If Cooks Could See the Factory

We would like to plan a great excursion to the plant, so every person who cooks could see the care the milk gets.

We would also like to show how carefully the milk is tested for richness and quality.

They could see the clean, sunlit buildings and scrubbed floors that would make a Holland housewife envious.

It is these things that give PACIFIC MILK its wholesome goodness.

HINDU DIVORCE

White Woman Opposes Effort of Chinta Singh to Get Release From Marriage Ties.

The petition of Chinta Singh, a respectable looking young Hindu, said to be the owner of a profitable wood business in Vancouver, for a divorce from his wife, Zelda Ena Chinta, a well-dressed white woman, is being vigorously opposed by both the respondent and the co-respondent, another Hindu called Indar Singh.

The case is being tried before Mr. Justice Macdonald and a jury in supreme court. The petitioner attested that the co-respondent was a partner in the wood business with him and that, following his alleged discovery that he was becoming too familiar with his wife, he bought out his share in the business, paying him \$4,875 for it, \$3,000 cash in June, 1918, and the balance since that time. He further alleged that after the completion of this transaction the co-respondent came to his place and took away his belongings and also persuaded Mrs. Chinta to accompany him, and they, he states, have been living together ever since. An effort will apparently be made to show in the defence that the petitioner was himself untrue to his wife.

"What Phonograph Shall I Buy?"

How many times, when the subject of purchasing a phonograph or talking machine has come up, have you asked yourself this question!

The Edison tone test answers it for you, completely, convincingly.

Over two million music lovers have been present when this test was being made; and they have realized, as you will realize, that the New Edison alone can actually re-create the human voice and the music of human-played instruments.

It is all-important that you hear

The NEW EDISON

"The Phonograph with a Soul"

because it is the only instrument that re-creates the singer's voice so faithfully that the human ear cannot distinguish the rendition of the artist from that of the New Edison.

The wise way to choose your phonograph is to have the several makes of phonographs and talking machines sent to your home on trial, where you can make direct comparisons among them, and then decide which one you would like to keep—which one you think you would enjoy hearing as much five years from now as you do to-day.

Be your own salesman. Sell a phonograph to yourself. We will gladly send a New Edison to your home for the purpose, without obligation on your part.

Charles Wesley Teetzel, Prince Rupert, B.C.
