

Fire Insurance

Winter is approaching. This means that the fire risk to your property is increasing through the hotter fires in your stoves and in your neighbors' stoves. Buildings are getting older, many have settled more or less on their foundations. In some instances this has caused the chimneys to crack and become dangerous when winter fires are lit. Would it not be well to protect yourself now against loss by insuring your property?

We Write Fire Insurance.

Your Child's Cough

Is it nothing? Is it to be neglected until it leads to that terrible scourge consumption? Peps stand between winter coughs and colds, and serious consequences. Peps are tablets made up of Pine extracts and medicinal essences, which when put into the mouth turn into healing vapors. These are breathed down direct to the lungs, throat and bronchial tubes—not swallowed down to the stomach, which is not ailing.

Try a 50c. box of Peps for your cold, your cough, bronchitis or asthma. All druggists and stores or Peps Co., Toronto, will supply

(Special by G. T. P. Telegraphs.)

The General's horse, a thoroughbred and unused to noise was frightened by the band of trumpets. The animal reared and fell on its rider. General Mangin was unconscious when picked up, having been injured about the head and legs. He remained in a state of coma for twelve hours, but is now making excellent progress.

THE CELEBRATION OF THE ARMISTICE

Arrangements for the All Day Holiday Events Well Under Way—Will be Great Spectacle.

Tomorrow evening there will be a meeting of the Trades and Labor Council to make arrangements for the carrying out of their part in the great day of celebration of the signing of the armistice. The different unions in town are determined that they are going to do their part, and do it well.

There will also be a gathering of the committee for the Naval Review, when further arrangements will be made in detail. This review, which will take place during the forenoon of Wednesday, the 27th, is one of the most interesting sights ever witnessed in the harbour. Every craft that floats will be allocated to its proper position, and it will be a fine sight when the numerous fleet moves forward in line ahead, past the saluting base.

The Carpenters' Union have to do with the building of the triumphal arch, and in the procession which will parade through the city in the afternoon all the Societies in town will be asked to be represented.

In the evening, later on, a torch light procession will be formed down town, which will make its way to the Exhibition Building on Acropolis Hill. In the big building there will be a short series of ten minute speeches and after these a huge bonfire will be lit outside. The program as sketched out by the committee is a good one for such a celebration and it is fitting that a public holiday should mark the occasion.
