

Pure Cream Makes the Richness

There is a pure cream richness about Pacific Milk that is the only secret behind its goodness for cooking.

You see, all we do to the rich, fresh milk as it comes from the farm is to evaporate water out of it.

This leaves the natural butter fat and other cream solids as they were.

Then we seal it up so it remains fresh and sweet.

Try it in the next recipe which calls for milk or cream.

WOMEN'S WORK FOR BETTERMENT

J. C. Brady Waxes Eloquent Over
Influence and Virtues of
Fair Sex.

"No man is greater than the mother that bore him. There is nothing that can add to happiness like the wonderful smile of a woman. Women are bulwarks of the Empire." These were some of the expressions used by J. H. Brady at the Burns banquet on Friday night when replying to the toast of "The Lassies." He said that women were the guiding stars of men and much of the success of every man was due to some women. No one should say he could not keep a wife because in 99 cases out of 100, the ladies kept the men.

All knew what the women of the Empire had done, continued the speaker. Without their aid and the spiritual influence they possessed standing for the glorious heritage of virtue and freedom men would be able to do little. This was not a decadent age. The glorious galaxy of goodness and worth such as was seen in women today had never been before. Her sphere of influence was widening. Her idea was not so much to reform the older people as to do away with any bad thing which was likely to hurt her child. Even in this little city they were looking for women to do things. As Mr. Manson had said, Canada should be a country of happy homes. Women had the virtues and it was their prerogative to win men to them.

The speaker said he wished to tell the men that when they were launching any schemes for the betterment of the city that women would lend their hearts and hands to make Rupert the clean and gallant city of the west.

WILL CONFER WITH RUSSIAN DELEGATES

(Special via G. T. P. Telegraphs.)

Paris, Jan. 25.—The British cabinet met here yesterday afternoon to consider the personnel of its contribution to the joint commission which will confer with the Russian delegates at Princes Islands. Premier Borden of Canada, Premier Botha of the Union of South Africa, and Gen. Smuts, South African representative of the cabinet are considered.

PRINCE GEORGE

There was a delightful dance under the auspices of the I. O. D. E. here on Friday night, the gross takings being \$211.10, expenses, \$31.50, leaving net toward furnishing a room in the city hospital of \$179.60. There were a number of raffles, the income from which was included in the proceeds.

J. G. Macdonald of the provincial forest service has returned after attending a convention in Victoria.

A movement in the City Council to reduce civic salaries was voted down at the inaugural meeting. The proposal was somewhat unique in that it suggested abolishing the salary for the mayor and making him city clerk instead, complying with the law by choosing some other person as clerk officially. It seemed like a case of trying to evade legal requirements and the majority of the council would not stand for it.

Standing committees have been appointed by the mayor for the present year as follows:—Finance—Porter, Gaskill, Watson; Fire, Water and Light—Harper, Ogilvie and Porter; Board of Works—Watson, Harper, Wilson; Health—Gaskill, Ogilvie, Wilson.

SKENA LAND DISTRICT—DISTRICT OF QUEEN CHARLOTTE ISLANDS.

War to Peace

One Employment Agency for All Canada

THE Dominion and Provincial Governments are co-operating to distribute employment quickly and fairly. Employment Offices are being set up throughout Canada—a single, complete chain from East to West.

In all, some 60 Employment Offices are being established. They will be located in all centres of 10,000 people and over—and wherever the need for them exists. One-third are already in operation.

Through these Government Employment Offices, all persons in need of employment, both male and female, will secure such positions as are available.

Through this same source an employer's particular needs will be promptly filled.

Indeed, the service rendered by these Government Employment Offices will be such as to warrant the heartiest co-operation and support on the part of employers of labor.

They will endeavor to supply only such help as an employer can confidently take on—the right man for the right position.

Thus, to the small employer of labor, they will take the place of the Employment manager. To the large employer of labor they will be of appreciable assistance.

The service of the Employment Offices will be given both to employers and to those who seek employment entirely without charge.

How They Work.

A superintendent is in charge of each local Employment Office.

Inside the office he has interviewers, to confer with those seeking employment and to direct them to positions. In the larger cities he also has canvassers or salesmen to call on the employers and show them the value of the services rendered by the Employment Office.

In this way the work-seeker and the work-giver are quickly brought together.

Every effort is made to secure up-to-date, business-like offices, conveniently located.

For the Soldier.

The same Employment Offices are used to provide positions for returned soldiers as well as for every other person in need of employment.

In each employment office there is a representative of the Department of

Soldiers' Civil Re-Establishment—a man who has served overseas. He introduces the returned soldier to the regular officials and gives him every assistance, both as to employment and other matters.

The Organization.

The local offices in each province are linked together by a provincial clearing house in the capital city.

They are directly supervised by a general superintendent who receives daily wired reports from each office. These reports state how many have sought work, how many have been placed in positions, how many and what classes need work, how many positions vacant. The general superintendent has each day a complete picture of the employment situation in the province under his care.

With the same idea in view, the Dominion Government has three national clearing-houses—established at Halifax, Ottawa, and Winnipeg. Those who plan to move from one locality to another can thus go "with their eyes open," because these clearing-houses show from their daily reports just what the employment prospects are—everywhere.

National Advantages.

With the completion of this single chain of Employment Offices the Government will be exactly informed on employment conditions.

Expert field agents will call on the lumbering, mining, shipbuilding and other industries to secure information as to anticipated requirements for labor.

Weekly reports sent in by trade unions provide additional information.

Finally, every concern with 25 or more employees will mail each week a post-card showing (a) the pay-roll of the previous week; (b) changes in staff and the nature of the occupations.

Advisory Councils.

Each local superintendent in the larger cities will be assisted by an advisory body composed of employers and employees.

Each province will have a similar advisory body.

There will also be a Dominion body—the Employment Service Council of Canada—to co-operate with the Department of Labor. This council will be composed of representatives from all those classes interested.

In addition to the above, the Government is co-operating with those who provide employment—so that as far as possible every willing worker will have work to do.
