

UNITED STATES LOST 354,449 TONS IN WAR

Total of 145 Vessels and 775 Lives
Lost Through Acts of
The Enemy.

(Special via G. T. P. Telegraphs.)
Washington, Nov. 22.—The loss of 145 American passenger and merchant vessels of 354,449 tons and 775 lives through acts of the enemy during the period from the beginning of the world war to the conclusion of hostilities on November 11, is shown by figures made public today by the Department of Commerce Bureau of Navigation.

The report does not include several vessels, the loss of which has not been established as due to acts of the enemy.

Nineteen vessels and 67 lives were lost through acts of torpedoes, mines and gunfire prior to the entrance of the United States into the war.

SENDING SOLDIERS TO GET ON THE LAND

Bills to Be Introduced At Next
Session of House to Give
Effect to Conference
Plans.

(Special via G. T. P. Telegraphs.)
Ottawa, Nov. 22.—Introduction of bills at the next session of Parliament to enable land colonization and soldiers' settlement schemes (discussed at the Conference of Provincial Premiers here) to be brought into effect is considered likely. The first of these projects, introduced to the conference by Hon. J. A. Calder, Minister of Immigration and Colonization, involves the purchase by the provinces, with money lent to them by the Dominion, of privately owned, undeveloped land, and the sale of this land on easy terms to settlers.

The second scheme suggested by Hon. Arthur Meighen, Minister of the Interior, provides for giving additional aid to returned soldiers desirous of settling on the land.

GREENWOOD SMELTER

On account of having found that the pay-grade ore in the Mother Lode mine, is a little greater in quantity than anticipated, the C. G. Co. is still able to ship ore from the mine and keep the smelter running, says the Greenwood Ledge. It is not possible to estimate the exact date when the smelter will have secured all this ore, and will continue to operate, possibly for two weeks more.

GOOD HUNTING FOR DEER ALONG COAST

Bucks Easy to Get At This Time
Of Year—Do Not Make Off
On Approach of
Hunter.

It is so seldom that hunters get a real balanced pair of antlers on the deer they kill that when one is secured they usually have it mounted. Last week H. S. Parker secured such a pair and he is now busily engaged in setting it up. It is a four-pronged antler, but each side is just alike and such a one is valued highly.

This is the rutting season when it is easy to secure deer. Usually the bucks run away on the approach of a hunter, but just now they approach any noise and are much easier to kill. The snow has driven them down from the hillsides and they may be found almost anywhere along the coast.

A number of fine deer have been brought in lately and venison has been rather a common delicacy for some time past. Some fine deer have been shot at Tuck's Inlet and others at Port Edward, but there is no particular place where it can be said the animals are to be found.

The hunting season lasts only to December 15, so those contemplating getting a deer this year should lose no time.
