Pure Cream Makes the Richness

There is a pure cream richness about Pacific Milk that is the only secret behind its goodness for cooking.

You see, all we do to the rich, fresh milk as it comes from the farm is to evaporate water out of it.

This leaves the natural butter fat and other cream solids as they were.

Then we seal it up so it remains fresh and sweet.

Try it in the next recipe which calls for milk or cream.

SYNOPSIS OF

LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions, with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of $10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes, areas exceeding 640 acres may be leased by one person or company.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

TOWNSITE PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.

are responsible for the majority of colds. You cannot always avoid these winter evils, but you can, by using Peps, stop the colds and chest troubles they cause. Peps contain absolutely no harmful drugs and can be taken with perfect safety by elderly people and young children.

As soon as dissolved in the mouth, Peps liberate a pleasant, yet highly medicinal vapor, which mingles with the breath, and is carried to the remotest parts of the nasal passages, breathing tubes and lungs. These fumes destroy all the germs of cold, influenza and bronchitis which otherwise would develop in consequence of the body's vitality and power of resistance having become lowered. Peps strengthen the delicate membranes and make your throat and breathing passages 'cold proof.' By being prepared with Peps you can save yourself a great deal of suffering and expense, as well as time and inconvenience.

Mothers should always keep a supply of Peps on hand for children's coughs and colds which should be treated immediately, as neglected colds in childhood often lay the foundations of weak constitutions. Get a box to-day. It will certainly repay you for the small expenditure—50c box, all dealers.

Where a cold has been allowed to develop, Peps will be found equally effective. Also for coughs, bronchitis, sore throat, laryngitis and asthma.
