

This Drawing is from a Photograph

— That's
why it
means so
much

It is from an actual photograph of Anna Case of the Metropolitan Opera singing in direct comparison with her own voice on the New Edison.

"But what's remarkable about this?" you ask. The amazing fact is that no human ear can distinguish the artist from the instrument; so perfect is the Re-Creation. This is what we call the "tone test". And it proves the truth of the Edison Company's claims about

The NEW EDISON

"The Phonograph with a Soul"

It proves that the instrument does re-create, not merely imitate. Hundreds of these tone tests have been conducted. More than 2,000,000 people have attended them. And not one could say when it was the artist he heard and when the instrument. With the lights lowered to hide the singer's lips the audience was completely baffled.

Visit our store for a demonstration of the marvelous New Edison or have one sent to you. Home. No obligation, of course.

Canada and Re-Construction.

To the Editor—

As it is admitted that Canada has done well in the war, for the sake of humanity and fighting for the world's freedom from the ruthless military power of Germany and their allies, now the question arises, what is Canada to do in the reconstruction of that part of devastated Europe?

It is well known that Canada possesses immense natural resources awaiting development and that development can only be obtained in accordance with the amount of available capital. The most urgent requirements are:

(a) The food supply and the products of the soil that can be obtained by intelligent and progressive farming and I am very pleased to learn that the best informed and most progressive Canadian farmers have now come to the advanced stage of foreseeing that mixed and rotative farming will be the best for the future welfare of the farmers of Canada and it appears to the writer that experienced experts in rotative farming should be obtained by the western Provincial Governments to thoroughly explain and promote that branch of farming in the west; also endeavor to introduce farm buildings of a more fire resisting nature than the present timber "matchbox" construction that burns so readily and many farmers lose all they possess in a few minutes, which is both a personal and material loss.

Lumber Prospects.

(b) Next to the production of the land are the immense forests of Canada, growing and producing timber of a very high grade of various kinds, ready to cut and ship and if the lumber companies will only adapt themselves to the requirements of France, Belgium and Great Britain, a splendid trade can be established at once. Something better than the common methods of framed building construction is required and the timber should be cut and prepared to allow for a more substantial class of construction and available for more artistic designs than we see in some of the western cities at the present time, which is the work of the speculative builder combined with ideas taken from some 25 cent books of plans, or the production of some commercial stores in the form of free plans.

During the past seven months the writer has had a splendid opportunity to study the situation in the western provinces and has come to the decided opinion that the northwest district of Canada is able to supply all the soft woods that France, Belgium and Great Britain requires. The northwest timber in the Prince Rupert district is much harder and more durable than the timber grown farther south; it is also smaller in size and in every way more suitable for reconstruction. Progressive mills can produce all the rough and finished work to complete a dwelling house, without sheet iron, metal or plaster, using 3-ply panel boarding for inside wall finishing.

Capital and Energy.

Immense quantities of timber are around Prince Rupert, and in the Skeena River district along the line of the Grand Trunk Pacific railway, and all that is required is a little capital, some energy and a progressive spirit and de-

sire to prepare the materials in a way to facilitate construction to meet the natural artistic ideas of the people in France and Belgium who have suffered and lost so much.

At Prince Rupert there is a splendid, large, deep, sheltered harbor, good trading facilities, with large docks at the Grand Trunk Pacific Railway terminals, a good railroad and splendid rolling stock ready and well equipped to carry to any eastern sea port a large amount of freight for shipping to France and Belgium.

Following a careful study of Prince Rupert, its location and natural facilities, surrounded with natural forests and immense mineral deposits, rock of a fire-proof nature, which with suitable Portland cement will make thoroughly fireproof buildings, large deposits of clay, not far from the city, where arrangements are already being made for the manufacture of clay products and portland cement. The large areas of good land on the Grand Trunk Pacific Railway, between the Rocky Mountains and the Coast Range of mountains, where many good homes may be built in the near future. With such a bright outlook and rare opportunities it appears to the writer that Prince Rupert will soon become the principal western port of Canada and the natural port for the trade with China and other Eastern parts of the world.

"MANITOBA."

HON. WALTER SCOTT TO BECOME EDITOR OF MOOSE JAW TIMES

Moose Jaw, Sask., Nov. 28.—In its editorial columns the Moose Jaw Evening Times, over the signature of Hon. Walter Scott, president of the Times company, makes the announcement that Hon. Walter Scott, former premier of Saskatchewan, will return to the editorial chair and assume the editorship of the Evening Times. Since his retirement from public life Mr. Scott has lived at Victoria, B. C., where he will remain for the winter, but will return to Saskatchewan in the spring and resume his permanent residence.

NOTICE OF CANCELLATION OF RESERVE
NOTICE is hereby given that the reserve existing on certain portions of Lots Two hundred and five (205) and Two hundred and eight (208) Range Three (3) Coast District, surveyed and known as Lots Eleven hundred and fifty-nine (1159), Eleven hundred and sixty-one (1161) and Eleven hundred and sixty-two (1162) by reason of a notice appearing in the British Columbia Gazette of 27th December, 1907, is cancelled for sale purposes.
DATED at Victoria, British Columbia, this 10th day of September, A. D. 1918.
G. R. NADEN,
Deputy Minister of Lands.

NAVIGABLE WATERS PROTECTION ACT.

R. S. C. CHAPTER 115.
The Port Edward Fisheries Limited hereby gives notice that they have, under Section 7 of the said Act, deposited with the Minister of Public Works at Ottawa and in the office of the District Registrar of the Land Registry, District of Prince Rupert, at Prince Rupert, B. C., a description of the site and the plans of a cannery and wharf proposed to be built situated on portion of Porpoise Harbor at Port Edward, B. C., in front of part of Lot 4476, Range 5, Coast District.
And take notice that after the expiration of one month from the date of the first publication of this notice, the Port Edward Fisheries Limited will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa, for approval of the said site and plans and for leave to construct the said cannery and wharf.

Dated at Vancouver, B. C., this twenty-fourth day of October, 1918.
PORT EDWARD FISHERIES LIMITED,
Nov. 29. R. E. WALKER, Secretary.

STOP
Your
CHILD'S COUGH

WHEN a child starts coughing mother's duty is to give the little sufferer a Peps tablet, and thus prevent any weakening of the lungs. As the tablet dissolves in the child's mouth, the soothing medicinal fumes given off pass through the tender breathing passages straight to the lungs and bring immediate comfort and relief.

Peps contain no opium or other harmful drugs, and can be given to a child (either whole or crushed to a powder) with the assurance of absolute benefit.

One little Pep at night will clear the breathing passages and let the little one's sleep be unbroken by coughing fits. A Pep before starting for school in bad weather is also an invaluable safeguard for the children's throats and chests. All dealers, 50c. box.

FREE TRIAL
Send this advert., name of paper and 1c. stamp (for return postage) to Peps Co., Toronto and free trial package will be sent you.
