PRICE FIVE CENTS

UNITED KINGDOM IS FACED WITH PROSPECT OF CIVIL STRIFE, SAYS LLOYD GEORGE

TO GRANT DEMANDS OF MINERS WOULD CRIPPLE THE COUNTRY'S COAL EXPORT AND RAISE PRICE FROM EIGHT TO TEN SHILLINGS PER TON

(Special to The News via G. T. P. Telegraphs.)
London, February 25.—The United Kingdom is faced with the prospect of civil strife and the House of Commons is doing everything in its power to avert it, Premier Lloyd George declared yesterday in introducing a bill to constitute an inquiry into conditions prevailing in the coal industry.
The Premier said he had been advised that to grant the demands of the miners without an inquiry might throw hundreds of thousands of persons out of employment and cripple the country's export of coal. Granting of the demands would increase the price of coal by from eight to ten shillings a ton.
London, Feb. 25.—Officials of the local miners' unions show no disposition to agree to postpone action on the strike to await the inquiry proposed by Premier Lloyd George.

MARKET RESOLUTION MEETS A SAD FATE

Proposal of Alderman Casey to Establish City Store Voted Down by City Council.

A rather lengthy resolution was brought before the Council last night by Alderman Casey, Alderman Barrie who was absent being the seconder. This resolution provided for the market clerk doing business on his own account as well as selling on commission.
In discussing it, Alderman Casey said that the resolution was in their hands and it explained itself. The market could not at present get supplies because merchants went up the line and bought up the stuff from the farmers and then charged what prices they thought fit. It was to the material interest of the merchants to oppose the market.
Alderman Currie did not believe the Council could give the market clerk power to sell on his own behalf. It would lead to trouble.
It was further pointed out that in Vancouver the city had rented the market to some fish concern in return for cheaper fish. In New Westminster was the only place where the market had been a success.
All the aldermen with the exception of Alderman Casey voted against the proposal.

DISPOSITION OF SPRUCE LOGS

Question Being Discussed With Government at Ottawa, Says Despatch From Vancouver.

(Special via G. T. P. Telegraphs.)
Vancouver, Feb. 25.—How to save sixty million feet of logs in the waters of northern British Columbia and as much more cut timber in the woods, the result of discontinuance of the spruce airplane stock campaign, is a problem being brought to the attention of the Dominion Government. The logs must be cut this year to save them from worms.

The above dispatch refers undoubtedly to the logs which are held at present by the Imperial Munitions Board in storage both at the Queen Charlotte Islands and at the different mills, and part of which are in Prince Rupert harbor. As a matter of fact the negotiations have been going on for some time past and it is hoped that contracts for the logs will be let to the different mills and that the local mill will get its share. In the meantime the lumber business of the whole of northern British Columbia is tied up awaiting the decision as to the disposition to be made of the spruce.
