Canadian Club Lunch Was Most Encouraging.

The lunch given by the Canadian Club and which was addressed by Newman Erb yesterday afternoon was most encouraging. It was a heart to heart talk by one businessman to others and it was appreciated. There was much that could not be published but which was of intense interest to those who attended. There was no mincing of words. It was clearly shown that Prince Rupert people must look very largely to themselves if the city is to be built up on sound foundations. Outsiders can help but the people are the real factors in the life of the community. Their own efforts are the efforts that tell.

There was a large attendance at the luncheon and everyone was impressed. They felt that the man who was talking to them was a man who knew.

Housing Schemes Being Considered.

This afternoon there is a meeting of the Board of Trade in the city hall to consider the question of housing. It is the one important question of the day. It has to be tackled and that with courage. Every man should do his part and do it as quickly as possible.

A visitor to the Daily News office yesterday stated that he could build a good four-roomed house with bath for \$1,400. That placed on a good lot would cost in all \$2,000 perhaps. That would have to rent for about \$18 a month in order to pay ten per cent interest on the investment. Many good lots can be purchased for less money than the sum mentioned. A few lots may be worth more, but that seems to be about the average price at present in a fair locality. Yet there are some people who say that house building would not pay.

Situation in Austria

Might Have Been Serious.

The situation in Austria looked serious for a short time. The Bolsheviks were in control at Budapest and there was danger of a quick uprising which it might have been difficult to stem. The scheme seems to have been engineered from Russia with Lenin at the head.

There is no objection to Austria being ruled by Soviets or in any other way. There is objection, however, to that country escaping the retribution which it tried to bring on the rest of the world. They overran part of Italy and Austrian troops were in France with the Germans when part of the destruction took place. It was they who were the chief instigators in the war and they must pay the price. What justice would there be in allowing them to escape and go scot free after perpetrating such untold horrors on the rest of the civilized world. They will have to help rebuild France and Belgium and they will have to submit to disarmament and be under direction for years to come.

Co-operative Plan Is Suitable Here.

The co-operative building society, particulars of which were published yesterday, might with some modifications be applicable for this city. Many favor a short life society, especially for a new place where so many people are moving in and out. Those who would like to build or who propose building in the not too far distant future, might well consider the advisability of organizing. It needs one or two public spirited men to take the lead.

This suggestion has nothing to do with the main building proposals which will be handled in a larger way. It is only for those who wish to save from their earnings enough money to erect a house for themselves.

Fish Harvest Is Increasing.

Now that everyone is talking shipbuilding and thinking of that as the chief reason for house building here, it might not be forgotten that the fishing business is on the increase and that in the near future there will have to be houses built to accommodate the increase in that industry. Those who follow the fish arrivals as published in the Daily News cannot fail to have noticed the regularity of shipments and the immense quantity of fish that is shipped from this port.

Within a few days the company boats should be fishing. At present they are being overhauled in readiness for the season's work and when these boats are added to those already operating, the catch coming to this port will exceed anything heretofore known.

FURS FURS

Ship to Us Direct

The top market price paid and equitable grading made. No delays at any point.

We are registered with and recognized by the United States War Trade Board and all of the Collectors of Customs under licence P. B. F. 30, and you can send your furs to us direct by our tag or any tag, changed to suit, if marked "Furs of Canadian Origin" and your furs will come right through.

FAIR GRADING

The rules and ethics of the exchange do not permit of sending out alluring price-lists, yet we give you an exact and expert grading and pay you at a rate of five to twenty-five cents more on the dollar than the average advertising fur company as we cut out all middlemen's profit in dealing direct with you.

LANDS WANTED

at Cash Prices

for

SOLDIER SETTLERS

Powers are granted to the Soldier Settlement Board of Canada to purchase land to be resold to qualified returned soldiers settling on land.

To assist soldiers in locating in any suitable district of British Columbia that they wish, the Soldier Settlement Board desires to have filed with it full description and lowest cash prices on a number of select holdings available for purchase in each district of the province. Purchases by the Board will be paid for in CASH.

The public is informed that this land is for purchase by returned soldiers and must be of good agricultural quality, and reasonable price, making possible the success of the soldier as a farmer. It should be within seven miles of transportation, open, water supply assured, and of moderate price. In giving particulars, mention nearest market and school. In comparison with the vast supply of vacant lands the number of farms immediately required will be very limited. Owners, therefore, will kindly assist the Board by offering for the present only land which fills above requirements.

No commission will be charged or paid. No offers to sell will be binding on the person offering unless a sale is effected, and no obligation will be on the Board to accept any offer.

If application from a returned soldier be received for the purchase of land, an inspection and valuation of such land may be made by the Board, as soon as free from snow. If approved, negotiations may be entered into for the purchase and sale thereof. An approved list is desired for each district of British Columbia.
