WARNING to the PUBLIC

It has come to my knowledge that the Harry Hanson patent for Hot Water Coils has been infringed from time to time, by the installation of Harry Hanson Coils by unauthorized persons. They say the coil they sell is not a Harry Hanson coil, but if the firebox linings are removed and pipes in any placed in this space, this is an infringement of my patent. If this practice is persisted in by unauthorized persons, I will take steps to protect my interests. Household should also note that by having a Harry Hanson coil installed by any unauthorized person, they also become liable under the patent laws.

Prices for Coils, made of Iron Pipe, \$20 with one Year Guarantee—Made of Brass, from \$25 to \$35, Five Years' Guarantee.

LABOR'S WORK AT CONFERENCE

Draft Proposals Made at Paris;
Radical Proposals But Weak
on Immigration.

The main proposals of the British draft, adopted with minor alterations by the International Labor leaders at Paris as the new charter of labor, are given in a special dispatch.

The provisions of this draft preclude the employment of children under 15 years of age in industrial occupations and of children between 15 and 18 for more than six hours daily. At least two hours each day must be devoted by these young workers to technical or regular education and they won't be permitted to work at night, or on Sundays and holidays.

Saturday Holiday.
A Saturday half-holiday will be introduced into all countries and workers shall be allowed a continuous weekly rest of at least 36 hours while the hours of work shall not exceed eight daily or 48 weekly, and even less than this in dangerous trades.

Women shall not be employed at night, and employers shall not give women work to do at home after their regular day's work. Women shall not be employed in especially dangerous trades, which it is impossible to make healthy, or in mines, or below ground. Women shall not be allowed to work for ten weeks altogether before and after child birth, six weeks to be taken after confinement.

Maternity Insurance.
In every country a system of maternity insurance shall be introduced, providing for compensation at least equal to sickness insurance benefit payable in the country concerned.

Women shall receive the same pay as men for the same jobs. The use of poisonous materials shall be prohibited in all cases where it is possible to secure substitutes for them.

Workers shall have the right of free combination and association in all countries.

Unemployment.
A system of unemployment insurance shall be set up in every country. All workers shall be insured by the state against industrial accidents.

A special code of laws for the protection of seamen shall be established.

Regarding immigration, which shall not be prohibited, in a general way, the charter, according to the correspondent, recognizes the right of any state to restrict immigration temporarily in a period of economic depression or for the protection of public health and recognizes the right of a state to require a certain standard of education from immigrants.

At the annual meeting of the Canadian Red Cross Society held in Toronto on Tuesday, February 27, the following resolution was moved by Sir Richard Lake of Saskatchewan, and seconded by R. B. Bennett, K. C., of Alberta: "That the Executive Committee should be instructed to take the necessary action to secure the amendment of the charter of the society at the present session of the Parliament of Canada by adding thereto the following words

"If high rates of interest must still be paid on Canadian Government borrowings, ALL the people should have the opportunity to earn this interest".
—SIR THOMAS WHITE, Minister of Finance.

Why They Are Buying WAR-SAVINGS STAMPS

The housewife is economizing in comfortable ways and investing in War-Savings Stamps at \$4.02 each this month. In 1924, when these stamps are redeemed at \$5.00 each, every dollar will have greater purchasing power.

The business man is cutting off small and unnecessary expenditures and buying War-Savings Stamps. He knows his money is available any time he really needs it, with added interest. \$5 for \$4 in five years is an excellent return on money otherwise idle.

School children are buying Thrift Stamps at 25 cents each and are filling their Thrift Cards in order to acquire a War-Savings Stamp. They are helping their country and acquiring the habit of Thrift.

Men on the farms are buying W.S.S. because the Government uses the money to finance export orders for the food raised on Canadian farms. This makes their market sure.

Men, women and children of all ages and conditions of life, are investing in W.S.S. because it is a convenient way to "build a bond". The security is absolute and the interest is unusually high. Some day they will look back with great satisfaction to the day when they bought their first War-Savings Stamps.

We Know Where the Milk Goes

We used to wonder where all the milk we put up was going. The personal house-to-house investigations have shown us. We find that dozens of homes buy it by the case—and use no other milk at all. Others buy a dozen tins at a time.

Many homes use it for cooking, and get fresh milk only for the children.
