PRETTY WEDDING

Miss Audrey Ivy Joyce Became Bride of Raymond Wallace Scherk Last Evening

A pretty and interesting wedding was solemnized last evening at the home of Mr. and Mrs. John Joyce, Seal Cove, when their only daughter, Miss Audrey Ivy Joyce, was united in marriage to Raymond Wallace Scherk son of Mr. and Mrs. Daniel Scherk of this city. The ceremony was performed by Rev. Canon W. F. Rushbrook of St. Peter's Anglican Church.

The bride, who was beautifully gowned in white flat crepe with lace inset and conventional veil, was attended as bridesmaid by Miss H. Ruth Scherk. Both bride and bridesmaid carried beautiful bouquets. Rev. Leonard Joyce was groomsmen.

TWELVE MILE LIMIT IS UPHOLD IN HIGH COURT

LONDON, July 30:—Allowing the appeal of E. R. Croft from a judgment of the Supreme Court of Canada, Their Lordships of the Judicial Committee of the Privy Council yesterday upheld the validity of the Canadian statute which restricts that, so far as Canadian vessels are concerned, Canadian territorial waters extend for twelve miles from the coast.

Many Resolutions

Resolutions met with mixed reception and arguments held up the business.

A resolution from Fort Fraser to cancel the 50c survey charge on land was approved as was also a Fort Fraser resolution calling for the building of a bridge over the Nechako River to eliminate the present long distance and ferry.

A proposal by Burns Lake for the building of a road into the Babine district from there met with opposition in committee and was tabled in the convention.

Vanderhoof had many proposals. One which passed the convention was that prospectors be allowed one day more for each ten miles away from recording work. Another was to concentrate on gravel in Central British Columbia. Another was that the Canadian National Railways take all ties possible in order to relieve unemployment. Still another asked the Lands Settlement Board to reconsider the plight of those who bought land even to the extent of cancelling present contracts.

The annual resolution on the experimental farm for the central interior met with plenty of trouble and difference of opinion which finally resulted in the decision to ask for two experimental farms—one to serve the district drained by the Skeena River and the other the Fraser River watershed.

The resolutions committee came out with a resolution asking the government to rush work of construction of the Prince Rupert-Alberta highway.

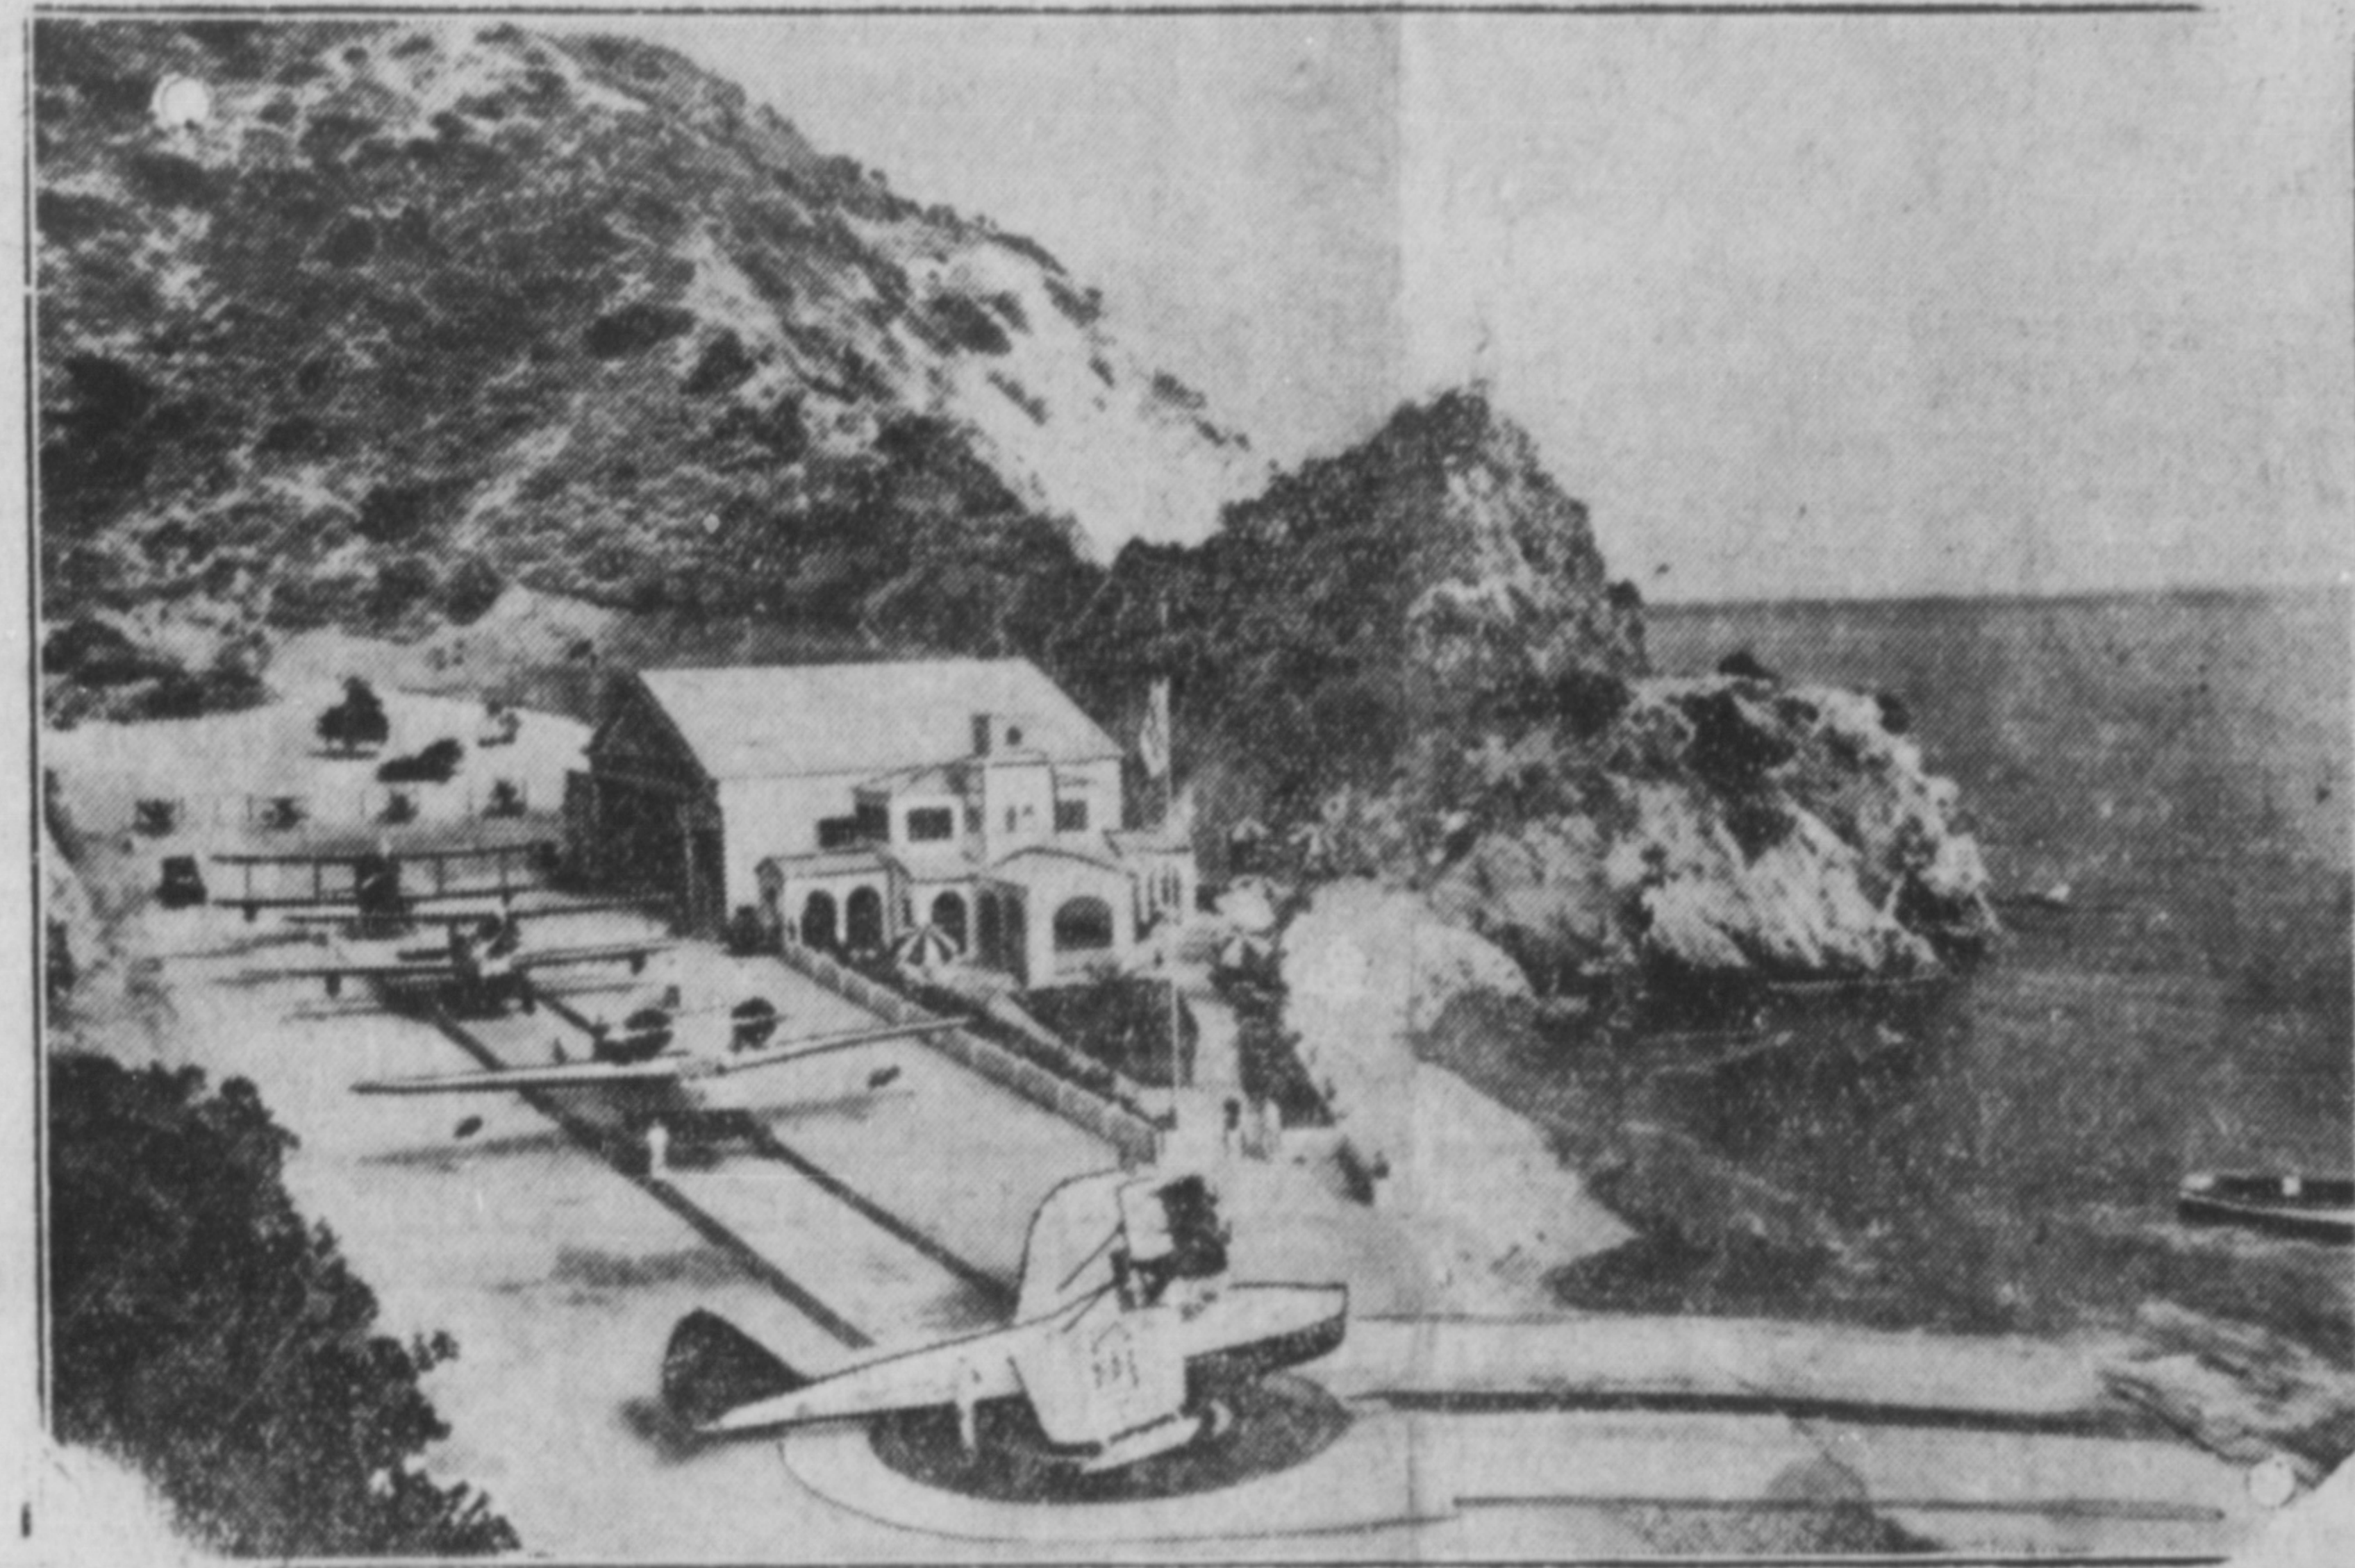

A resolution from Prince Rupert asked that, through the inability of the municipalities to do it, the Dominion accept responsibility for unemployment and that reasonable wages be paid to tide the men over. Smithers put over a resolution urging that Indians living off the reserve be made amenable to white men's laws as regards game.

A resolution from Smithers to sanction sweepstakes was killed but another proposal from Smithers to allow the destitute to take fish for food was approved.

A resolution from Vanderhoof to give more authority to school trustees was killed. The courtesy of the people of Fort Fraser in their entertainment was acknowledged by resolution.

President's Address
President A. M. Ruddy of Burns Lake, in the president's annual address, struck a high note of service. After reviewing the past year's work, he advocated steadiness and urged all to work hard for the welfare of all. He mentioned the co-operation of the Red Cross and (Continued on Page 2)

CROPS ARE RIPENING

Some Prairie Points Too Hot—Light Yield Expected in Peace River

WINNIPEG, July 30:—Warm weather during the past week has made all crops advance rapidly towards ripening, according to the weekly crop report of the agricultural department, Canadian National Railways. Early wheat is starting to turn color although, in some southern sections, the advance towards maturity has been too rapid to permit of normal berry filling and some districts, therefore, expect a considerably decreased yield and a fairly low grade berry. Present indications are that widely varying yields will be harvested in Alberta as weeds and spotty growth resulted from cool weather experienced earlier in the season. Strips of hail in some localities have completely wiped out crops and gardens but, to date, less damage from hail than in an average year has been experienced.

In Manitoba days have been warm with scattered showers and nights have been cool, making a combination ideal for the production of plump berries. Wheat cutting has commenced in southern areas and will be general by the middle of next week. The wheat crop is only (Continued on Page Two)

Two hundred persons were present at a delightful dance which was held last night to mark the formal opening of the fine new hall which has just been completed on the southeast corner of Fourth Avenue and Bowser Street for the local Oddfellows' Lodge. Considerable interest was taken in the drawing just before midnight for a radio stool which was raffled in connection with the dance. Mrs. Elmer Thompson drew the winning ticket, the holder of which was Master Harry Day.

The Oddfellows were assisted in connection with the staging of the opening dance by the Rebekahs. The men's committee consisted of A. E. Wood, J. E. Jack, M. McArthur, Mike Hudema, N. W. Appleyard and M. McLeod while the ladies' committee comprised Miss (Continued on Page Two)

Wheat Preference Between Canada and Great Britain Agreed Upon at Conference

OTTAWA, July 30:—Agreement on the principle of preference on Canadian wheat, it is learned, has been reached between Canada and the United Kingdom at the Imperial economic conference. Discussions are taking place on this basis. No definite suggestion as to what the amount of preference should be has been made by either country.

Delegations, with the assistance of their experts, are endeavoring to consolidate the various proposals which have been made into a common basis of agreement. The so-called "th tier" tariff plan, it appears likely, may be adopted to govern future foreign imports in relation to Imperial preferences among the various nations of the Empire.
