## SHIP LIQUOR IN HAY BALES

**D. D. McKenzie Charges It Is Stored Illegally By Customs Department Under License.**

Ottawa, March 29. — That improper use is being made of customs warehouses in Nova Scotia was made by D. D. McKenzie when the customs estimates were under consideration in the House. It was positively stated that the Temperance Act was being regularly broken, liquor being shipped to these bonded warehouses as pressed hay in carloads and stored there illegally by men who had received licenses or claimed to have them from the Federal Government.

Before the House went into committee of supply, good headway was made with Hon. Hugh Guthrie's bill dealing with bankruptcy to unify various provincial laws and have them covered by one federal enactment.

## WILL INCREASE LICENSE FEE FOR CANNERS

In Future Each Cannery Will Contribute \$500 to Revenue Instead of \$100.

Ottawa, March 29. — Hon. A. K. MacLean introduced into the House a resolution to increase the annual license fee for British Columbia salmon canneries from \$100 to \$500. He said that the commission which investigated the fisheries two years ago, recommended that the annual license be increased to \$1,000. The Department of Fisheries however did not deem it expedient to make the increase so large.

The resolution and a bill was introduced and given its first reading.

At the evening session the bill to amend the Fish Inspection Act, to make inspection compulsory was introduced. Mr. McKenzie, leader of the opposition, thought the bill capable of imposing a hardship on fishermen. The House adopted the resolution and a bill will be introduced.
