

# What We Don't Know Doesn't Bother Us

## NIGHT COUGH

You know it! It begins with a tickling, irritating sensation in your throat. You cough to clear the throat. In a moment there it is again!

A minute's peace, then again you cough, and so on until you cough your throat sore, and by the time the cough is sufficiently allayed to permit you to sleep, you are thoroughly worn out. This kind of experience is particularly trying to old people.

Peps make this sort of thing quite unnecessary.

Put a Peps pastille on your tongue and allow it to slowly dissolve. Healing fumes are then liberated, which mingle with the breath and are carried to the remotest parts of the air passages and lungs, allaying the irritation and soothing the inflamed membranes, thus ending the cough and making sleep possible.

Peps are also best for bronchitis, laryngitis, asthma, sore throat and colds. Try Peps at our expense. Send this advertisement and 1c stamp (for return postage), to Peps Co., Toronto, and receive FREE TRIAL PACKAGE. All dealers, 50c. box.

## INTERIOR INDIANS HAVE HARD TIME

Many Die From Influenza and None to Bury Dead in Some Localities.

According to reports from the Clinton section Spanish influenza has about reached the peak of its ravages and signs of improvement are beginning to appear. In the most recent report which chronicled the death, in the midst of his labors, of Dr. McPhail, there were said to be 1,400 cases under treatment all of whom were without medical attention for the time being. By arrangement, however, Dr. Young, Secretary of the Provincial Board of Health, was able to extend the work of Dr. Newton, who had taken in hand the situation along the line of the Pacific Great Eastern Railway to the Clinton end of steel; conditions were thus improved.

In the report of the Provincial Police Officer, made to Deputy Inspector Edens, under whose jurisdiction this section comes, a particularly distressing situation among the Indians is disclosed. Chief Constable Aiken says that information reaching him from Big Bear indicates that in one house a female corpse had perforce to remain for five days, as all the rest of the household were victims of the disease, and totally unable to bury the body. In addition to ministering to the immediate demands of the stricken vicinity the constable dispatched by Chief Aiken was obliged to bury two bodies which had lain for some time.

While at 150-Mile House installing a constable, Chief Aiken—the author of the report to Deputy Inspector Edens—had the misfortune to contract the disease, and was held over an extra day there on account of a case for trial. The justice who sat on the case also contracted the disease on the same day, and has since died of pneumonia following Spanish influenza. Cold clear weather is expected to improve conditions.

The Dominion Government has authorized the expenditure of \$1,500 to relieve the situation among the Shuswap Indians, and the essence of a report from the Provincial Police to the Indian Agent of the locality is that conditions were found to be appalling.

## INFLUENZA GERMS CAN BE SWALLOWED BY WHOLESALE

No Danger of Contracting Influenza.

So states a well known Vancouver doctor who offers to swallow a capsuleful every day for a week. The Doctor is right.

With plenty of fresh air, good nourishing food and a table-spoonful of KENNEDY'S TONIC PORT four times daily you can keep your body strong and thoroughly fortified against the ravages of influenza, asthma, bronchitis, colds or coughs.

BIG DOCTORS PRESCRIBE IT. DRUG STORES SELL IT.

Oh say! The News Print Shop does its work about as cheap as most shops and quite as well, gives you the work on time whenever possible and hands it out with a pleasant "Thank you."

What do you say to giving them a trial on your next job?

## COST OF LIVING IS STILL GOING UP

Fact Indicated by Ottawa Labor Department's Report for October.

During October, the last full month of the war period, the cost of living in Canada still was ascending, according to figures compiled by the Labor Department. This statement applies both to the index number of wholesale prices, which rose approximately four points as compared with September, and the weekly budget of staple foods. This budget averaged \$13.54 in some sixty cities, as compared with \$13.31 in September and \$11.81 in October, 1917. The retail price of meats was slightly lower than in September, but eggs, milk and butter were higher.

The Department reports that the loss of time on account of industrial disputes amounted to 65,868 working days. This was less than in September, but greater than in October, 1917. The percentage of unemployment among trade unions was less than one per cent. on October 1, but this condition was disturbed by the influenza epidemic.

Then We Meet Some Like This

A lady told one of our girls last week that she liked Pacific Milk well enough for cooking but that fresh milk is what she uses mostly.

"But," she added, "my husband insists I have it in the house for his coffee and porridge."

"We find a great many homes like this. Some frankly admit they are prejudiced against tinned milk and do not use it."

Others, like this lady, get it because the family prefers it for coffee, etc. But the bulk of our output is used for cooking—as we prove by house to house investigation.

**Pacific Milk Co. LIMITED**
