This Drawing is from a Photograph

— That's why it means so much

It is from an actual photograph of Anna Case of the Metropolitan Opera singing in direct comparison with her own voice on the New Edison.

"But what's remarkable about this?" you ask. The amazing fact is that no human ear can distinguish the artist from the instrument; so perfect is the Re-Creation. This is what we call the "tone test". And it proves the truth of the Edison Company's claims about

The NEW EDISON

"The Phonograph with a Soul"

It proves that the instrument does re-create, not merely imitate. Hundreds of these tone tests have been conducted. More than 2,000,000 people have attended them. And not one could say when it was the artist he heard and when the instrument. With the lights lowered to hide the singer's lips the audience was completely baffled.

Visit our store for a demonstration of the marvelous New Edison or have one sent to your home. No obligation, of course.

LOCAL LAND LAWS AHEAD OF DOMINION

Hon. T. D. Pattullo Gives Interview in Vancouver on His Return From East.

After attending the conference of provincial ministers at Ottawa and engaging in his first airplane joyride near Toronto, Hon. T. Dufferin Pattullo returned this morning and went on to Victoria, says the Vancouver Province. Hon. John Oliver, who also attended the Ottawa meeting, but who is a trifle aged for the airplane class, is one day behind Hon. Mr. Pattullo. In an interesting discussion of the conference the minister of lands said: "The main value of the conference at Ottawa lies in the exchange of views of the various representatives from all parts of the Dominion. A large number of questions and the viewpoints of the various provinces obtained.

"While the all-important problem from the standpoint of British Columbia was the re-construction period which is now upon us and a thorough and adequate provision for the rehabilitation of returned soldiers into civil life, nevertheless we took the opportunity to present British Columbia's claim for the return of the railway belt and the Peace River block.

Insisted Upon It.

"The federal authorities did not appear in a receptive mood in respect to our claim, but it will not surprise the people of British Columbia to learn that their representatives insisted upon the consideration by the conference of the claims of British Columbia, and I am glad to say that the conference viewed these claims with every sympathetic favor.

"In respect of the land settlement proposals of Hon. Mr. Calder, we, of course, in British Columbia, are a long way in the lead in legislation upon land settlement. I was so bold as to say some time ago that we have in British Columbia the most progressive land legislation in the world. Having spent some time in the east and having visited New York and Washington in addition to Eastern Canadian centres, gathering all possible information on this and other problems, I am doubly confirmed in the opinion which I have formerly expressed in connection with our land policy.

"I earnestly hope that Mr. Calder will unremittingly pursue his announced policy of encouraging immigration. It is absolutely essential that we should have more people in Canada in order to develop our resources, and thereby lessen the burden of the heavy 'overhead' with which we are confronted. Particularly does this problem confront British Columbia, and as far as the British Columbia Government is concerned we purpose doing everything possible to encourage development of our natural resources which will mean, of course, increase of population.

A Federal Duty.

"Members of the Ottawa Government made it very clear that

the Dominion Government looks upon the soldier settlement problem as being the especial duty and function of the federal administration. The latter proposes to carry out its operations with regard to assistance to returned soldiers through the Soldier Settlement Board, and such action as is taken will be through the medium of the board and with its approval. On our part we are ready to transfer to the Dominion board for soldier settlement purposes any vacant crown lands suitable for soldier settlement. The details of co-operation between the Dominion Soldier Settlement Board and the provincial authorities will require to be worked out, but we propose to cooperate to the fullest possible extent by rendering available, so far as is in our power, land which the Dominion board may desire for soldier settlement purposes.

"I am glad to say that the acting Prime Minister, Sir Thomas White, indicated that the Dominion Government would cooperate in some scheme of providing homes for soldiers and widows of soldiers. I left with Sir Thomas a memorandum setting forth just what we in British Columbia had done to date with regard to purchasing lots in South Vancouver and elsewhere, which we were giving to returned soldiers free of charge. I asked the acting Prime Minister if he would indicate at the earliest possible date just what form the assistance to be given by the Dominion Government would take, and I am sure that he will give the matter immediate consideration. The principle has been approved. It is a matter of working out the details.

A Flight at Toronto.

"Many other matters of importance came before the conference which I need not mention, as Hon. Mr. Oliver will no doubt make a statement upon his return. During my visit I paid a visit to the aviation schools and the aerial works in Toronto. I had also opportunity of making a flight with an expert pilot, Lieut. Parks, formerly of Yale, B. C., who told me that if the evolutions made me sick to put up my hand. As I did not put up my hand I think he tried hard to force me to do so, for he went through all the evolutions known to flydom, and it was all very interesting.

Canada may well be proud of her work in connection with the aerial service. It must be said that under the direction of Sir Joseph Flavelle, who called to his assistance a bunch of live-wire young business men, a remarkable organization was built up in a remarkably short space of time."

NAVIGABLE WATERS PROTECTION ACT.

R. S. C. CHAPTER 115.
The Port Edward Fisheries Limited hereby gives notice that they have, under Section 7 of the said Act, deposited with the Minister of Public Works at Ottawa and in the office of the District Registrar of the Land Registry, District of Prince Rupert, at Prince Rupert, B. C., a description of the site and the plans of a cannery and wharf proposed to be built situated on portion of Porpoise Harbor at Port Edward, B. C., in front of part of Lot 4476, Range 5, Coast District.
And take notice that after the expiration of one month from the date of the first publication of this notice, the Port Edward Fisheries Limited will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa, for approval of the said site and plans and for leave to construct the said cannery and wharf.
Dated at Vancouver, B. C., this twenty-fourth day of October, 1918.
PORT EDWARD FISHERIES LIMITED,
Nov. 29. R. E. WALKER, Secretary.
