.)

London, November 5.—Over a front of 30 miles in north-western France, Haig's armies delivered a mighty blow against the Germans, and tore into their positions, capturing important strategic points in the enemy line and taking more than 10,000 prisoners. Of particular value in the general plan of driving the Germans out of invaded territory was an advance of more than three miles across the Cambre Canal, which leaves Haig's men on good ground for a further dash.

The French and Americans on the southern part of the line are keeping up intensive operations in a great converging movement, which, if it continues, is likely to end in a big battle before the Germans reach the border.

The Americans opposite Stenay in the Meuse Valley have an excellent footing. They have made further progress up the river to further important German lines. In the centre the American lines stand twelve miles south of Sedan.

In the latest operations a large number of Germans have been made prisoners and many villages liberated. Anglo-American guns now dominate Thionville, Mont Medy, Metziers, Hiron, railways, the cutting of which will rob the Germans of light communications from the south and place in jeopardy a large number of enemy troops.

TWO BODIES FROM GALIANO PICKED UP

Taken to Swanson Bay and Will
Be Sent South on First
Steamer.

Two more bodies from the wrecked Admiralty Patrol steamer, Galiano have been picked up and taken to Swanson Bay. No details are available. One of the steamers going south will call and pick them up and take them to Vancouver.

No further word has been received in regard to the steamer. She is probably broken up and her wreckage will be drifting on the beaches and will likely be reported from time to time.

FISH ARRIVALS

On Sunday the Republic brought in 45,000 lbs. of halibut; the Seattle came in yesterday with 26,000 lbs., and today the Fisher arrived with 10,000 lbs.

The skipper of the Republic brought word that the New England had put into Ketchikan with 25 sick men. This boat would carry a crew of about 30, so that practically the whole company was down with flu.

AUSTRIAN MUNITIONS WILL BE USED AGAINST GERMANY IF KAISER CONTINUES WAR

FINAL DISPOSITION OF TERRITORY LEFT FOR PEACE
TABLE—EXECUTION OF ARMISTICE GUARANTEED BY THOROUGH ARMISTICE JUST BEFORE SURRENDER

(Special to The News via G. T. P. Telegraphs.)

Washington, November 5.—Austria-Hungary passed out of the world war yesterday under terms of abject surrender.

Not only have the armed forces of the Empire laid down their arms to await the end of the war and a dictated peace, but Austro-Hungarian territory is open for operations against Germany. Austrian munitions are to be used against the armies of the Kaiser if Germany continues the war.

The terms which stopped the victorious advance on the Italian front were accepted by the Austrian commander in chief in the name of the Vienna Government and execution is guaranteed by the thorough beating already administered, which converted the defeated army into a fleeing horde.

The terms imposed previously upon Bulgaria and Turkey were hardly so drastic as those which Austria has been bound to accept. The Austrians are compelled to retire from a wide strip of territory within the borders of the Empire on the Italian border, and the question of the final disposition of territory is left to be settled at the peace table.

OIL TANKER BRINGS CARGO FROM FRISCO

Capt. Doran Who Has Been With
Her Six Years Brings
Her to Port.

With 1,360,000 gallons of oil for the Imperial Oil Co., the tanker Capt. A. F. Lucas, commanded by Capt. O. C. Doran, arrived in port early yesterday morning, discharged her cargo, and is leaving this afternoon for San Francisco. First officer Pearson and Second Officer Pearson were both down with influenza and were visited by a local physician while here.

Just before coming north the Lucas had been sent to pick up a barge which had broken away from the Richmond, a steamer which is well known here. She was on her way to Panama towing the barge when a terrific gale made it so unpleasant that she let the barge go and it was picked up by one of the Shipping Board vessels and towed to Acapulco. The Richmond injured her stern post and had to pump out 25,000 gallons of oil to protect herself. The barge also pumped out 15,000 gallons for the same purpose.

The Lucas is a ship of 3,257 tons registered, is seventeen years old and Capt. Doran a Norwegian with an Irish name, has been on her for the last six years, during which time he worked up from second mate.

CARD OF THANKS

Mrs. Andrew LeRoux desires to express her thanks to the many friends who have helped her during her bereavement and also to those who have expressed sympathy or sent flowers.

A petition which has been circulated here asking for the appointment of an official liquor vendor at this point has been signed by 700 citizens. This does not ask for any privileges not enjoyed by some other cities. It simply means that in filling orders for liquor under medical prescriptions the best possible quality may be secured. At present the stuff often has to be purchased from bootleggers at enormous prices and the quality is very poor.

INFLUENZA CASES BECOMING FEWER

Vincenzo Rossi, an Italian, Died At
the Hospital Last Night;
Mate of Tanker
Comes In.

That the epidemic of influenza is decreasing is the report on all hands this morning, and this fact is borne out by the figures showing the small number of new cases being reported, and the increasing number of patients recovering, both at their own homes and in the hospital.

There was one more death at the General Hospital last evening when Vincenzo Rossi, an Italian, died. His address was Seventh Avenue and he was aged 45 years. He was admitted on October 28.

The second mate of the oil tanker Lucas was taken off his ship last evening and brought to the hospital. Very few other cases have since developed.
