## DISCUSSED

Some Criticism As To Clothing Being Furnished Unemployed-Mayor Defends Present Plan

After Ald. Casey had offered complaint as to the quality of goods which were being distributed by the city to relief workers. suggesting that merchants were "sluffing off old stuff," the city council last night, after considerable discussion, decided that, in future, the men will be given detailed figures as to the actual cost of each article with which they are, supplied. Heretofore, the policy has been to inform the men as to the total cost of an issue of several articles of clothing.

Ald. Casey started his criticism by showing to the council a boot from which the heel had become loose after being worn for only one day. He urged that the men be given credit slips and be permitted to buy clothing themselves. He thought this would be the better

Mayor Orme resented the statement of Ald. Casey that the merchants were "sluffing off stuff." He considered this statement to be quite untrue. On the other hand, he believed the clothing which was being distributed by the city was generally excellent value for the cost. The system of the city distributing the clothing had been adopted in order to obviate confusion and obtain the best value possible. It was quite ance committee that \$8,000 of possible that, in a large order of Prince Rupert bonds be sold to the lays might be found. It did not follow Co. at a yield of seven percent and lays that everything should be condemnea.

After various of the aldermen had stated that they saw no objection to the men being informed as to the cost of each individual article, it was decided that they would be henceforth so informed.

## RESOLUTION ON RELIEF

City Council Heads What Municipalities Union is Doing in Unemployment Situation

The city council last night heard lengthy report from a special committee of the Union of British Columbia Municipalities which recently held a conference with the provincial government and otherwise went into the present unemployment relief situation as it affects the municipalities.

which had been forwarded to Hon. W. A. Gordon, federal minister of the federal government taking the its mild weather, had become a the oven a few minutes to soften. mecca for thousands of unemployed. The schedule of monthly relief caroons. allowances for single and married unemployed as proposed by the provincial government was considered entirely inadequate. The committee urged that a line of credit would have to be extended the municipalities if they were to carry on financing relief work as they had been doing. The committee, in its resolution to Mr. Gordon, further urged ment representative being appoinlumbia in connection with the operation of relief.

referred to the relief committee. 10, 1859. The mayor expressed the opinion hat the executive of the Union of British Columbia Municipalities had been on the job as far as unemployment relief was concerned. Suggestions which had been offered by Prince Rupert were taken care of in the resolution of the committee

## Objection to Garbage Dump

Protest at Nuisance on Highway Made By Eagles' Lodge to City Council

A letter from Angelo Astori, secretary of the Fraternal Order of Eagles, read at last night's meeting of the city council, entered vigorous protest on behalf of the membership of that organization at the deplorable condition in regard to disagreeable odor which had been created by the action of the city in placing its garbage dump on the Skeena River Highway near the end of the city limits. The lodge strongly urged the council to devise ways and means of overcoming the nuisance.

The communication was referred without discussion to the board of

## Secure Cash During Hard Times

News Want Ads.

## The Classified Ads.

Many people have something in the house they would like to sell which could be turned into money if they knew of a customer. Try a classified advertisement. Most people read the classifieds. For about fifty cents you can let them know about it and it may prove a profitable transaction.

## Renting the House

There are a number of houses in the city not rented yet and many people make little effort to secure a tenant. Others who are wise to their opoprtunities try a classified advertisement in the "For Rent" column and often get results. As one satisfied customer said recently: "Those little ads certainly do bring results."

## Some Like Reader Ads.

Some people after trying other kinds of advertising decide to try a reader among the locals and personals. Then they have got results. The cost is a little higher but they have been well satisfied. When conditions are like they are today the newspapers can often help. The price is not very high. Do not lie down and bemoan your hard fate. Try a different kind of advertisement and if that is not successful try again.
