Halibut Catch Increase Interesting.

The increase in the amount of halibut landed at this port is interesting, and especially so to those who are in business here and who benefit by the arrival of the fishermen and the boats and who sell supplies to the vessels. It is a clear indication that this is the market that is bound to win out. The sale of 824,800 lbs. of halibut at this port is a record for February.

For the month of January it will be remembered the catch landed here was 374,500 lbs. During that same month the halibut landed at Seattle amounted to 352,910 lbs. There was no halibut landed during that month either at Ketchikan or Vancouver.

From the above it is clear that Prince Rupert is getting the business and that she will get more as it develops. This year there are a number of new local boats both in the salmon and halibut business and these will all go to swell the total catch. As long as the men get plenty of ice and bait the fish will come here.

Should Provide Facilities for Boats.

In view of the fact that the fishing business is increasing and that it is the main staple industry of the town it seems reasonable to expect that something more should be done to improve the accommodation for fishing boats in the port. The Dominion Government recently made an agreement with the Provincial Government to provide everything necessary on this coast in the way of wharves. Now the Dominion Government has a piece of waterfront on the city side of the garbage wharf where excellent accommodation could be provided for boats of that type. A substantial breakwater and floats might be built there, or at some other convenient nearby point, so that there would be plenty of shelter for some time to come.

Great Expectations Has An Effect.

The great expectations of the coming weeks are making somewhat of a stir in a small way here already. A number of small businesses have changed hands within the last day or two and some residential property has been sold. Cash has been paid for houses and lots and a few cheap lots have changed hands. All this indicates that the people here are beginning to share the optimism of The News and are showing their faith in the town.

It is not expected that there will be any flurry in real estate as a result of industrial activity. Those who have cheap lots will be able to sell them but there is no reason for high prices. Any very great increase in prices or rents would only tend to drive business away. There is a limit to the price a workman can pay for a house and lot. The wages are limited and so must be the expenses. What is needed just now is cheap lots on which small houses may be built to accommodate those who are in need of them.

Reports From Stewart Most Encouraging.

The Daily News has made frequent reference to the prospects at Stewart and to the certainty that there would be a good deal of activity there this coming summer. Everything that is heard of the camp tends to confirm the opinion. Not only is the Bush mine reported to be almost fabulously rich, but other mines are expected to be developed there which look like shipping mines. It is certain that Stewart will prove one of the paying camps of the province in the very near future. It is understood that work will be commenced very soon on the Little Missouri, which was recently bonded by Sir Donald Mann and that the probability is the mine will be purchased by him.

"THE COTTON AND SILK OF IT"

As a thinking housewife, you would not dream of using silk in the making of articles where cotton is employed—just as you would not use cotton for silk. So it has come to be that a soft kernelled wheat is now being milled into a special pastry flour, giving results unobtainable from ordinary flour milled from hard kernelled wheat.

By the use of Wild Rose Pastry Flour, you not only get better results than you ever dreamed possible, but save at least 25 per cent. in shortening. This in itself ought to be sufficient to induce you to give it a trial. If you are using bakers' bread, and enjoy baking your own pastry, why not order up a 10-lb. sack from your grocer?
