SUGGESTION IS COMMITTEE TO MEET SOLDIERS

Mayor Receives Letter Asking for Its Formation to Welcome Men Home.

The following circular letter has been sent to all mayors of cities and reeves of municipalities throughout the country, including Mayor McClymont, in regard to the formation of local welcome committees:

"The urgent problems in connection with the demobilization of our army and the re-establishment of industry on a peace basis have led to the formation of the Repatriation Committee, in connection with which I am now acting as the representative of the Municipal organizations of Canada.

"The urban and rural municipalities can play a great and important part in the problems of the demobilization period, in giving a 'Welcome Home' to the returning soldier, and his family, in helping the soldier to secure employment and generally in assisting him to re-establish himself in civil life.

Men and Women.

"In every municipality that has sent soldiers overseas there should be an Honorary Committee of citizens, composed of both men and women who will assume a measure of responsibility in this important work. There may possibly be such a committee already in existence in your municipality, if so we would like to know; if not, I would respectfully urge, on behalf of this Committee, that one should be formed at once. The functions of a 'Welcome Home' Committee should be as follows:"

Functions.

- (1) To welcome all returned soldiers and their dependents on their arrival in your locality. (2) To receive any complaints from returned soldiers and to forward them to the Department of Soldiers' Civil Re-establishment, Ottawa, for investigation. (3) To help the returned soldiers to find employment. (4) If at any time employment cannot be found in your locality for a returned soldier, to report particulars to the Department of Soldiers' Civil Re-establishment. (5) If positions exist in your locality for which returned soldiers are not available, to notify the Department of Soldiers' Civil Re-establishment, so that men can be sent from the nearest demobilization centre to occupy them. (6) To co-operate with voluntary organizations. (7) To keep a general oversight over the interests of returned soldiers and their families.

Questions.

Enclosed is a postcard on which are printed seven important questions. I shall be glad if you will be kind enough to have this card filled out and returned at your earliest convenience. I need not say that the Repatriation Committee will be only too glad to answer any inquiries which you may make with regard to those problems which come within its scope. All communications can be sent post free.

Yours sincerely, HARRY BRAGG, Municipal Representative.

FOOD REGULATIONS.

Creating Opportunities for Employment

BESIDES helping to distribute employment through a chain of Employment Offices, the Government has developed plans to create opportunities for employment.

Briefly, these plans cover the following phases:—

1. Public Works

During the war, many important Public Works have been held up. The Minister of Public Works, has his plans and preparations made to proceed with the more necessary of these in the near future. This Committee has also been in touch with Provincial Governments and Municipalities, with a view to impressing upon them the necessity for similar action. The building and public works programme now in sight will provide employment for many returned soldiers and war-workers.

2. Railways

During the past four years, a great deal of work necessary to keep our railways up to standard has been postponed. Some millions of dollars must be expended on improving road-bed, constructing bridges, buildings and other improvements. Vast quantities of ties are being got out this winter. Equipment of various kinds must be secured. The Minister of Railways states that as soon as weather conditions will permit, some thousands of men will be absorbed in various railway undertakings. The supplies and materials required will also provide employment.

3. Shipbuilding

The shipbuilding programme arranged for by the Government will provide employment for many men during 1919. It is expected that arrangements will be completed to keep the shipbuilding yards in active operation throughout the year. The Government recognises that this ship construction is one of the best means of providing suitable employment for many skilled and other workers.

4. Export Trade

The Government has established a Canadian Trade Commission. This Commission has an office in Canada and a "trade mission" overseas. Through this trade mission it is anticipated that Canada will secure an important share in the business of providing materials and manufactured products required for reconstruction work in Europe. A short time may be required before final details are completed and definite results are announced. The business so secured will be distributed through the regular channels of trade and thus afford extra opportunities for employment.

5. Housing

The Government has set aside the large sum of \$25,000,000 to be loaned through the Provinces in order to encourage the building of workmen's houses. When the season for building arrives, this work should give employment to many hundreds of men both in construction work and in the supply of materials.

6. Land Settlement

The Government, as already explained in a former announcement, has developed plans to help soldiers to become farmers, providing land, granting loans and giving training and supervision where necessary. It is expected that a large number of returning soldiers will take advantage of these opportunities. The scheme will involve the expenditure of some millions of dollars, a good deal of which will find its way into building materials, supplies, machinery, etc., all of which will assist in providing employment.

7. Road Building

The Government now has under consideration the question of joining the provincial governments in financing the construction of public highways. Should a favorable decision be reached, a large field for employment opportunities will be opened up. Regardless of Federal action, provincial governments are preparing their own road-making programmes.

The Government is alive to the necessity for providing employment opportunities, and stands prepared to assist in every way possible. If corporations and private citizens will join in this feature of Repatriation Work, Canada should have little difficulty with the employment problem.
