Queen Charlotte Islanders cannot do better than mail their printing needs to The News Print Shop and get the work done promptly and well.

HUDSON BAY MOUNTAIN ORE BEING SHIPPED

Arrangements Made by Pete Schufer with Silver Standard To Mill It.

Pete Schufer returned to town last Monday from New Hazelton, where he was completing arrangements with the Silver Standard management for milling the ore which he and his partner, Lou Wood, have mined from their property on Hudson Bay mountain during the past summer, says the Interior News. Mr. Schufer states that the Standard mill is now ready to resume operations after the shut-down necessitated by the serious outbreak of influenza in that camp.

The ore has now been shipped to New Hazelton, and consists of about thirty-four tons. Last year the boys made a similar shipment from the same working, and as the actual smelter returns on that shipment netted the partners well over two hundred dollars per ton, they have something upon which to base their expectations of two hundred dollar ore in the present lot.

Last year's splendid returns were in the face of many penalties imposed on the ore on account of the heavy zinc content. The smelters not only refuse to pay for the zinc contents of ore, but they actually penalize the copper or silver values when this refractory element is present. By having this ore treated at the Silver Standard mine and having the zinc separated, the other values will be realized in full, while instead of being an object for penalty the zinc will now be paid for.

Mr. Schufer, in talking of this latest shipment, said: "The zinc runs pretty high in this ore, and from assays we estimate that in first putting our ore through the concentrator the returns will be two thousand dollars greater than would have been returned had the shipment gone direct to the smelter, and in addition the Standard people handle the whole transaction."

INFLUENZA GERMS CAN BE SWALLOWED BY WHOLESALE

No Danger of Contracting Influenza.

So states a well known Vancouver doctor who offers to swallow a capsuleful every day for a week. The Doctor is right.

With plenty of fresh air, good nourishing food and a table-spoonful of KENNEDY'S TONIC SPORT four times daily you can keep your body strong and thoroughly fortified against the ravages of influenza, asthma, bronchitis, colds or coughs.

BIG DOCTORS PRESCRIBE IT. DRUG STORES SELL IT.

Oh say! The News Print Shop does its work about as cheap as most shops and quite as well, gives you the work on time whenever possible and hands it out with a pleasant "Thank you." What do you say to giving them a trial on your next job?

LAND POLICY OF THE PROVINCE DISCUSSED

(Continued from Page 3.)

although the British Columbia records do not show how much." Socialist Too.

In the list of idle landholders are names such as Ebert a name lately featuring in the news as the first Socialist chancellor of Germany, with 30,720 acres; Heisterman with 56,177 acres, Bauman & Keiher (operating in Seattle) 15,600 acres.

British Columbia has apparently decided that the withholding of valuable land from use is wrong in principle. With the task of reconstruction ahead, it is time the national government arrived at a similar state of enlightenment. Whether 90,000 acres of valuable coal in the Canadian West are withheld from use by Sir Sam Hughes, or Mackenzie and Mann, William of Hohenzollern, or Kobes & Beaton of Chicago, does not affect the principle. No man, nor group of men, should be allowed to hold such tracts of Canadian land in idleness. The land should be worked, and the state should collect the community-created value from it annually, for community purposes, or it should be restored to the state. The land and natural resources of Canada are the birthright of the people of Canada. They should never have been alienated. Where they are held in idleness, they should be taken back.

MINERAL ACT

Certificate of Improvements.
