other organizations in time of stress and pleaded for the full co-operation of all in fighting the greatest of all wars—that against the present depression. He urged that everybody get into the ranks by way of providing clothing, food or work for the more unfortunate citizens.

Acting Secretary Sidney Godwin of Burns Lake read the secretary's report for the year and recommended the revival of semi-annual meetings with a view to maintaining direct contact. The financial statement showed the association to be some \$200 to the good and dues of some locals not yet paid. The auditors, L. B. Warner of Smithers and George Ogston of Vanderhoof, in making their report, recommended leniency for the delinquents. The suggestion of wiping off arrears with a view to bringing members back met with opposition.

Banquet, Luncheon, Dinner

A big banquet held in the hall on Thursday night was a wonderful affair. H. W. Small of Fort Fraser, vice-president of the association, was at the head of the table. After the toast to the King had been duly honored, Dr. H. C. Wrinch, M.L.A. for Skeena, responded to the toast to British Columbia by dealing largely with health insurance. Olof Hanson M.P. for Skeena, responded to the toast to the Associated Boards of Central British Columbia. L. B. Warner of Smithers responded to the toast to the press and J. D. Webster and William Bunting that to the guests. Olof Hanson M.P. proposed a toast to the hosts and Dr. H. C. Wrinch M.L.A. replied. Very interesting talks were given by Sam Cocker, Mayor Patterson of Prince George and John Dybhavn of Prince Rupert.

A luncheon was held at Douglas Lodge on Stuart Lake yesterday and last night a big dance brought the convention proceedings to a close.

The Letter Box

UNEMPLOYED EXPLAIN

Editor, Daily News:— The general public are no doubt surprised at the attitude of the single unemployed in refusing the generous permission to work in return for the privilege of existence. The following letter to the minister of public works is quoted for public information, and in anticipation of the usual outcry from some irate taxpayer, not with the idea of taking the wind from his sails, but rather that he may temper his judgment with tolerance. Wage cuts affect a whole community in a short time.

To Hon. R. W. Bruhn, Minister of Public Works, Victoria, B.C.

Sir: At a mass meeting held here on July 27 it was unanimously voted that it is impossible to work in this climate for the allowance the government is making.

As you doubtless are aware, the transients here are without clothes, having been unable to purchase them through lack of employment.

In this weather it is not possible to work without a complete suit of rubbers and good underclothing, so for your approval we submit the following list as a minimum required by each man: One suit rubbers, two pairs heavy socks, two shirts, two suits heavy underwear, one pair 'knee rubbers, one pair shoes, one cap or hat.

You must realize that a man cannot go to work on 40c per day and after he has paid 25c (which is the lowest possible price here) for breakfast, he cannot exist on 15c for the rest of the day, and would eat half of his month's allowance in the four days he works. This would naturally leave him hungry for the rest of the month, and as you must realize, a potential danger to the community.

We would like to know the reason why we are now required to go to work, after your assurance when we interviewed you here that the government did not want us to work.

The men here demand 50c per hour as the minimum on which it is possible to live in this northern part of the province, where food and clothing are so much dearer than other parts of the province.

Yours faithfully, T. MURPHY, Secretary

National Unemployed Workers' Association.

Mrs. and Mrs. Thomas Munro, who are on their way back to their home in Vancouver after a trip to Winnipeg, arrived in the city on this afternoon's train and will visit here for a few weeks with their son-in-law and daughter, Mr. and Mrs. G. W. Laidler, before proceeding south.

Man in the Moon

Jake says he has not yet given up hope. We may have summer in August.

Evidently Prince Rupert has for a brief period gone off the sunshine standard.

Life has been something like the rear end of a mule lately. It has given out plenty of kicks and has not cared who was in the way.

Why not have the economic conference at Ottawa try its hand at settling this rain problem?

Thursday I strolled down the deserted Third Avenue in the afternoon. I met three people and each deplored the weather conditions that made it impossible for storekeepers and clerks to go out holidaying. Then a dear young thing came along and I expected to hear her swear in polite Canadian when she knocked me cold with: "How delightfully cool, I just revel in this kind of weather."

The way some people talk you'd think they had something to say.
