

# DANGER LURKS IN EVERY ONE OF US

We Are As Full of Deadly Poisons As A Germ Laboratory.

## AUTO-INTOXICATION OR SELF-POISONING

"FRUIT-A-TIVES" Absolutely Prevents This Dangerous Condition.

The chief cause of poor health is our neglect of the bowels. Waste matter, instead of passing from the lower intestine regularly every day, is allowed to remain there, generating poisons which are absorbed by the blood.

In other words, a person who is habitually constipated, is poisoning himself. We know now that Auto-intoxication, due to non-action of the bowels, is directly responsible for serious Kidney and Bladder Troubles; that it upsets the Stomach, causes Indigestion, Loss of Appetite and Sleeplessness; that chronic Rheumatism, Gout, Pain In The Back, are relieved as soon as the bowels become regular; and that Pimples, Rashes, Eczema and other Skin Affections disappear when "Fruit-a-tives" are taken to correct Constipation.

"Fruit-a-tives" will protect you against Auto-intoxication because this wonderful fruit medicine acts directly on all the eliminating organs. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

## The Man in the Moon

Peat has been used in other countries for fuel, so it may be possible to use it here. Owing to the exorbitant prices demanded by the "robber barons" for their coal the city might start a company to utilize our muskeg products.

In exhorting the peat workers to put a little gimp into their labors the next mayor will not hold before them visions of the pay check, but will rise proudly upon a soap box and exclaim dramatically, "Work, for the love of Peat!"

Few realize what a huge responsibility falls upon the mayor-to-be. Upon his shoulders lies the fate of the Empire, and the Empire acclaims him a great man.

It is writ in books of wisdom that a boat is at all times a she. And all editors, wishing to conform as much as possible to rules laid down, speak of vessels in the feminine gender. Yet times arise when the reasoning and common-sense powers of a man rise in revolt against precedent when he sees the good ship Prince Rupert written up and notes that "she will sail." Then again there is the case of the Tom and Al, a fishing boat that operates out of Rupert. Rules of composition state that the craft shall be spoken of as "she," but "they" would seem the less ludicrous way of putting it. In order that these hideous impositions upon the public may be stopped, the gentleman residing upon the lunar body suggests that a committee of aldermen be appointed to pass upon the names of all vessels calling here. The names should be such as will be suitable for a lady.

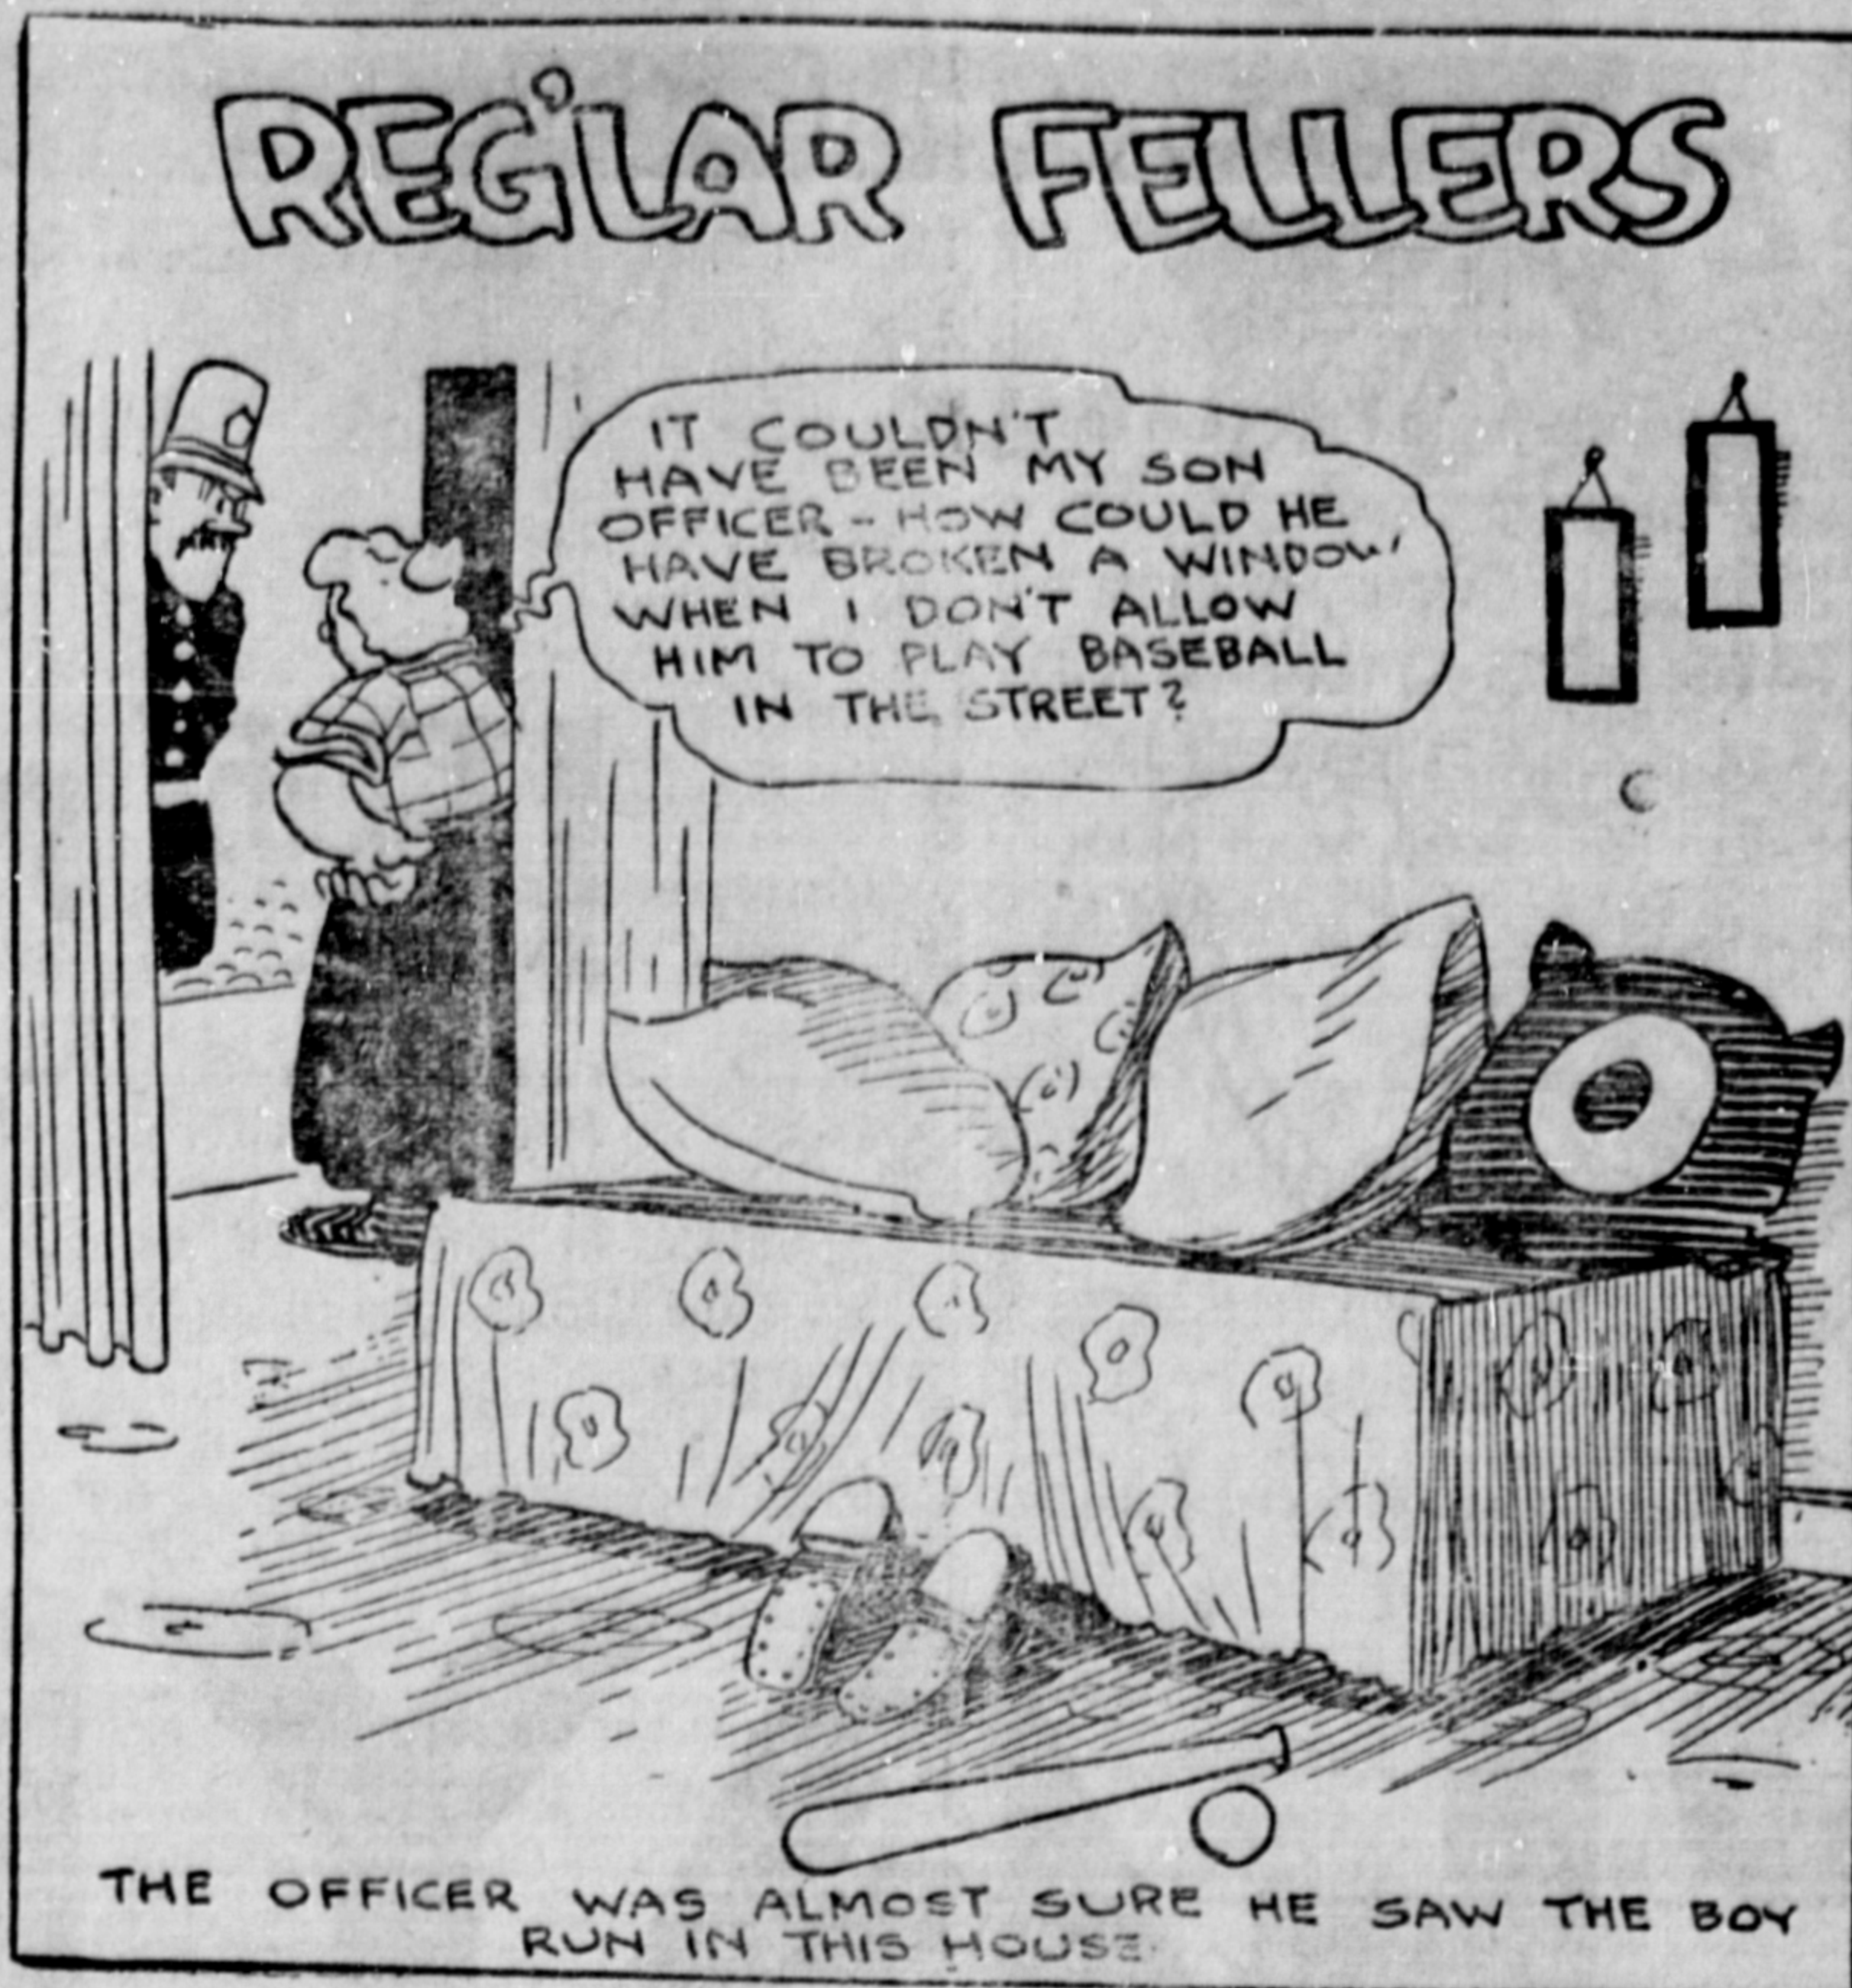

And by the way, speaking of lunar bodies, somebody says he doesn't know who writes this stuff, but at any rate he must be a lunatic.

And somebody else can't make out how I have wind enough to produce this airy stuff. He thinks I get winded making a dash between each paragraph.

Simplicious Simon met a pastry cook who was on his way to attend the exhibition. Said Simplicious Simon to the cook, "Allow me to partake of your products in order that I may ascertain their goodness." Simplicious thereupon responded, "Say you, what the — do you thing I am? A free lunch counter?"

The public consider an editor to be something which hollers to the world everybody's complaints, when the said everybody has not the face to kick for himself. It is sometimes forgotten that an editor must have a few friends in order to run a paper. If the maltreated news dispenser refuses to voice some pet grouch of a citizen who will not speak for himself, he is accused of cowardice or politics, when in reality he is only exercising diplomacy—the same as the citizen is.

When the shipbuilding concern

—Empire Drydock & Shipbuilding Company—was formed in the States to build ships at Rupert, shouldn't the word "evening" have come in there somewhere?

Owing to the "robber barons" soaking the public too much the city will of course take over the coal yards, and owing to the rain-drops soaking the Rupertites too much we shall certainly have municipally-owned clouds.

## WOULD REDUCE RATES IF GOVERNMENT CONTROL

(Special via G.T.P. Telegraphs.)

Washington, Dec. 20.—Director General McAdoo states that with an assurance of five years of government control of railroads, existing freight and passenger rates could be materially reduced within the next calendar year without any reduction of the existing railroad wage scale.
