More Arguments For A Library.

The librarian of the American Library Association and of the Juneau Public Library, Grace W. Bishop, recently made a report on the work. She told of the receipt of a number of educational books in which she said much interest was taken by the people served. To quote from the Alaska Daily Empire:

"It is impossible to estimate the tremendous amount of good the American Library Association has accomplished during the period of the war by supplying reading matter to all the army and navy camps both here and abroad. Supplementing the thousands of books of fiction donated by the people all over the United States they have endeavored to provide technical books on subjects of special interest and value to the enlisted men who were desirous of increasing their knowledge along certain lines.

"There books have been of great assistance to the men who wish to have more knowledge of work that perhaps have had to be taken up on account of war conditions. Vocational lists on 26 different subjects including gas engineers, automobiles, electrical engineering, carpentry, journalism, etc., were sent out to different camps and stations.

"Upon requisition by the men the latest books on these subjects have been sent from the A. L. A. headquarters. Some time ago the librarian of the Juneau Public Library was asked to be the A. L. A. supervisor for the camps in Alaska. There are nine navy and army posts in this district and several hundred books have been obtained for them in this manner."

Unite to Help Build the City.

It will be impossible for the shipbuilding company to secure the employees they need unless there are houses for them to live in. The city cannot possibly grow without houses. When there has been a time of stress in other cities the merchants and others have come to the rescue in order that the place might reap the full fruits of any benefits that may accrue from an increase in industries.

Here the business and professional men of the city are being asked to help provide for the influx of population. Some of them are responding well. The canvass is still going on and all those who have not yet done their part are asked to come forward and subscribe as much as they possibly can in order that the work may proceed.

Prince Rupert united on a plan for advancement will be strong and irresistible. Prince Rupert divided and careless cannot make the most of her opportunities.

Preparations for The Fall Fair.

This is the time to get busy on the preparations for the next fall fair. The committee understands that and preparations are being pushed forward with vigor. It is rather a late start but not too late to put up an exhibit that will be a credit to the town.

Last year the directors did some excellent work in raising much needed money to complete the building and get everything going. This year it will be for the new board of take advantage of that condition and to put up a real exhibit as well as a fair.

The new officers are all energetic and the committees are enthusiastic. Under such conditions results are bound to come. All must do their part in the work, however, if the exhibit this year is to be in keeping with the general growth and importance of the city.

Gives Better Results Than Milk

Why should you feed milk to your calves when you can sell that milk, gaining better results by feeding—

BLATCHFORD'S Calf Meal

Containing a wider range of proper nutriment, which is one of the secrets of successful calf raising, it surpasses any other food on the market. As the final results in money earned from your cattle depends upon the bringing up of the calf, it is of vital interest to you to inquire into this calf food.

For That Non-Paying Cow

Maybe just one cow in your herd, though eating as much as the others, only produces a few quarts of milk a day. There's a remedy for this in—

PRATT'S Stock Food

With a little attention in feeding, you can usually turn her into a profit-paying cow. PRATT'S STOCK FOOD assists Nature in aiding digestion and increasing the flow of milk. Begin feeding that poor milker, today. It means the difference between profit and loss.
