DAILY EDITION. Thursday, April 3, 1919.

Angling is Sport With Possibilities.

Judging from all that is heard here, it is very evident that enough is not made of the fishing privileges of the district. The few pet streams where big baskets can be secured are the drawing cards where a few anglers go once or twice a year. To the man or woman who loves being outdoors that is a mere nothing. The smaller streams and lakes or the ones that are not so noted as basket fillers provide for these at more accessible points, and there is no reason why they should not be frequented a good deal.

There is really better sport in fishing where the trout are a little shy. There is skill in luring the big fellow who sulks or who carries off the bait without getting caught. The true angler will fish all day if he gets an occasional nibble.

Many anglers scorn to use any lure but the fly, and these are carefully studied and changed as the seasons change. To catch a trout with a fly is far better fun than pulling him out from the depths after he has swallowed some beef or worms. Everyone to his trade, however. The bait fisherman and the angler who uses a fly are usually two different species. Those who prefer a breakfast of trout to a day's fly casting, often without much result, dig worms or frequent the butcher shop just before the outing. There is good fun and healthy recreation to be had either way.

Public Library May Be Secured.

There has been a good deal of talk about establishing a public library in Prince Rupert. At the recent session of the Legislature a Library Act was passed which makes a public library possible in every municipality. The following three clauses of the bill will give the method to be adopted in connection with the organization of an institution of that kind:

"Upon receipt of a petition in the Form No. 2 in the Schedule, signed in the case of a city municipality having a population of over five thousand by at least one hundred electors, and in the case of a city municipality having a population of less than five thousand by at least fifty electors, and in the case of a district municipality by at least twenty-five electors, the Municipal Council shall pass a by-law for the establishment of a municipal public library in the Form No. 3 in the Schedule, and submit the same for the assent of the electors at the next election held in the municipality for any other purpose.

"On the taking effect of such by-law, the Municipal Council may establish, equip, and maintain a public library, or maintain and support any public library already established, or enter into an agreement for library service as provided in section 37 of this Act; and may annually levy and cause to be collected as part of the general municipal taxes an amount to provide a library fund, which fund shall be kept separate from the other money of the city, and shall be used exclusively to establish, equip, maintain, and support such library. The moneys standing at the credit of the library fund so provided shall be paid over from time to time, upon the order of the Library Board, by the treasurer of the municipality.

"For the government of such library, a Public Library Board of five members shall be appointed, and shall have charge of the management, regulation, and control of the library. The Board shall be composed of the mayor or reeve of the municipality, or a member of the Municipal Council designated by the mayor or reeve, and four other persons appointed by the Municipal Council, chosen from the citizens of the municipality with reference to their fitness for such office."
