Tuesday's Seattle Times contained a sensational story of how the gas boat King and Winge went close to the steamer Princess Sophia while she was on the rocks and asked that she be allowed to take the passengers off, but this request was refused by the captain, Photographs of the ship were taken showing that there was very little sea running at the time. It has been suggested that it should be left for the public inquiry to bring out these facts officially rather than that they should be made the subject for newspaper articles. The matter is a very serious one and should not be deaft with lightly.

That "Day" Has Come

Behind Canada lies fifty months of blood and anguish, fifty months of the fires of trial, and of sacrifice---of glorious triumphant battling against the hosts of evil.

And in the surging joy of today comes to us the sobering sense of duty yet to be performed.

Canada's part in the finish of the war must be as well done as was her part in fighting and winning it. Canada's great duty to her living and her dead must be met with the same manliness, seriousness and determination, which have won for her the respect and admiration of the world, in waging the war.

Canada's Victory Loan 1918 must be oversubscribed, that Canada may discharge, in peace, the great responsibilities which the war thrust upon her willing shoulders.

Canadians, let us with devotedly thankful hearts and in proud consciousness of duty well done proceed with our great task.
