Opening of Mill Is Encouraging.

The news that the mill of the Georgetown Lumber Co. is to open at once for commercial business is the best news we have had for some time, next to the shipbuilding announcement. It is an indication that there is to be industrial activity here outside of the fishing and shipbuilding.

It was difficult to avoid the feeling when every mill in the district shut down, that before long there would be rather dull times unless something happened to keep things moving. The depression was very short lived for almost immediately came more news of activity in connection with the shipbuilding plant and now this is followed by the recommencement of lumber activity.

The lumber business from this time on will be on a commercial basis. It will not be possible to charge the consumer such prices as will pay for any extravagances in connection with its production. The lumber trade is always run on a small margin. With so many mills in the district the margin is likely to be even smaller than ever and the result will be that the millmen will be cutting down all unnecessary expenditures.

Housing Scheme In Charge of Liberals.

The Tory section of the Union Government at Ottawa seem to have washed its hands of the housing scheme, for there is not one Conservative on the committee which is to administer the scheme and which is known as the Housing Committee. With men like Rowell, Robertson, MacLean and Crerar in charge, the movement is off to a good start. There are difficulties to be overcome, however, and although the sum of \$25,000,000 seems a good deal it does not allow much to a province with a population as small as that of British Columbia. Here undoubtedly private enterprise will have to attend to the housing of the people for many years to come. House property does not pay very well anyway, at any rate in the west.

Most Notable Conference Since Beginning of Time.

Great preparations are being made for reporting the proceedings of the peace conference. Special newspaper writers from all over the world will be in Paris for the great occasion and if they do not listen to the deliberations of the solons will at any rate write articles about the people, how they looked, what they said outside the conference and what Paris is like at the time of the deliberations.

Even from Canada there are many special representatives of the press gone across and many writers will write wisely about the proceedings who will not cross the ocean or even get to know any of the principals in the gathering. It will be possibly the most notable conference in history.
