MUNITIONS BOARD IS TRYING TO SAVE LOGS FROM TEREDO

Looking for Place to Store 30,000,000 feet in Fresh Water; 100,000,000 Feet in All.

The Munitions Board has been looking for a place to store 30,000,000 feet of logs in this neighborhood in fresh water. These logs are already in the water and at this time of year the teredos are particularly active and very soon spoil the timber. For that reason quick action is necessary. Most of these logs are at the Queen Charlotte Islands, but there are also some here and at other points.

Since the British Government is to take a quantity of lumber for reconstruction work in Europe it is expected that an early start will be made in cutting the logs, but as there are something like 100,000,000 feet either in the water or in the woods in this neighborhood including the islands, there will have to be more orders than are at present in sight if the logs are to be all saved. Right here there are five large Davis rafts in the water.

GREAT RECEPTION FOR PRESIDENT WILSON

(Special via G. T. P. Telegrams.)

Rome, Jan. 7.—President Wilson left Rome for Paris last night with the cheers of the Roman throng that had gathered to witness his departure, ringing in his ears. The visit to the Italian Perm. Siberia forces under Gen. his European trip, as it was the most demonstrative.

PROTEST AGAINST INTERVENTION IN RUSSIAN AFFAIRS

Federated Labor Party Passes Resolution on Subject; Salmon Fishermen Join Deep Sea Union.

At a meeting of the Federated Labor Party in Carpenter's Hall, Sunday evening, George Casey presiding, a resolution was passed protesting against Allied intervention in Russia and stating that they still upheld the Allied war slogan, "That all nations great or small be allowed to work out their own destiny." The resolution was carried unanimously and a copy is being sent forward to Sir Robert Borden.

F. Shaw reported on a trip to Vancouver and Victoria and W. E. Thompson suggested regular meetings and offered to give an address on "Nationalization of Railways and Basic Industries," which offer was accepted. The matter of a library and the formation of a brass band was discussed.

J. H. Meagher announced that the Salmon Fishermen had decided to go over as a body to the Deep Sea Fishermen's Union.

can be washed over and over again with Lux and still retain the delightful charm of freshness and newness. Very desirable, this, in war time! Lux is so gentle in its cleansing power that it cannot harm the most delicate fabric.

How to wash a silk garment

Use a tablespoonful of Lux to a gallon of water. Dissolve in boiling or very hot water and whisk into a thick, creamy lather. Add cold water until luke warm. Dip your garment through the Lux suds many times. Work it about, gently squeezing the suds through the soiled parts but do not rub! Rinse in three waters—clear and also luke warm. Press the water out—but do not wring. Dry in the shade and when nearly dry press on the wrong side with a warm iron—never a hot one. Press creases from side to side and stretch a very little as you press. They will look just like new!
