WOULD FORM A PROVINCIAL POLICE FORCE

G. G. McGreer, M. P. P., Sends Suggestion to City for Force of Military Character.

A proposal forwarded to the City Council by G. G. McGreer, member of the Provincial Legislature for Richmond suggesting a plan for the establishment of a provincial police force to take the place of the municipal police throughout the province somewhat along the lines of the North-West Mounted Police, was set over for discussion in private before the committee of the whole council.

Strong Protest.

Before this was done, however, Alderman Casey took strong exception to the action of the Council because of the character of the proposal. He suggested that it was a proposal to take the power from the hands of the many and place it with the few, forming a military autocracy, particularly for the doing away with strikes. The resources of the country were already in the hands of the capitalist class and the dispossessed class were often compelled to go on strike. The purpose of this military constabulary was to remove control of the police from the people. They had just received the power of electing police commissioners, but this would put the people under martial law subject to military rule. He objected to the consideration of such a subject anywhere except in open council. The war had been fought to make the world safe for democracy. This was opposed to the purpose of the war. If the blood that had been spilt was in the cause of democracy this was the absolute reverse.

The matter was then referred to the committee, only Alderman Casey opposing.

PRIVATE STILLS

Alberta Police Active in Unearthing Illicit Traffic in Liquor.

The active campaign being carried on by the Alberta Provincial Police against liquor importation and illicit stills has met with very substantial results recently. Several consignments of liquor being brought in over the railways as dry goods and in other clever disguises have been seized and the contents turned over to official caretakers. One of these seizures consisted of 24 bottles, another of 3 large crates, containing 40 cases of whisky, a third of 10 cases, while a fourth supply rescued from a mission of devils was just a plain, ordinary every-day 10-gallon keg. Along with this work goes the unearthing of three private stills, two of these being located at St. Albert and the other at Morinville. In one of these cases a fine of \$500 was imposed upon one of the principals.

Supt. W. C. Bryan says the majority of these illicit stills are conducted by foreigners, and in most of the cases the appliances are of the crudest nature. Milk

Attention to Salmon Trollers

The finest and most economical engine on the market today is the

Doman Engine for Trolling

Made of the finest materials possible, by a firm who have the whole interest of the fisherman at heart, it is an Engine hard to beat.

Made in all sizes, from 5-7 H.P. to 85 H.P., the Doman engine has been put on the market specially for fishing boats. It burns distillate as well as gasoline, and a mechanical turn of mind is not necessary to run a "DOMAN" fishing boat engine.

For heavy duty, the "N. & S." engine with reversible propeller is the best.
