WHOSE DUTY IS IT?

The federal government declares it is the duty of the provincial government to look after the unemployed but the provincial government has been putting it up to Ottawa. The municipalities also are a factor and have to bear the brunt of the trouble because the municipal councils are the only authorities that can be reached directly by the great mass of the people out of work.

Evidently the framers of the British North America Act, which is the basis of the Canadian constitution, did not anticipate any unemployment problem, so they did not provide for its control. However, in Canada anything not mentioned in the B. N. A. is supposed to be controlled by the federal government.

Up to the present the three governments have co-operated but there is an evident desire to shift so onerous a burden on some other shoulders. Nobody wants this newborn foundling and each says it belongs to the other.

PRINCE RUPERT ON THE OUTSIDE

At Edmonton there is a golf club named the Prince Rupert Club and its professional, Joe Pryke, recently won the Alberta open golf championship, with the result that the Prince Rupert Club has been much in the newspapers there. Evidently Prince Rupert is a winner on the prai-

Just now the city of Prince Rupert is not exactly a winner as a seaport but that is only a brief lapse. Pretty soon we can expect that Prince Rupert will again be in the public eye as a successful centre even if the city does not produce a golf champion. There are enough people who have D faith in the port to make it go and go with a proper win- RAJAH IS ning swing, once world conditions improve.

VALUABLE BIRTHRIGHT

An eastern newspaper says that every boy or girl born in this country inherits a debt of \$600 at birth. It says this is so because the debt of the country, federal, provincial, municipal and railway, amounts in all to about six billions of dollars. This debt will never be paid but the interest has to be met so each child is saddled immediately with interest debts amounting to about thirty dollars annually. That is one cheerful way of looking at the financial problem.
