Athletic Club For the Seniors.

Now that the Junior Athletic Association has been formed it is in order for the seniors to bestir themselves and prepare for the coming season. There is plenty of scope for their activities and as people come in for the shipyard work there will be more need of the organization. It would be wise to begin soon, however, in order to get the preparations under way for the spring activities.

The Tennis Club is advertising a meeting, the Swimming Club met last night, but there has been so far no meeting of those interested in baseball, football, and athletic sports generally. The time to take action is now while everybody is looking forward to getting out in the sun and enjoying the long evenings.

Health Department Being Established.

The establishment of a Public Health Department in connection with the Dominion Government is something that has been strongly advocated for many years by people who had the welfare of the country at heart. The great thing will be for the Government to see that it becomes effective. To establish the department is a small matter; to get it to work and have it perform the duties expected of it is quite another matter.

For years past the charge has been made against both the Provincial and Dominion Governments that the Governments paid more attention to the breeding of cattle and caring for their health than they did for the health of the people. Often there was truth in the allegation. If the Dominion Government really mean making a change in policy in that regard they will be deserving of credit.

Convert to Northern British Columbia.

The Minister of Agriculture has become converted to a firm belief in the potentialities of the northern half of the province, and to the writer today stated he expected within a few days to be able to announce a working plan which will be followed this year, says the Victoria correspondent of the Vancouver World. The land settlement areas are to be enlarged, clearing is to be proceeded with in certain districts, and every encouragement given to all prospective settlers. Veterans are to have preference and he hopes the returned men will awaken to a realization of the vast agricultural empire lying along the line of the Grand Trunk Pacific—a farming district second to none in Canada and peculiarly fitted to the needs of the farmer soldiers who served in France.

It is a great advantage to this part of the country to have two live representatives in the Legislature who are right in touch with the affairs of the north and central sections of the community. Messrs. Manson and Pattullo are apparently doing good missionary work, which is already leading to action.

ROYAL YEAST CAKES

The quality of Royal Yeast Cakes is such that it cannot be improved, so we are improving the package. The change from a round to a square package will be made as rapidly as practical. The quality of the round and square cakes is guaranteed to be identical in every respect. Each of the square cakes are wrapped separately by machinery, in wax paper, in such a manner as to make them practically airtight, and scientifically hygienic.

ROYAL YEAST HAS BEEN THE STANDARD YEAST OF CANADA FOR NEARLY HALF A CENTURY
