Shipbuilding Will Commence at Once.

It is an encouraging story that J. L. Mullen, president of the Prince Rupert Drydock & Engineering Co., has to tell in this paper in regard to the aims and intentions of the company here. The ships are to be commenced at once and already the two officials are on the ground laying out the work for the ways on which the vessels are to be built. It is a happy consummation of all our hopes and fears.

Mr. Mullen asks for the co-operation of all classes in the work which his company has taken in hand. He says it is his intention to establish a permanent business here and to do that it is necessary to compete with other places, not in these particular contracts but in future orders which it is hoped to obtain.

Repair Business To be Built Up.

The building up of the ship repair business should mean a great deal to the city alone. When vessels come here they bring their crews with them and all help to swell the receipts of the merchants who live here.

The News has before this urged the citizens to take in hand the housing question. Houses must be built and it would be much better to have the locally owned property built on by the owners than that the new company should have to provide for its own employees. Houses must be built and now there should surely be no hesitation in getting to work.

The timber merchants have been anticipating that some building would be in progress and have been importing lumber which cannot be produced here. Other orders will follow and there should be good business for everyone. It is to be hoped, however, that local merchants will rise to the occasion and try to fill the demand for all kinds of merchandise which is bound to follow the commencement of the shipbuilding activities.

Great Advertisement For the City.

Prince Rupert will now be advertised as never before. Already The News is getting queries from England and from many points in the United States. More of these will follow for we shall be known as a shipbuilding point and as a ship repair centre and our fame will spread all over the continent and beyond.

At present the company has only two contracts, the work on which will take about a year, but they are already negotiating for other ships for foreign interests and the more successful they are the better it will be for Prince Rupert. Doubtless the people here will feel that the interests of the city and of the new company are one. They will recognize that what makes for the permanency of the new enterprise makes for the permanent prosperity of this place. We expect the shipbuilding company to make profits. That is what they are coming here for. In doing it they will enable others to prosper. This will become an industrial centre, its population will increase, its influence will spread and Prince Rupert will be on the map as a place that does things.

Sunlight does it

You who always dread wash day—because of the hours of weary, wash-board rubbing, the damp steamy air, with perhaps your skirt and shoes splashed and soaked—just forget all that. Come into the ease and comfort of a Sunlight Wash Day.

Sunlight Soap will do the wash—you can go out calling or shopping. Read the directions.

"THE COTTON AND SILK OF IT"

As a thinking housewife, you would not dream of using silk in the making of articles where cotton is employed just as you would not use cotton for silk. So it has come to be that a soft kernelled wheat is now being milled to a special pastry flour, giving results unobtainable from ordinary flour milled from hard kernelled wheat.

By the use of Wild Rose Pastry Flour, you not only get better results than you ever dreamed possible, but save at least 25 per cent. in shortening. This is enough to be sufficient to induce you to give it a trial, you are using bakers' bread, and enjoy baking your pastry, why not order up a 10-lb. sack from your grocer.
