PRICE FIVE CENTS

THREE AND A HALF MILLION TONS OF SHIPPING FROM GERMANY; 700 STEAMERS

ALL READY TO BE SHIPPED—PAYMENT TO BE MADE
IN VARIOUS WAYS—GERMAN FISHING
TO BE RESUMED IN THE
NORTH SEA

(Special to The News via G. T. P. Telegraphs.)

London, March 17.—The Associated Press learns that the tonnage of German shipping to be surrendered is estimated at three and a half million tons. Italy already is in possession of the Austrian shipping and a very small proportion of German shipping will be entrusted to that country.

France will receive big ocean going steamers to the extent of 100 to 100,000 tons, and the balance will be divided equally between the United States and Great Britain.

Supplies Ready.

Brussels, March 17.—There is available in England for movement to Germany approximately 30,000 tons of pork products, 100 tons of beans, 5,000 tons of rice and 15,000 tons of cereals. The United States has in Rotterdam approximately 75,000 tons of breadstuffs.

A summary of the agreement shows that in fulfilment of the treaty payment by Germany will be made by freight hire owing to the Germans for the use of the shipping and part in credits that Germany may continue to establish and maintain in neutral countries, part from German exports, part from the sale of German owned foreign securities, and part by the use of man gold.

The Germans agreed to place a deposit of gold in the National Bank of Belgium at Brussels for use as collateral.

Blockade Modification.

A board of control for German exports will be established. Germans will be permitted to buy fish from Norway and resume their own fishing in the North Sea.

German representatives asked for a modification of the blockade. While no promises were given them, steps in that direction have already been taken.

The total ships made available under the agreement number more than 700, approximating 1,500,000 tons.

ONE BIG UNION MOVEMENT WAS INAUGURATED

Reorganization of Labor Started
at Calgary Convention; Union
Men Asked to Assess Them-
selves.

(By Mail.)

Calgary, March 14.—The most momentous event that has taken place in the annals of the labor movement in Canada was the action taken at the inter-provincial conference at the Paget hall, when every delegate present voted solidly for breaking away from international affiliation, subject to the approval of the general membership of the delegates' respective unions.

Not only this, but a new organization, subject to a referendum, was formed to embrace the whole of the workers. It will be known as "The One Big Union." In order to carry this into effect the conference adopted the following recommendations of the policy committee:

Recommendations Are Made.

"We recommend the name of the proposed organization be 'The One Big Union.'"

"We recommend the conference elect a committee of five, irrespective of geographical location for the purpose of carrying out the necessary propaganda to make the referendum a success."

"We further recommend that delegates from each province meet and elect a committee of five to work in conjunction with the central committee; also receiving and publishing returns of the vote."

"In the opinion of the committee it will be necessary in establishing an industrial form of organization to work through the existing trades council and district board, and no definite plan of organization be submitted until the referendum has been taken."

"The committee further recommends that after the returns of the vote are received the central committee call a conference of representatives of trades councils and district boards to perfect the plans of organization; basis of referendum of affiliation membership of 5,000 or less to be one delegate; over 5,000, two delegates; over 10,000, three delegates."

"We recommend that an appeal be made to the trades councils and district boards for the payment of two cents per member affiliated to finance the educational campaign for the inauguration of 'The One Big Union.'"

Other Resolutions Adopted.

Several other important resolutions were adopted, mostly without discussion. These include freedom of speech and the lifting of the ban on certain literature, and the release of political prisoners; the expression of an open conviction that the system of industrial service control by the selection of represen-

BOARDING HOUSE WILL BE BUILT AT SHIPYARDS

Three-Story Building to Accom-
modate 100 Men May be
Commenced This
Week.

The Prince Rupert Drydock & Engineering Co., Ltd., has decided to build a large three-story boarding house to accommodate one hundred men. Work on the plans is proceeding and will be pushed and it is possible that work on the buildings may commence this week. It will be erected adjoining the yards.

E. F. Schellenberg, superintendent of the shipbuilding operations, stated this morning that they found it necessary to provide for some of the men so that their work might not be hampered at the start. He hoped it would not be necessary to provide for more but that others would undertake the housing problem. He was of opinion that it would pay well to erect not only small cottages but some good houses.

It is expected that J. L. Mullen, president of the company, will return from Vancouver on Wednesday and Newman Erb, chairman of the Board of Directors, is expected to arrive next Sunday evening.

IMMENSE DAMAGE BY BRITISH AIR RAIDS
