## DEPARTMENT OF PUBLIC HEALTH IN GOVERNMENT OF THE COUNTRY IS LATEST MOVE OF ADMINISTRATION

(Special to The News via G. T. P. Telegraphs.)

Ottawa, March 27.—Hon. N. W. Rowell introduced into the House of Commons yesterday a bill to create a Federal Department of Public Health. It is to be presided over by a minister and usual provisions are made for the appointment of a deputy minister and necessary officers and staff.

The powers of the minister will extend to and include all matters and questions relating to the promotion and preservation of health and social welfare.

It was stated in the House that the amount of property held in Canada by alien enemies as reported to the State Department is estimated at a value of \$38,000,000. Investigations are still proceeding and reports of all alien property are being asked for. The Minister of Militia stated there was no information as to whether or not Canadian soldiers had been made use of in police work in Ireland with a view to preventing the Sinn Feiners' insurrection, but a cable had been sent for the desired information.

## BUILDING IS CONSIDERED BY BIG MEETING

Board of Trade Brings Together Many Citizens Who Discuss Problem and Appoint Committee.

At the meeting of the Board of Trade in the city hall yesterday, called for the purpose of considering the building situation in the city in view of the immediate need of several hundred houses within the next few months, a committee of five was appointed to go into the question thoroughly and formulate a definite plan. This committee was named as follows: M. P. McCaffery, Thomas McClymont, Dan Morrison, J. H. Thompson and W. E. Williams.

There was a large attendance and much interest was taken in the proceedings and a lively discussion took place.

Mr. Miller, who is here representing the receiver of the Grand Trunk Pacific Railway, outlined a proposal for civic building under which Newman Erb had offered to provide the money. Under this scheme a number of houses would be built on city or Government lots and sold or rented to people who needed them. There would be no difficulty over the financing as the money would be available at once.

There were a number of proposals made in regard to formation of building societies and clubs, but it seemed to be the general opinion of the meeting that none of those plans would meet the present pressing need. Something more would have to be done and either the new company or the city would have to undertake it.

**Company's Attitude.**  
Mr. Schellenberg, on behalf of the Prince Rupert Drydock & Engineering Co., said that they were here to build ships and would prefer to have nothing to do with the housing plan. If the people did not undertake it, however, they would have to take steps to look after their own employees.

William Bruce suggested the four apartment house instead of individual cottage and preferably a brick or concrete building instead of wood.

W. J. Alder told of some of his experiences with loan and mortgage companies and thought there might be a great many lots on the sewers which might be obtained for the purpose in hand.

The discussion was continued by Messrs. Fisher, Nickerson, Albert, McClymont and McLennan.

**All Do Part.**  
Mr. McCaffery, who presided, urged that everyone should do as much as possible in helping to tide over the difficulty. He pointed out that owing to the present low price of lots it was cheaper to build here today than it was in 1913. He referred to what had been done in Seattle and other places and urged that the citizens unite on a general scheme which would be of benefit to the community.

## JUNIOR ATHLETIC ASSOCIATION NOW

New Organization Decides to Restrict Activities to Younger Portion of Community.

The Juniors Athletic Association was the title chosen for the new organization which was recently formed and at the meeting in the Council Chamber last night it was decided to restrict its activities very largely to work among the children of school age. The following executive was chosen to co-operate with the officers who were previously elected: W. D. Vance, E. D. Johnson, George Tate, T. Duncan, W. G. Humble, Geo. Frizzell, W. H. Vickers, Canon Rix, Dr. Grant and W. E. Fisher.

Messrs. Brady, Duncan and Vickers were appointed a committee to prepare a constitution and bylaws.

The members of the association are to meet at the Market Square on Saturday at 2.30 and from there will visit the school grounds with a view to making recommendations. It was also decided that the School Board be urged to provide cover for the pupils in the grounds and gymnastic equipment.

The executive will make arrangements to meet the City Council on Monday night and parents of the children are invited to attend on that occasion. Arrangements will also be made to meet the school board at an early date in order to confer on the proposed improvements.

The secretary was appointed to meet the Agricultural Association today and lay before that body the plans of the new organization.

## HOME WALTZ HEARD AT MIDNIGHT PROMPT

Cinderella Under Auspices of Adair Carss Chapter, I. O. D. E. Is Enjoyable Event.

The lure of the light gymnastic brought together some two hundred people to the St. Andrew's Hall last night on the invitation of the Adair Carss Chapter of the Daughters of the Empire. It was a cinderella, and promptly at midnight the dreamy strain of the home waltz sent the dancers home reluctantly after spending a most enjoyable evening.

Remarks on the advantages of the cinderella over the late dances were general, and it was good news to hear the regent of the Chapter, Mrs. Riley, say that the intention was to hold a number of similar events in the near future.

Constable Adams kept the door, G. W. Kerr was floor manager, and Harvey's orchestra provided excellent music.

## PEACE CONFERENCE PLANS PRELIMINARY PEACE TERMS TO SETTLE GRAVE QUESTIONS

PROPOSALS ARE UNDER CONSIDERATION OF INNER COUNCIL OF FOUR AND WILL BE DRASTIC AND ELASTIC SAYS THE PALL MALL GAZETTE

(Special to The News via G. T. P. Telegraphs.)

London, March 27.—The Paris correspondent of the Pall Mall Gazette says on high authority that "In order to avoid the perils which will inevitably arise if preliminary peace terms are not drafted until such time as the various commissions shall have presented their respective reports, representatives of the Great Powers have drawn up certain proposals which seem ample to constitute the basis of the first treaty, or one analogous to that signed at Versailles in 1871."

These proposals are under consideration of the "Inner Council of Four, Lloyd George, Clemenceau, Orlando and Wilson, which has temporarily superseded the council of ten and that this arrangement will greatly expedite the decisions.

"A final settlement will not be aimed at, but terms will be sufficiently firm, drastic and definite to provide for an enduring peace, to justify early demobilization.

"This should simplify the grave international food problem, and pave the way for speedy industrial reconstruction and financial reorganization."
