## Riots Among Canadian Troops

### NUMBER OF CANADIAN SOLDIERS KILLED IN RIOTS AND MANY ARE WOUNDED AT RHYL MILITARY CAMP

Disturbances lasted Three Days as Result of Delay in Demobilization; Stores were Raided and Officers Threatened by men who had Seen Three Years Service Overseas.

(Special to The News via G. T. P. Telegraphs.)  
London, March 8.—There have been serious riots among Canadian troops in the old country resulting in many fatalities. It is estimated that from 5 to 27 men were killed and 75 wounded during the rioting during the last three days at Kimmel military camp, Rhyll, Wales. At that point 25,000 Canadians were waiting for demobilization and embarkation. The men have been serving three years in France and complain that embarkation had been postponed while others who had been less service were sent home. Stores were raided and officers threatened and assaulted. It is alleged that some thirty men of foreign extraction fomented the trouble. There was considerable shooting to put down the rioters, but no organized firing and no troops other than Canadians were used to suppress the disturbances. The men have been promised that sailings will be hurried as much as possible. A number of arrests have been made.

### MEMBER'S AMENDMENT TO THE FOREST ACT

Hon. T. D. Pattullo Has Bill Before  
Legislature Designed to  
Encourage Pulp Production.

Several important amendments to the Forest Act are contained in a bill introduced in the legislature by the Hon. T. D. Pattullo, minister of lands. Where a timber license covers timber that is considered more valuable for pulp purpose than for lumber this license may be converted into a pulp license, provided the holder complies with the statutory requirement of erecting a pulp plant at a value of not less than \$300,000. Provision is made for the valuing of timber on any site wanted for in industrial purposes where that site is on land covered by an existing timber license. Where a license has expired owing to non-payment of current fees, the government is taking power to grant a further renewal for a period of one year with an extra penalty attached. In order to insure a proper disposal of slash and thus to reduce the fire risk provision is being made that the cost of destroying the slash shall be borne one-half by the forest protection fund and one-half by the operator.

sistance is Secured.

### HELP LUMBER INDUSTRY HERE

Board of Trade Passes Resolution  
Drawing Attention of Repre-  
sentative at Ottawa  
To Condition.

"Prince Rupert enjoyed last year the greatest prosperity it has seen in its history, due almost entirely to the activity of logging and lumber operations, which have now terminated. In order to encourage this industry many of our local residents became financially interested in these projects and unless something is done to bring to life the lumber industry on this northern coast, many of these ventures will become ruined.

"We believe that the combined energies of this Board and the City Council and citizens of Prince Rupert cannot do anything better than bring such condition of affairs to the notice of our distinguished member, whose co-operation and assistance we feel will assist us in obtaining for this district our rightful share of a business which we feel we are entitled to.

"Therefore, let it be resolved that we, the Board of Trade of the city of Prince Rupert, wire Lieut.-Col. Peck, V. C., D. S. O., M. P., asking for his assistance and that a copy of this resolution be forwarded to him direct to Ottawa."

The above is the text of a resolution passed by the Board of Trade last night which will be sent to Lieut.-Col. Peck at Ottawa. In moving it J. D. McAuley said that during the past year some twelve sawmills were engaged in the production of spruces. There were now many uncut logs on hand and the mills were idle. Hundreds of men were thrown out of work. He suggested that a better rate be given from the Munitions Board ships on lumber going to Europe, with such rate the mills here will be able to compete for the business.

(Special to The News via G. T. P. Telegraphs.)  
Paris, March 8.—The Council of the Great Powers took action today toward relieving the acute situation brought about by the interruption in negotiations at Spa concerning the taking over of German ships and supplying Germany with food.

It is now provided that on delivery of the ships the Allies shall undertake to revictual the Germans until the next harvest, payment for the same being made in coal, potatoes, nitrates and other products which Germany has and which the Allies want.
