HELD UP CHINESE JOINT AT VICTORIA

Armed with revolvers, and with their faces completely hidden, two men who wore Canadian military uniforms held up a crowd of men in an alleged gambling place in Victoria's Chinatown. They made away with \$400 in bills, which they took from the clothes of the terrified men.

As it was impossible for the inmates to see the faces of the bandits, the description afforded the police is very general, but Detectives Carlow and Macdonald with several clues, are working on the case. No one was molested but Law Sing, in charge of the lottery which is alleged to have been proceeding. The visit of the robbers was over before the police could be summoned, or any of the inmates could recover from their first surprise.

Many of the Best Families of British Columbia and Vancouver

Barred influenza from their homes altogether. Others banished it quickly as it did appear, by following the example of the Argentine Republic, South America, where thousands of cases developed, but not a single death occurred.

These people use a simple but very effective remedy grown in South America, Cinchona or Peruvian Tree Bark steeped in pure wine by which process the powerful tonic properties of the Bark are extracted and held in suspension in the wine.

Cinchona Tree Bark imported from Peru, South America, steeped or macerated in pure wine for sixty days, then carefully filtered and bottled is sold under the Proprietary or Patent Medicine Act of Canada No. 3095 as KENNEDY'S TONIC PORT at Drug Stores only.

Testimonials from the very best people of Vancouver, Victoria and throughout British Columbia and Western Canada are voluntarily coming in. Many of them state that it saved their lives. Others that it restored them to vigorous health quickly after the Flu.

It is a reliable restorative in all cases of general and nervous debility and is enjoyed when other medicines disagree.

You who are nervous, rundown or anaemic will find it of special value.

NOTICE TO CONTRACTORS

SEALED TENDERS, superscribed "Tender for Cow Bay Launch Harbor Protection Work," will be received by the Honorable the Minister of Public Works up to 12 o'clock noon of Tuesday, the tenth day of December, 1918, for the erection and completion of pile dolphins, etc., at Prince Rupert, B.C., (in the Electoral district of Prince Rupert).

Plans, Specifications, Contract, and Forms of Tender may be seen on and after the 25th day of November, 1918, at Office of the Public Works Engineer, Parliament Buildings, Victoria, B.C., District Engineer's Office, Court House, Vancouver, B.C., and the office of J. H. McMullin, Govt. Agent, Prince Rupert, B.C.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for a sum equal to 20% of tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished, accepted.

The lowest or any tender not necessarily accepted.

A. E. FOREMAN,
Public Works Engineer.

Public Works Department,
Victoria, B.C., November 25, 1918.

If Cooks Could See the Factory

We would like to plan a great excursion to the plant, so every person who cooks could see the care the milk gets.

We would also like to show how carefully the milk is tested for richness and quality.

They could see the clean, sunlit buildings and scrubbed floors that would make a Holland housewife envious.

It is these things that give PACIFIC MILK its wholesome goodness.

REFRIGERATION IS IMPORTANT FACTOR IN THE FISHERIES

Development of Industry in New
Foundland As Result of Modern
Methods of Handling.

St. John, December 7. — Refrigeration is proving a most important factor in the development of the fishing industry of Newfoundland, a modern plant having been built by the Newfoundland Atlantic Fisheries, Limited, a subsidiary of the Reid Newfoundland Company. This plant has a storage capacity of 6,000,000 pounds and freezing equipment to handle 350,000 pounds has been installed.

The Newfoundland Fisheries enterprise promises to have an important effect on the business development of the country because of the new opportunities opened out. Instead of the slow process of salting and drying the fishermen may now have the satisfaction of disposing of their catch on the day when it is made. Fishing is being encouraged and many people have been thus spending their spare time to advantage—sometimes making more in a few hours than in their regular occupations. The industry is expected to develop under such conditions.

Then, too, there has been an important elimination of waste. Formerly the cod was supreme and other varieties were usually thrown back into the "briny" when discovered in the fishermen's nets. Now all species of the finny tribe which are good food are welcome to the refrigeration plant. This means extra money for the fisherman and an increased supply of food. Nor is it expected that the development of the business in fresh fish will interfere with the trade in the salt commodity for which there has always been a steady consuming demand.

NO EXTRA PROFITS ON LIFE INSURANCE BECAUSE OF THE "FLU"

A most comprehensive review of the insurance situation in Canada, in all its branches, was presented at the inaugural meeting of the Insurance Institute of Toronto last week by H. W. Crossin, the new president of the Institute. After pointing with pride to the fact that the Institute was one of a very few which had survived the trying period of the war, he dealt with the unprecedented experience of the life companies in the losses sustained through Spanish influenza.

"The death losses through the war," declared Mr. Crossin, "did not bring the companies' losses up to the expectancy under the mortality tables and I believe that the ratio of war losses this year is possibly not quite as heavy as last. With almost two months to go after the cessation of hostilities, a marked improvement in the loss ratio might have been expected had it not been for the epidemic referred to. The results of that epidemic are such that it is quite likely that an average of one hundred per cent. of the expectancy will be realized by the life companies as a whole this year and, if there should be a continuance of the spread of the 'Flu,' that expectancy may be exceeded.

The Spirit of Sunlight

All over the land the sun calls forth beauty, cleanliness, health and the renewing of youth. So with Sunlight Soap in the home. It redeems everything washable from the thralldom of dirt. Renews beauty and brings out old colors. It cleanses with a sure, gentleness that only the purest of soaps could accomplish.

Sunlight Soap

Its mission—as thousands of homes know—is to wash clothes, from the finest to the coarsest, without rubbing or old-time labour and discomfort. Also to wash woodwork, linoleums, dishes, utensils, etc., spotlessly clean with only a little soap. All this because it is absolutely pure.

The spirit of Sunlight is purity and cleanliness.

No one can buy better Soap.
