RE COW BAY

To the Editor,

The letter by "Cheechako" in your issue of today strikes the key note of the situation by that last quotation, "The fishermen know what they want." The city council also know what they want, and by their attitude are determined that what they want to keep is Cow Bay, they declare that the city owns Cow Bay. A desirable piece of property I presume, and the state of Cow Bay or the stink that emanates from the said desirable piece of civic property for my part they can keep to themselves, as it is an abomination to twentieth century hygiene. The sidewalk that is used by the public when they wish to visit the waterfront is another asset to such a desirable piece of civic property. Rumor is to the effect that the lumber company in the confines of said bay built this sidewalk. If it is correct, credit is due to this progressive company for their action. But on the other hand I cannot reconcile myself to think that the City Council should allow this desirable property to sink to such a state as to become a nuisance to the public health by the sewerage that occasionally escapes from the pipe line that is carried across on trestles in said bay, and now that there is a chance to forward a project for the benefit of not only the fishermen, who by their calling have placed Prince Rupert on the map, and no one can deny or refute this statement, for without the fishing industry Rupert would soon die a natural death. Then we find that a large number of our townspeople have pleasure boats of their own and the floats would certainly be a godsend to them. Why a city like this is has so long delayed, or shall I say patiently waited, for the Provincial Government to build floats and wharves for the essential needs of its industries, and requirements is beyond my reasoning, whereas other private companies can secure waterfrontage, why not the city. Waterfrontage the city should have, and the Provincial Government should be made to fulfill its promises, floats for fishermen and enough for all who could use them with breakwater and facilities for dry-docking their boats so they can be repaired, and running water at each float for the personal needs of everyone, not like it is at present, by the lumber shed in Cow Bay. To secure these we must have representatives on our city council, and true representatives at the Provincial Government. The remedy is in your hands, take it in doses daily until election time comes around and then apply the remedy, and believe me you will be surprised that you have ignored the true remedy so long, and that is have your own class legislate for you. Join the Federated Labor party and help us in the next elections, civic or Provincial, or Dominion, it does not matter which.

Yours respectfully,
 "LABOR."

SOLDIERS CAN GET FARMING INSTRUCTION

London, Nov. 14.—The British Government has announced its plans to provide agricultural training for soldiers. Realizing that the experience which many of the men have passed through during the four years of war will make it impossible for them to return to their former occupations, and that thousands will have the desire to proceed overseas after demobilization, the Government is offering the opportunity for such men to fit themselves to become producers. The plans laid forth include a three months' course in Great Britain during this coming winter.

This plan includes instruction for soldiers from the overseas dominions also, as well as for English and Scottish soldiers. Provision is also made to authorize instruction for the men who return home immediately.

Even if you have already bought a Victory bond, don't you think you could manage to pay for another?

Why delay further? Buy that Victory bond now and settle the matter.
