Did it ever occur to you that the cost of operating an Automatic Electric Range, including the cost of power, for water heating is actually less than the cost of coal used for the same purpose?

Isn't such information worthy of your consideration?

## SOLDIERS MAY LEARN TRAWL FISHING HERE

**Dominion Government Urged to Establish School for Teaching Returned Men the Work.**

Recommendations that Ottawa develop the fishing industry of the Pacific Coast were made in the Legislature at the week end in a report by Chairman G. G. McGeer of the soldier rehabilitation committee. The report proposes that the Dominion Government establish a trawling school for deep sea fishing, operated in connection with the naval training school at Esquimalt. There should also be fish curing, packing and marketing schools at Vancouver, Prince Rupert and Victoria, says the report.

If the Government of the Dominion does not see its way clear to undertake this work, then the entire fisheries of this province should be turned over to the Provincial Government by way of leasing the fishing grounds to the province.

### Conservation Urged.

The report suggests that fishing of the Fraser River does not offer advantages to the returned soldier in view of the great depletion since 1914. In support of this it is mentioned that the 1918 catch was 75,000 cases and in 1914, the brood year for 1918, the catch was 553,000 cases. Similar depletions, says the report, are being made in the northern rivers. A policy of conservation on the rivers of the province is held to be imperative.

Depletion in the halibut catch is also deplored and is one reason for the committee's recommendation that the Dominion take protective measures.

### Establish Facts.

"Your committee," says the report, "also found that a considerable amount of training is necessary before a man should engage in this particular occupation and that more vessels of a suitable type would be necessary."

"In the light of the above facts your committee humbly recommends that the Government of the Province of British Columbia urge upon the Dominion Government the establishment on the Pacific coast of a trawling school for the training of men to engage in deepsea trawl fishing, by providing a number of suitable vessels equipped for deepsea fishing, officered by experienced navigators, engineers and fishermen, who would act in the capacity of instructors, and to whom returned men could be apprenticed for instruction in navigation, operation of engines, care, casting and hauling of trawling nets, and the dressing, storing, curing, packing and shipment of fish, the men during their apprenticeship to be paid a proper living wage, and to be given a bonus from the ship's earnings after capital expenditure has been provided for."

## FREE TRADER YET SAYS COLONEL PECK

In the much quoted speech in the House of Commons Col. Peck said it was a great help to them at the front to know that they had behind them in Canada a strong, generous and chivalrous people. He mentioned especially the "fair women of our dear Canada who met day after day to organize those comforts and to prepare those parcels which cheered them in their warfare."

He criticized the Canadian Press Association for sending a statement to Canada that soldiers in riots had broken into girls' rooms. He said that it was officially stated that the soldiers had never gone into the nurses' quarters, but had behaved with absolute chivalry. He thought the authorities should look into this matter.

He had been four years overseas fighting for the principles of Liberalism and if the Liberal party had not come up to scratch it was no fault of his. He had had no belief in the Liberals getting on with the war, but the Unionist government had offered them a definite policy, while the Liberals' policy was of shifting sand. When the Liberal party could show him they had a more progressive policy and when they could convince him that they were in earnest and meant to pursue it, he would follow it.

### Free Trader.

"I am a free-trader," he said, amid loud cheers from the opposition, to which he retorted that he only wished they had had the same enthusiasm for free trade in this country during the last ten or twenty years. He said he had been a supporter of the Liberal party for a long time, but like Dr. Michael Clark, had found little difference between the two parties.

He said he was elected as a soldier candidate to support the Union Government and, he added, "I will do so until I see something better."

IN THE SUPREME COURT OF BRITISH COLUMBIA.

## SYNOPSIS OF LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties to four or more may arrange for adjacent pre-emptions, with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 5 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes, areas exceeding 640 acres may be leased by one person or company.

### PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

### TOWNSITE PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted agreements to purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an allotment for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.

For information apply to any Provincial Government Agent or to

G. R. NADEN,  
Deputy Minister of Lands,  
Victoria, B. C.
