

Fire Insurance

Winter is approaching. This means that the fire risk to your property is increasing through the hotter fires in your stoves and in your neighbors' stoves. Buildings are getting older, many have settled more or less on their foundations. In some instances this has caused the chimneys to crack and become dangerous when winter fires are lit. Would it not be well to protect yourself now against loss by insuring your property?

We Write Fire Insurance.

STEAM ROAD ROLLER FALLS THROUGH FULTON STREET

The thing that "daddy" wouldn't buy, while making its way up Fulton Street yesterday, foolishly took the wrong side of the road, and promptly fell through the solid muskeg. It lay there right opposite the City Hall, a mute witness of the futility of trying to make roads with muskeg. This morning the fire automobile hitched on to the end of it, and with the assistance of stout planks the road roller was pulled out of the hole. The dinky little thing is without doubt the most interesting occurrence in town today, and by throwing its weight around, is making some improvement on Third Ave.

THE MODERN EVE

The latest uniform to appear on the streets in Great Britain is that of the Women's Royal Air Force. The tunic is of light blue, with gold facings, as is also the skirt. The result is resplendent, and a big recruiting boom is foreseen when the "light blues" get busy.

BACK TO THE LAND

Although the Women's Land Army in Great Britain was only formed "for the duration," many of the "land Lassies" have already announced their intention to stay on the land when peace comes.

Ladies—At last we have received boys' pure wool ribbed stockings, St. Margaret's make, English manufacture, the kind you like, but have only 15 dozen pairs, so get your supply before it is too late. — Acme Importers.

The funeral of the late James Hennebery will take place tomorrow at 2 p.m. from the Catholic Church. Mr. Hennebery was a fisherman and arrangements are being made by the Union, as no word has been received from relatives in the east.

20 MILLION GERMS

According to a scientist, are freed every time a person coughs! If you happen to be in the vicinity it is impossible for you to breathe without inhaling some of them. Yet there is one sure way to avoid infection—Keep your mouth and throat bathed with the pleasant but germ-destroying vapor that is liberated from a Peps pastille as it dissolves in the mouth.

Not only as a preventive but as a cure for bronchitis, sore throat, coughs and laryngitis. Peps are equally good. All dealers, 50c. box.

DAWSON QUARANTINE

(Special via G. T. P. Telegraphs.)
Dawson, Y. T., Nov. 23.—The Yukon Territory has established a strict quarantine against the Spanish influenza and not a case is known to have developed in the territory. As only one route commands the entrance to the region it is being watched scrupulously under the direction of Col. Knight, acting chief executive and head of the North West Mounted Police.

GERMAN CHILDREN DYING OF HUNGER

(Special by G. T. P. Telegraphs.)
Toronto, Nov. 23.—According to a special cable, Admiral Mourer who commanded the surrendering German fleet, said to Admiral Beatty: "You understand we are driven to this. There is no child life in Germany, all are dying of hunger. We ask you to accept full crews instead of half personnel."

WANTS GERMAN SHIPS

(Special via G. T. P. Telegraphs.)
Victoria, Nov. 23.—The local Navy League has requested that some of the surrendered German war craft be sent to the Pacific coast to form the basis of a Canadian navy.

"RESOURCES" AGAIN AS ATTRACTIVE AS EVER

The latest number of Resources—the magazine edited by Weston Coyney—loses none of its attractiveness. It deals with such important subjects as "The Known Dangers of Lynn Canal," "Empress Eugenie of France," "Cosmopolitan Prince Rupert," "Prussians are Still Heathens," and "Renaissance of Groundhog." The illustrations in the magazine are bright and give an idea of the activities of the north country.

Then We Meet Some Like This

A lady told one of our girls last week that she liked Pacific Milk well enough for cooking but that fresh milk is what she uses mostly.

"But," she added, "my husband insists I have it in the house for his coffee and porridge."

We find a great many homes like this. Some frankly admit they are prejudiced against tinned milk and do not use it.

Others, like this lady, get it because the family prefers it for coffee, etc., but the bulk of our output is used for cooking—as we prove by house to house investigation.
