

WHILE stooping near the stove I caught the handle of a pan of boiling water and upset it," writes Mrs. Albert Smart, of 279 Harbison Ave., Winnipeg. "The entire contents of the pan poured partly down my arm, but mostly over my foot, and as I was wearing slippers at the time my foot was very badly scalded! A huge blister covered the whole top of my foot and the pain I suffered was intense. We had heard how good Zam-Buk is for such injuries, so my husband got some and applied it. The first application soon gave me wonderful relief from the burning pain, and continued applications completely cured the scald. After this demonstration of the value of Zam-Buk we are now never without a box in the house. We have proved it invaluable for the many little accidents which are of such frequent occurrence in every home.

Zam-Buk is just as effective for skin diseases, such as eczema, salt rheum and ulcers, and is without equal for piles. In many cases where the disease or sore is of long standing and other remedies have been useless, Zam-Buk has worked a complete and permanent cure. Its absolute purity makes it suitable for the most tender skin (even the skin of a young baby) and mothers should always keep a box on hand for emergencies. Zam-Buk does not deteriorate with keeping. All dealers, 50c. a box.

Pure Cream Makes the Richness

There is a pure cream richness about Pacific Milk that is the only secret behind its goodness for cooking.
You see, all we do to the rich, fresh milk as it comes from the farm is to evaporate water out of it.
This leaves the natural butter fat and other cream solids as they were.
Then we seal it up so it remains fresh and sweet.
Try it in the next recipe which calls for milk or cream.

PAULINE FREDERICK IN "DOUBLE CROSSED"

A Modern Play of Love and Intrigue at the Westholme Theatre Tonight.

"Double Crossed," a Paramount picture starring Pauline Frederick, which is to be at the Westholme Theatre tonight, is a modern play of love and intrigue,

with a tremendous feminine appeal. It is the story of a young society matron who discovers that her husband, with whom she is very much in love and whom she has always set upon a pedestal, has, in his youth, committed a serious slip.

Miss Frederick's emotional acting in the scene where she over-rears a detective trying to blackmail her husband with a signed confession, is superb and up to her highest standards.

CAPACITY HOUSE AT EMPRESS THEATRE

"The Desire of the Moth" is a Thrilling Western Drama Full of Exciting Scenes.

The Empress Theatre played again to capacity houses last night when the feature film was "The Desire of the Moth," a thrilling Western drama full of exciting scenes that grip and hold the attention from beginning to end.

The three stars, Ruth Clifford, Rupert Julian and Monroe Salisbury, certainly played their parts to perfection and this beautiful play should certainly draw another full house tonight.

The Universal Current Events is one of the best ever shown here. A rattling good comedy finishes off a dandy show.

C.P.R. EARNINGS

Increased Cost Results in Lessening of Twelve Million Dollars Compared With Previous Year.

While the final statement of earnings of the Canadian Pacific Railway Company for the year 1918 will not be available until some time in March, the figures deduced from the monthly accounts serve to give a fairly accurate idea of the relative position of profits for the shareholders for the two years.

So far do the increased rates compensate for the higher wages, costs of coal, etc., that an increase in the gross earnings for the year of over \$5,000,000 finds the net earnings actually over \$12,000,000 less than in 1917. Indeed, going over the lists for the last nine years, never were the net earnings so small as this past year. Back in 1910, when the gross earnings were only a little over \$100,000,000, the net earnings were over \$36,000,000, whereas last year, with gross 57 per cent. greater, \$157,000,000, the net earnings were only a little over \$34,000,000.

"Resources" continues to contain interesting matter dealing with the growth and development of British Columbia. In this number the editor points out that this is not northern British Columbia, but central. The magazine is full of information.

There may be something you want. See the classified column on Page 5.

War to Peace

Creating Opportunities for Employment

BESIDES helping to distribute employment through a chain of Employment Offices, the Government has developed plans to create opportunities for employment.

Briefly, these plans cover the following phases:—

1. Public Works

During the war, many important Public Works have been held up. The Minister of Public Works, has his plans and preparations made to proceed with the more necessary of these in the near future. This Committee has also been in touch with Provincial Governments and Municipalities, with a view to impressing upon them the necessity for similar action. The building and public works programme now in sight will provide employment for many returned soldiers and war-workers.

2. Railways

During the past four years, a great deal of work necessary to keep our railways up to standard has been postponed. Some millions of dollars must be expended on improving road-bed, constructing bridges, buildings and other improvements. Vast quantities of ties are being got out this winter. Equipment of various kinds must be secured. The Minister of Railways states that as soon as weather conditions will permit, some thousands of men will be absorbed in various railway undertakings. The supplies and materials required will also provide employment.

3. Shipbuilding

The shipbuilding programme arranged for by the Government will provide employment for many men during 1919. It is expected that arrangements will be completed to keep the shipbuilding yards in active operation throughout the year. The Government recognises that this ship construction is one of the best means of providing suitable employment for many skilled and other workers.

4. Export Trade

The Government has established a Canadian Trade Commission. This Commission has an office in Canada and a "trade mission" overseas. Through this trade mission it is anticipated that Canada will secure an important share in the business of providing materials and manufactured products required for reconstruction work in Europe. A short time may be required before final details are completed and definite results are announced. The business so secured will be distributed through the regular channels of trade and thus afford extra opportunities for employment.

5. Housing

The Government has set aside the large sum of \$25,000,000 to be loaned through the Provinces in order to encourage the building of workmen's houses. When the season for building arrives, this work should give employment to many hundreds of men both in construction work and in the supply of materials.

6. Land Settlement

The Government, as already explained in a former announcement, has developed plans to help soldiers to become farmers, providing land, granting loans and giving training and supervision where necessary. It is expected that a large number of returning soldiers will take advantage of these opportunities. The scheme will involve the expenditure of some millions of dollars, a good deal of which will find its way into building materials, supplies, machinery, etc., all of which will assist in providing employment.

7. Road Building

The Government now has under consideration the question of joining the provincial governments in financing the construction of public highways. Should a favorable decision be reached, a large field for employment opportunities will be opened up. Regardless of Federal action, provincial governments are preparing their own road-making programmes.

The Government is alive to the necessity for providing employment opportunities, and stands prepared to assist in every way possible. If corporations and private citizens will join in this feature of Repatriation Work, Canada should have little difficulty with the employment problem.
