**The Value of Good Glasses**

GLASSES have a value only so far as they represent the skill of your optician.

THE all important thing is that they correct and overcome the defects that cause visual trouble and discomfort. Nothing else will satisfy. No other standard is high enough.

MEASURE the worth of your glasses by what they do—not by what they are.

WHEN we make glasses, it is after a deliberate and careful examination, estimating accurately the amount of the defect, and grinding the lenses to cancel and eliminate it.
