DAILY EDITION.

Friday, April 11, 1919.

Welcome Peck And His Men.

An invitation has been extended to Lieut.-Col. Peck and his men to return this way instead of going by way of the C. P. R. to Vancouver. It is a splendid idea and The News will be glad to do all in its power to help make the reception a decided success. The city will be a unit in according him a rousing welcome.

Kaiser Must Expiate Crimes.

General satisfaction was expressed here yesterday afternoon when it was made known through the medium of The News that the ex-Kaiser was to be tried for his crimes and that the Germans would have to pay the heavy damages which have been set at five billion dollars within two years and a regular assessment for another thirty years. That will cover the present generation. The next generation will be free from the tax.

Many people doubt if William Hohenzollern will allow himself to be taken to Belgium to be tried. It would be too much of a nightmare. The hand of fate is working to bring home to the criminals the true significance of what they have tried to do to others. "Frightfulness" may be all right for the winner, but it is no policy for a loser.

School Grounds To Be Improved.

The Junior Athletic Association, headed by J. C. McLennan, is doing good work in drawing attention to the need of improved school grounds. They last night made some valuable recommendations to the school board, which, it was promised would be well considered with a view to action. The school board is alive to the need of better conditions, but the action of the association strengthens their hands and will help to bring public opinion into line so that the demand may be insistent. Nothing should be too good for the young people who are growing up here.

Increased Pay for School Staff.

The evolution of the teaching profession is proceeding at a goodly rate. Little more than a generation ago teachers were paid almost nothing and in some districts were boarded around among the people of the district. Those were the days when it was considered that children were little creatures who were born to obey severe and unreasonable parents. With a change in viewpoint in regard to children has come a change in regard to the teacher. She has had to fight for her right and for the rights of the children and it has been a long struggle. Today we are just beginning to recognize that the teaching profession is the most important in every community, ranking far ahead of the law or medicine. While the work of lawyers and doctors is only to patch up, or possibly to cure, the work of the teacher is to prevent the ills and in the last analysis to entirely eliminate the other two professions.

Recognizing the value of the work of teachers in any community the school boards are gradually improving the conditions under which the teachers work and are also recognizing the importance of their labors with the result that they are receiving better remuneration. With better pay, the better class of men and women will be attracted to the profession and will be induced to make it a life work.
