CHINESE PROTEST AT ANTI-ALIEN BYLAW

(Special by G. T. P. Telegraphs.)

Toronto, Feb. 17.—The Chinese vice-consul has served notice on the city that the new bylaw of the Police Commissioners, refusing business licenses to aliens is a breach of promise between Great Britain and China, under existing conditions.

The Manitoba Legislature is passing a similar law with respect to restaurants in the interests of hotel men.

EIGHT MILLIONS FOR B.C. SALMON PACK

(Special via G. T. P. Telegraphs.)

Ottawa, Feb. 17.—Treasury bills aggregating \$175,000,000 negotiated with Canadian banks in July, August, September and October have been paid in full out of the proceeds of the Victory Loan payments included eight million dollars for the British Columbia salmon pack.

thereof, and the peace, order and good government of the same.

Municipal Act.

"Regarding the new Municipal Act from a casual reading of it, I believe it to be on the whole an improvement over the old act. It confers greater powers on the municipalities and will do away to a large extent with having to write or visit the seat of government when various things are being sought for.

"There are certain clauses that would be better left out or altered so far as this city is concerned, and I understand the Union of municipalities are to meet about the end of the month to discuss the new bill fully, before it finally goes to the House.

Council's Delay.

"It appears to me that such an important matter as a new municipal act should not be hurriedly passed, and that the wisest course would be to lay over until next session, so that in the meantime all municipalities would have the opportunity of going through it and finding out any weak spots, so that when finally passed it would be as complete as possible, and not require to be continually amended. I would, therefore, recommend to council the passing of a motion to this effect, to be forwarded to our member at Victoria.

Housing Scheme.

"Regarding the better housing scheme now about to be launched, I pointed out to our member and under whose department this housing scheme comes, that there was not a house to be had at the present moment, and that fifty thousand dollars would be little enough for our immediate requirements.

Need 25 Now.

"The distribution had to be made on basis of population, but as many places do not require their quotas, a new plan on the basis of requirements will be adopted and in the meantime, I am trying to get data on our requirements to forward to Victoria. I believe that 25 houses could be filled right now, but if certain industries were in action this figure would be low.

Wish to Lease.

"In the matter of waterfront, I have no new developments to report, the situation being as formerly, except that the shipbuilding company wish to lease the waterfront at Cow Bay, recently acquired by the government from the G. T. P. Company."

Creating Opportunities for Employment

BESIDES helping to distribute employment through a chain of Employment Offices, the Government has developed plans to create opportunities for employment.

Briefly, these plans cover the following phases:—

1. Public Works

During the war, many important Public Works have been held up. The Minister of Public Works, has his plans and preparations made to proceed with the more necessary of these in the near future. This Committee has also been in touch with Provincial Governments and Municipalities, with a view to impressing upon them the necessity for similar action. The building and public works programme now in sight will provide employment for many returned soldiers and war-workers.

2. Railways

During the past four years, a great deal of work necessary to keep our railways up to standard has been postponed. Some millions of dollars must be expended on improving road-bed, constructing bridges, buildings and other improvements. Vast quantities of ties are being got out this winter. Equipment of various kinds must be secured. The Minister of Railways states that as soon as weather conditions will permit, some thousands of men will be absorbed in various railway undertakings. The supplies and materials required will also provide employment.

3. Shipbuilding

The shipbuilding programme arranged for by the Government will provide employment for many men during 1919. It is expected that arrangements will be completed to keep the shipbuilding yards in active operation throughout the year. The Government recognises that this ship construction is one of the best means of providing suitable employment for many skilled and other workers.

4. Export Trade

The Government has established a Canadian Trade Commission. This Commission has an office in Canada and a "trade mission" overseas. Through this trade mission it is anticipated that Canada will secure an important share in the business of providing materials and manufactured products required for reconstruction work in Europe. A short time may be required before final details are completed and definite results are announced. The business so secured will be distributed through the regular channels of trade and thus afford extra opportunities for employment.

5. Housing

The Government has set aside the large sum of \$25,000,000 to be loaned through the Provinces in order to encourage the building of workmen's houses. When the season for building arrives, this work should give employment to many hundreds of men both in construction work and in the supply of materials.

6. Land Settlement

The Government, as already explained in a former announcement, has developed plans to help soldiers to become farmers, providing land, granting loans and giving training and supervision where necessary. It is expected that a large number of returning soldiers will take advantage of these opportunities. The scheme will involve the expenditure of some millions of dollars, a good deal of which will find its way into building materials, supplies, machinery, etc., all of which will assist in providing employment.

7. Road Building

The Government now has under consideration the question of joining the provincial governments in financing the construction of public highways. Should a favorable decision be reached, a large field for employment opportunities will be opened up. Regardless of Federal action, provincial governments are preparing their own road-making programmes.

The Government is alive to the necessity for providing employment opportunities, and stands prepared to assist in every way possible. If corporations and private citizens will join in this feature of Repatriation Work, Canada should have little difficulty with the employment problem.
