

Zam-Buk cures the most stubborn skin diseases and sores. This is because Zam-Bak's method of healing is entirely forent and superior to that of oruinary ointments! When Zam-Buk is applied it does not remain on the surface skin, as an ordinary ointment would. Because of its unusual refinement. it penetrates to the underlying tissues. This is where all skin troubles have their origin. The thoroughly cleanse the diseased parts. Having done this, the healing essences contained in Zam-Buk so stimulate the tissues that new, healthy skin is quickly produced. The result is a complete and permanent cure of the sore or injury. Zam-Buk is best for eczema, ringworm, scalp sores, boils, pimples, teething rash, ulcers, abscesses, running sores, "barber's rash," blood-poisoning and piles. As a first-aid, too, Zam-Buk is indispensable. It stops bleeding, ends pain, draws out soreness and inflammation, prevents blood-poisoning and heals quickly. All dealers 50c. box. FREE SCHOOL BOOKS AND DENTAL SERVICE

Trustee Shaw Asks That Board of Trustees Go on Record Asking for Each From Department.

Two resolutions were brought before the school board at their meeting last night by Trustee Fred Shaw. One of these asked the trustees to go on record in favor of free text books and supplies for the pupils and the other germicidal properties of Zam-Buk to provide free dental service for destroy all germs and the pupils. The resolutions were laid on the table to be taken up at a future meeting when there is a larger attendance of the members of the Board.

Not Evenly Distributed.

In support of his motions Trustee Shaw said that those with large families could ill afford the burden of educating the children. He considered the burdens were not evenly distributed. Some had no children, others had from four to eleven. The children were a benefit to the state and he did not think the parents should have to buy books for them. Dr. Kergin pointed out that already the Provincial Government provided most of the books. The geographies, British histories, dictionaries and some supplies were not provided, however, and these would cost two dollars or more per pupil. He did not see why the Government should not provide all the books and supplies.

creating. Opportunities for Employment

QESIDES helping to distribute employment through a chain of Employment Offices, the Government has developed plans to create opportunities for employment.

Dental Treatment.

In regard to the resolution for free dental treatment Trustee Shaw said that many of the pupil especially those arriving from other countries had very bad teech which had been neglected because the parents could not afford to look after them.

(Special via G. T. P. Telegraphs.) Edmonton, Feb. 13 .--- One hundred offers of land in different parts of the province have been received by the Alberta office of the Soldiers' Settlement Board from private owners who are willing to sell under the new land scheme now pending. They are for various sized parcels ranging from quarter, sections to blocks of 2,100 acres and prices quoted run from \$5 to \$30 per acre.

Briefly, these plans cover the following phases:-

1. Public Works

During the war, many important Public Works have been held up. The Minister of Public Works, has his plans and preparations made to proceed with the more necessary of these in the near future. This Committee has also been in touch with Provincial Governments and Municipalities, with a view to impressing upon them the necessity for similar action. The building and public works programme now in sight will provide employment for many returned soldiers and war-workers.

2. Railways

During the past four years, a great deal of work necessary to keep our railways up to standard has been postponed. Some millions of dollars must be expended on improving road-bed, constructing bridges, buildings and other improvements. Vast quantities of ties are being got out this winter. Equipment of various kinds must be secured. The Minister of Railways states that as soon as weather conditions will permit, some thousands of men will be absorbed in various railway undertakings. The supplies and materials required will also provide employment.

3. Shipbuilding

The shipbuilding programme arranged for by the Government will provide employment for many men during 1919. It is expected that arrangements will be completed to keep the shipbuilding yards in active operation throughout the year. The Government recognises that this ship construction is one of the best means of providing suitable employment for many skilled and other workers.

NTERNATIONAL ARMY IS NOT APPROVED

(Special via G. T. P. Telegraphs.) Paris, Feb. 13. - Lord Robert Cecil, British representative on he League of Nations Commission, emphatically denied tonight the report spread in Paris today that the League of Nations Commission had approved of the creation of an international army and that the United States and Great Britain had conceded the point to France. He said the story must have been spread by an enemy of the Conference.

HEIR TO \$3,000,000

(Special via G. T. P. Telegraphs.) Chicago, Feb. 13. - Daniel H. Tolman, eighteen, apprentice seaman at the Great Lakes Naval Training Station, has been identified as the missing heir to the \$3,000,000 estate of his uncle, Daniel H. Tolman, millionaire lonan agent, who died a year ago and who operated a chain of loan offices in Canada and the States.

The Government has established a Canadian Trade Commission. This Commission has an office in Canada and a "trade mission" overseas. Through this trade mission it is anticipated that Canada will secure an important share in the business of providing materials and manufactured products required for reconstruction work in Europe. A short time may be required before final details are completed and definite results are announced. The business so secured will be distributed through the regular channels of trade and thus afford extra opportunities for employment.

5. Housing

The Government has set aside the large sum of \$25,000,000 to be loaned through the Provinces in order to encourage the building of workmen's houses. When the season for building arrives, this work should give employment to many hundreds of men both in construction work and in the supply of materials.

6. Land Settlement

The Government, as already explained in a former announcement, has developed plans to help soldiers to become farmers, providing land, granting loans and giving training and supervision where necessary. It is expected that a large number of returning soldiers will take advantage of these opportunities. The scheme will involve the expenditure of some millions of dollars, a good deal of which will find its way into building materials, supplies, machinery, etc., all of which will assist in providing employment.

7. Road Building

The Government now has under consideration the question of joining the provincial governments in financing the construction of public highways. Should a favorable decision be reached, a large field for employment opportunities will be opened up. Regardless of Federal action, provincial governments are preparing their own road-making programmes.

The Government is alive to the necessity for pro-
