DAILY EDITION.

Wednesday, Jan. 15, 1919.

Definite Announcement Of Shipbuilding.

The announcement that work will actually commence on or look through the classified column before February 1 on the shipbuilding contracts is the best news on Page 5. that has been received yet. The company has made all arrangements and is now ready to proceed. That the voters of the city will give them that small amount of encouragement they ask is a foregone conclusion. There is no opposition, at anyrate no open opposition. The shipbuilding is necessary to our progress and we could afford to give much more than the proceeds of a small tax if it were necessary in order to get it.

Build Up Rather Than Drive Out.

There are bigger things for the city of Prince Rupert to do than to sell coal or enter any other mercantile business at the present time. There is but one thing to do and that is to keep Thursday, January 30th, 1919, for the pace with the developments which will be going on. It is much better to give the people an opportunity to earn a dollar than to and in accordance with conditions conenter any competitive business with the purpose of putting someone else out. That is not the purpose of civic government.

If we all pull together and build up the city there will be plenty of competition in the coal business and as a result we lible to the order of the Honourable th shall be able to get fuel much cheaper than at present. Towage rates will drop very soon, it is to be hoped, and that will help cepted as security, and interest will be cuesdays bring prices down. In the meantime, as we cannot go into the ed. business, no matter how much we wish to do so, it would be just as well to expend our energies in a more profitable field. It would be a much more sane proposal to make ice and store bait than to sell coal. To do that would help build up the industries of the city.

Garbage Wharf No Use for Coal.

It has been suggested that the garbage wharf might be used for landing city coal. That is ridiculous. It would cost twenty thousand dollars to put the garbage wharf into shape for handling one hundred and sixty acres or land coal, especially if it has to be handled economically, as suggested by the committee that recently reported on the coal situation. These catch-vote proposals are not sound business and it is a East twenty chains to the foreshore; thence pity that otherwise sensible people should attempt to delude the point of commencement, containing 160 electors into taking the bait. Fortunately the people of this city are not easy and recognize too well the desirability of a stable civic government that will keep within their means and develop the city along the line of the real needs of the community.

Re Bylaws to be Voted Upon at the Coming Civic Election on Thursday, January 16 Next

TAX EXEMPTION BYLAW:

In order that the property holders voting on this bylaw at the coming election to better understand it, the following facts will, I hope, make clear its meaning:-

The bylaw gives exemption only for general taxes and schools. The drydock company will pay all special taxes for the City Debt, both general debentures and Local Improvements.

By this arrangement the City gets away from the Bonus System which bond houses look upon with so much disfavor, thereby impairing our credit. There is no doubt with prospective developments consequent upon the opening up of this shipbuilding industry, that considerable money will have to be spent to meet the requirements of increased population. The effect of this bylaw will, therefore, enable us to approach bond houses with the facts that our tax levies for money debt is in no way curtailed by industry exemptions, which will with our financial showing of the past three years convince the investing public that our securities are worthy of first class rating, thereby enhancing their market value.

The Great War Veterans' Grant of Land Bylaw, I think needs little explanation from me other than to say that it is a grant of land in fee simple for 100 feet by 230 on the hill going up Fulton Street between the City Hall and Fifth Avenue where the old water tank stood.

It is a small tribute to the cause for which these men offered their lives and I feel sure will receive the hearty support of every citizen.

> Yours truly, THOS. McCLYMONT, Mayor.

should use Zam - Buk ordinar ointment.

unique composition. Zam-Buk is composed exclusively of herbal extracts and vegetable oils and is 100% medicine.

2nd. Because Zam-Buk oures are permanent. This is owing to the fact that the oils and extracts of which Zam-Buk is composed are so blended and refined that its power of penetration is extraordinary. While ordinary ointment remains on the surface skin, Zam-Buk literally soaks through to the underlying tissues, and destroys skin diseasesat their very roots. In this way, only, can a permanent cure be effected.

3rd. Because Zum-Buk is entiseptic. In other words, germs cannot live where Zam-Buk to applied. This prevents any possibility of festering or bloodpoisoning.

4th. Because Zam-Buk Is pure Its purity is due to its herbal composition, and this particularly commends Zam-Buk to mothers.

5th. Because Zam-Buk Is ecefore, just as good to the last application.

The reliability of this herbal remedy has established it as the household balm wherever it has been used for eczema, ringworm. abscesses, ulcers, running sores bad legs, blood - poisoning, piles, boils, pimples, burns, scalds cuts, chapped hands or chilblains. All dealers, 50c. box.

For Skidegate, Queen Charlotte ccupation or description of each person mitted to the vote of the rate-payers of City and Lower Island points: proposed in such a manner as sufficiently the City of Prince Rupert.

POLICE The qualification of candidate for the said Board is that the candidate shall be a person who is a British Subject and of 1919. the full age of 21 years.

SCHOOL TRUSTEES
