

### Fire Insurance

Winter is approaching. This means that the fire risk to your property is increasing through the hotter fires in your stoves. Buildings are getting older, many have settled more or less on their foundations. In some instances this has caused the chimneys to crack and become dangerous when winter fires are lit. Would it not be well to protect yourself now against loss by insuring your property?

THEY are exceptionally desirable in style, in materials and in prices. They were all bought before the late sharp advance in wool cloths and we could not duplicate them to-day for the prices for which we are selling them.

Many of our new styles in Raincoats have the appearance of wool coats, are made with the "trench belt" and are thoroughly waterproof.

Another new arrival is a shipment of Little Red Riding Hood Raincoats for girls and misses.
