We helped to win your independence, will you help us to win ours?"

Later the police raided the office of "Nationality," the chief organ of the Sinn Fein. Crowds assembled and sang Sinn Fein songs during the raid.

TO HAVE SHIPYARD IS PROSPERITY NOT TO HAVE IT MEANS STAGNATION

A good deal of interest is being taken in the proposal to grant the Prince Rupert Drydock and Engineering Co. remission of taxes on their shipbuilding plant and site in this city. Many businessmen and others who are anxious to have the shipbuilding start without any hitch have approached The News with the suggestion that attention be drawn to the desirability of voting for the bylaw and thus encouraging the company in the only possible way in their endeavor to establish a plant here.

It has been pointed out that any company operating here is under a severe handicap compared with those in the East, both on account of the cost of transporting steel and also because of the high wages prevailing here. This has been to some extent offset by the fact that there is a fine yard here all ready, and that it can be secured on favorable terms. If the city gives that small sum annually it will be losing nothing, as in case it is decided not to come there will be nothing to tax. It is worth a great deal more than the amount of the general tax to have the advertising that will come to the city from the fact that the shipyard is established here.

There are some people who always oppose a corporation. Often they are right, but just now it means almost life or death to Prince Rupert. To have the yards means prosperity to all; not to have it spells stagnation. That is the way it has been put by callers at this office, and it looks as if they were right.

PROVINCIAL BUREAU OF EMPLOYMENT IS OPENED AT VICTORIA

Prince Rupert to Have Office Later and All to Be Under one Central Head.

The Provincial Employment Bureau has been opened in Victoria as a central office to which there will be subsidiary bureaus in all the larger centres, one of which, it is expected, will be at Prince Rupert. Telling of this the Victoria Daily Times says:

In addition to the institution of the bureau here, it is proposed to open bureaus at other points throughout the province. One has been in operation at Vancouver for the past year and another one will be opened there immediately at the corner of Dunsmuir and Homer Streets, where quarters have been secured. Similar permanent offices will be opened at Nanaimo, New Westminster, Nelson, Cranbrook, Kamloops and Prince Rupert, and at a number of points where it is not deemed advisable at present to open permanent Government bureaus arrangements will be made whereby a species of agency will be provided, that is, some person now established in business of a nature to bring him into close touch with the public will be subsidized on a monthly basis to also look after the work that a permanent bureau would be called upon to do. Such agencies will probably be opened at Prince George, Revelstoke, Rossland, Trail, Fernie, Grand Forks, Kelowna, Penticton, Vernon and elsewhere when deemed advisable.
