PRICE FIVE CENTS

Wilhelm May Be Extradited BUY VICTORY BONDS TO HELP ALLIES CARRY ON GOOD WORK

WILLIAM HOHENZOLLERN IS NOT SAFE EVEN THOUGH HE HAS ARRIVED IN HOLLAND

WAS INDICTED FOR THE MURDER OF PASSENGERS ON
LUSITANIA AND MAY BE EXTRADITED AND
HANGED FOR HIS CRIMES

New York, Nov. 12.—It is suggested that William Hohenzollern is not safe from the consequences of his deeds even though he has fled to Holland. He may be extradited and come to trial before a British Court of Justice and possibly be hanged by the common hangman.

After the sinking of the Lusitania and during the early days of the aerial raid on London, he was three times indicted for murder in England, and the punishment for murder in that country is usually hanging.

Under international law it is said a requisition for his extradition may be made by England under the indictments standing against him.

It is not likely that any action will be taken immediately, even if it is decided to do so later. The work in hand just now is to bring order out of chaos in Germany and contiguous countries.

SUNDAY SCHOOLS OF CANADA UNITE TO HELP VICTORY LOAN BY WAR MEMORIAL

ONE MILLION SCHOLARS
ONE MILLION DOLLARS!

A million Sunday School scholars and members of Young People's Associations of the Anglican, Presbyterian, Baptist, Methodist and Congregational Churches are co-operating on a plan which has the three-fold purpose of helping to boost the Victory Loan Over the Top; assisting the Churches to extend their mission work, and commemorating the heroism of church members who have fallen at the front.

"Every School at least one bond" is the cry that will help to carry the 1918 Victory Loan to the Sunday Schools' million dollar objective. Above is a reproduction of the shield to be presented to each Sunday School subscribing a bond.

FOCH'S ORDER TO TROOPS OF ALLIES

London, Nov. 12.—Directly after the signing of the armistice treaty General Foch issued the following order to the Allied army commanders: "Hostilities will cease November 11 at 11 a.m. along the French front. The Allied troops will not, until further orders, go beyond the line reached at that hour."

The difference in time between France and British Columbia accounts for the apparent discrepancy.

INSPECTION BYLAW FOR ELECTRIC WIRING

Measure Passed Through All Its Stages Provides a Scale of Fees to Be Paid.

A new telephone inspection bylaw was put through all its stages and finally passed at the meeting of the City Council last night. This provides for an inspection of all new wiring or repair work and that there be certain charges for the inspection.

Alderman Casey was very dubious about the rushing through of the measure and he made a number of inquiries, apparently fearing that the charges would be an imposition on somebody. He wanted to know what was the reason for the introduction of the bylaw.

Alderman McMeekin, who had the bill in charge, said he guessed it had something to do with insurance.

The Mayor explained that all cities had wiring inspectors and they all charged for their services. Prince Rupert was just falling in line with other places in adopting the inspection system. The rates were largely copied from those in force in other cities.

PULP MILL TO BE BUILT AT MASSET INLET BY F. L. BUCKLEY AND ASSOCIATES

SAWMILLS WILL CONTINUE TO OPERATE RIGHT ALONG;
LARGEST SPRUCE LOGGING OUTFIT ON
CONTINENT OF AMERICA AT
QUEEN CHARLOTTES

Masset Inlet is to have a pulp mill in the near future, according to an announcement made by F. L. Buckley of the Masset Timber Co. before he left for the south Sunday night. It will be built to use up the low-grade timber that must be taken out in order to log economically on the Queen Charlottes.

The logging company, which Mr. Buckley manages, is the largest spruce logging outfit on the continent of America. There are thirty steam logging outfits getting out from eight to ten million feet a month on the 170 square miles of limits controlled by the company around the inlet.

These logs, which are got out under order for the Imperial Munitions Board, are supplied to the five mills on Masset Inlet, to the Khyex Mill on the Skeena, the Georgetown mill, the Prince Rupert mill and some are sent south to Swanson Bay.

Mills to Continue.

In addition to the logging operations Mr. Buckley has two mills, one at Buckley Bay on Masset Inlet, which cuts 75,000 feet of lumber a day in one shift and the Khyex mill on the Skeena river which cuts about 50,000 feet a day. The total payroll of the concern is about \$125,000 a month and of this 90 per cent of the

BOULTON MILL WILL CONTINUE TO BE OPERATED

Masset Inlet Lumber Co. of Port Clements Making Arrangements To Change From Munitions Work to Commercial Business.

"Yes, we expect to work right through and devote our energies to commercial business after the Munitions Board shuts down," said G. H. Boulton of the Masset Inlet Lumber Co. of Port Clements who is in the city. Mr. Boulton, who is the proprietor of what is generally known as Boulton's Mill, was very optimistic over the future. He said there was no idea of closing just because the war was over and the demand for aeroplane spruce likely to lessen. He expects that the demand for commercial purpose will at once commence and very soon the adjustment will be made.

Mr. Boulton said that already their mill was working but one shift a day, whereas formerly they had worked two. There might, he thought, be a few weeks when orders would be light, but he did not anticipate any considerable disarrangement. They would have to change all their plans and get down to a commercial basis. He thought the labor situation would soon ease up considerably and that would make things better.

AUSTRIAN SHIPS ARE ALREADY HANDED OVER

Rome, Nov. 12.—It is officially announced that the naval clauses of the armistice treaty with Austro-Hungary have been complied with. This seems to mean that all the Austrian warships are already in the hands of the Allies.

Mr. Buckley says that he has no fear that there will be any cessation of work as a result of the end of the war. He says that they have a fine new dock at the mill 400 feet long to which ocean-going vessels can tie up. This will be a great aid when it comes to competing in the business. In order to take care of the inferior grades they will build a pulp mill and will develop the business to the limit.

A good deal of the lumber will also be brought to Prince Rupert and manufactured into boxes and all sorts of other commodities. An office will be opened here from which most of the business of the company will be handled.

Value to City.

Discussing the value of the business to Prince Rupert, Mr. Buckley said that whenever possible they purchased their goods in Prince Rupert. Naturally they bought in the cheapest market, but whenever Rupert prices were anywhere near those he could get to the south he made the purchases here. All the meat, which amounted to fifty quarters of beef a month, besides other meats, were bought from P. Burns & Co. and in order to get as much as possible of Prince Rupert goods their buyer, Mr. Gilchrist, was stationed here. They took 1,000 pounds of fish a month from the cold storage.

Improvements.

In order to make the mill at Masset right up-to-date Mr. Buckley has installed a radial mill, which is the very latest idea. They are also building permanent homes for the men, an indication that they intend to make the work permanent.

Mr. Buckley expects to be away in Vancouver about two weeks, consulting with his associates, Stewart Cameron and J. L. Davidson, after which he will commence work at the drydock.

PAUSE IN THE STEADY FLOW OF COLD CASH

Much Done Yesterday in the Victory Bond Campaign But Expected That Renewed Energy Will Follow.

Up to last night the Victory bond subscriptions amounted to \$243,650 and of that amount the city of Prince Rupert alone had raised \$243,650. This is not a very large increase over the amount announced on Saturday night and had it not been for the city contribution would have shown the work almost at a standstill.

At the City Council meeting last night the sum of \$12,000 of the sinking funds was ordered to be invested in the bonds on the recommendation of City Treasurer Johnson.

It was announced last evening that today the canvass of the residential district by the Daughters of the Empire, headed by Mrs. G. Dawson, would commence. The canvass it is expected will bring in a good deal of cash.

It is confidently expected by the committee that Prince Rupert will go well ahead of the \$100,000 asked from the district. Most of the other districts in the province have exceeded their objectives or are expecting to do so. Prince Rupert will show herself equally energetic.

Those having loose cash in the bank can easily convert it from three to five and a half per cent interest by buying the bonds.

FOOD IN FRANCE IS VERY SCARCE

France, so far as food is concerned, is in a bad way; worse than in 1917-18.

The total nutrition value for the 1918 crop of cereals, beans and potatoes is below that of last year.

The French Food Controller is authority to this statement and that the wheat crop is large and of better quality, but the maize, barley, oats, beans and potato crops are much larger.

The potato situation is particularly grave for this year; the crop is not more than 7,500,000 long tons, as compared with an average for the last ten years of 12,000,000 long tons. According to private estimates, the total wheat crop in France for 1918 will be about 180,000,000 bushels, an increase of about 25 per cent over last year's production. For the three years preceding the war the average production was 324,187,000 bushels. In 1914 it was 282,689,000 bushels, while in the years 1917 and 1918 it dwindled to 144,149,000 bushels.

It is seen that France is "up against it" as regards the food question.

If you can't fight, dammit, you can lend your money to strafe the Kaiser. Buy Victory bonds.

BIG CELEBRATION IS BEING ARRANGED TO COMMEMORATE ENDING OF FOUR YEARS' WAR

JOINT COMMITTEE DECIDES ON WEDNESDAY OF NEXT WEEK FOR DATE — NAVAL PROCESSION, PROMENADE CONCERT, STREET PROCESSION AND BONFIRE

Next Wednesday, the 20th of November, will be the day appointed for the city of Prince Rupert to celebrate the cessation of hostilities in Europe. This was decided this morning at a representative meeting held in the Mayor's office, when the Sons of Canada, the Sons of England, the St. Andrew's Society, the Trades and Labor Council, the G. W. V. A., the clergy, and the ex-mayors conferred regarding the matter.

While it is possible that the Government may appoint some particular date for a national day of rejoicing, it was considered as well to go ahead with the arrangements, which will not be altered on this account.

The 20th of November will be a full holiday, and the first feature of the celebration proposed is a review of the Prince Rupert fleet. Every craft in the harbor that will float is expected to join in the naval procession. An admiral will be appointed for the day who will have full charge.

All the vessels are expected to be decorated to the utmost, and meantime Fred Stork, T. H. Johnson, of the Canadian Fish and Cold Storage Co., and J. H. Meagher, of the Fishermen's Union, compose the committee in charge.

Triumphal Arch.

The building of a triumphal arch is left in the hands of the

Trades and Labor Council, and after the naval procession the G. W. V. A. will arrange for a monster procession through the city in the afternoon. C. C. Perry and the Mayor have the matter of providing a brass band in hand.

In the evening the proposal is for a big torchlight procession, which will be marshalled down town, and proceed to the recreation grounds, and the Exhibition Hall, where there will be music and speeches. And after dark, a huge bonfire will be lighted.

The committee appointed to arrange for the Exhibition Hall programme consists of Canon Rix, Alderman McMeekin, and the Mayor, while Chief Vickers, Fire Chief McDonald and Alderman McMeekin will arrange for the combustibles.
