## OFFER IS MADE TO LEASE DOCK FROM THE CITY

Wharf at Juneau Loses Money and Protective Association Wants it to Reduce Coal Prices.

Juneau (by mail). — An offer to lease the City Wharf was read to the City Council last evening in a communication presenting by Robert Kennedy, from the Consumers' Protective Association of which Judge H. B. LeFevre is the Secretary-Treasurer. The communication, which is as follows, was referred to the Wharf Committee, J. Connors, chairman, and a meeting is to be held at the City Hall next Tuesday evening between the committee and members of the Association:

"The Consumers' Protective Association, by authority of its entire membership, and through its Board of Directors, respectfully requests the Common Council of the City of Juneau, acting as a body, or through a committee appointed for the purpose, to enter into negotiations with the said Consumers' Protective Association, with a view to leasing to the said Association the City Dock of the City of Juneau.

"This proposal is prompted by the knowledge that the Consumers' Protective Association can by this means bring about a reduction in the exorbitant and unbearable price paid for coal and other commodities by the people of Juneau, and the main object of the proposal is to accomplish that result.

"The Association hopes to be able to arrive at a just charge for such a lease and, on its part, will agree, in addition to the payment of the rent to be stipulated, to the following:

"First—To keep the dock in good repair;

"Second—to keep the property insured in a proper sum, to be stipulated in the lease, and to be consistent with the value of the wharf and the present amount of insurance carried;

"Third—to operate the wharf in every respect as a public wharf the terms and conditions for the use of the wharf to be the same to all persons;

"Fourth—to maintain wharfage charges at the present figures or less; but such charges to be under no circumstances increased.

"The Association wishes to call attention to the fact that the mining companies in Juneau and vicinity take the position that the value of their ore bodies is such that there is a definite limit to the wages they can pay. In recent years and until the present time, wages paid elsewhere and in other industries have been greater than wages paid in Juneau. The only way to meet and equalize this condition is to adopt every consistent measure which will result in reducing the cost of living which would have the effect, of course, of increasing the value of the wages paid.

"If the dock is losing money, as has been reported, this will offer the city an opportunity to make interest on its investment."
