## Two Sites Suggested For Fishing Centre.

A suggestion has been made in regard to the location of the fish packing houses and the fishermen's boats in this city, with a view to getting them all together and of having improvements made for the benefit especially of the fishermen.

The proposal is that either one of two sites be chosen. The most ideal of these is located in Shawatlans Passage just beyond Seal Cove near the end of Eleventh Ave. It is said that at this point there is plenty of room, that the railway passes it, that it is perfectly protected from all gales and that with Eleventh Ave. extended for a short distance there would be an easy approach. The only objection is that it is too far from the centre of the city to be convenient. The land belongs to the Provincial Government and doubtless arrangements could be made to secure it for the purpose.

The other site is closer in but not so convenient in the matter of approach nor so well protected. It is on the Dominion Government land on the northeast side of the garbage wharf at the mouth of Morse Creek. There the Government owns 1,500 feet of land which it is said would be very suitable for the fish packing houses and for the fishermen's boats.

## Value of Work To This Port.

The construction of fishermen's floats is purely a Dominion Government concern. The Provincial Government is doing a little at Cow Bay simply because the Dominion has not done it and some accommodation is necessary for the boats. Much more room is needed, however, and if there was a suitable approach built the location at Morse Creek would be convenient. A small breakwater would be needed, built in an L shape to protect the boats. This should be a permanent work which would be good for all time and big enough to accommodate twice the present fleet.

It has been suggested that the Fisheries Committee of the Board of Trade and the Fisheries Committee of the City Council should both busy themselves with this matter. It is the most important concern we have in the city. We are living off the fishermen and it is our duty to provide properly for them. Not only that but we should do everything possible to encourage others to come here. Nothing can help us permanently as a port like building up the fishing industry. It will benefit the railway, the merchants and the property owners. Shipbuilding is good, terminal and transpacific business will be good, but the one outstanding business we have is fishing.

## Businessmen Are Interested in Town.

The meeting of businessmen at the Board of Trade rooms yesterday was an indication of the revival of interest generally in the city and district. When the different interests get together and talk things over grievances are smoothed away and there is a unity of purpose engendered that can be obtained in no other manner. The Board is doing good work already, but there is much more to do.

# Mining Men

Don't pass over the most important gathering of mining men ever held in British Columbia—one of the most representative gatherings of mining interests ever assembled in the Northwest—

## "THE COTTON AND SILK OF IT"

As a thinking housewife, you would not dream of using silk in the making of articles where cotton is employed—just as you would not use cotton for silk. So it has come to be that a soft kernelled wheat is now being milled into a special pastry flour, giving results unobtainable from ordinary flour milled from hard kernelled wheat.

By the use of Wild Rose Pastry Flour, you not only get better results than you ever dreamed possible, but save at least 25 per cent. in shortening. This in itself ought to be sufficient to induce you to give it a trial. If you are using bakers' bread, and enjoy baking your own pastry, why not order up a 10-lb. sack from your grocer?
